Nomor 1.	
Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Ant-eaters are perhaps the most curious looking animals. (2) Their long head and snout look like tubes, and they have no teeth at all. Their front legs are very strong and armed with heavy curved claws with which they break open the nets of ants and termites and then, when the insects rush out, use their long, sticky tongues to lick them up at great speed. (3) True ant-eaters are found in the swamps and forests of central and South America. Scaly ant-caters, or pangolins, are found in Africa and tropical Asia. (4) Various other insect-eating animals are sometimes called ant-caters, although they really belong to other groups of animals. One of them is the ant-bear, which lives on the plains of South and Central Africa. This has long, erect cars but short blunt claws, an almost hairless tail, yellow brown in color. Unlike the true ant-eaters, it has small teeth. From the passage above, we can conclude that.... A. all ants are friends of other insects B. ants live in the disgusted places C. ants are classified as predators D. ants belong to the insect group E. ants usually eat death animals
Pembahasan	**Jawaban: C. ants are classified as predators** **Pembahasan:** Dari teks tersebut dapat disimpulkan bahwa semut dapat digolongkan menjadi predator.

Nomor 3.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Keith recently came back from a trip to Chicago, Illinois. This midwestern metropolis is found along the shore of Lake Michigan. During his visit, Keith spent a lot of time exploring the city to visit important landmarks and monuments. (2) Keith **loves** baseball, and he made sure to take a visit to Wrigley Field. Not only did he take a tour of this spectacular stadium, but he also got to watch a Chicago Cubs game. In the stadium, Keith and the other fans cheered for the Cubs. Keith was happy that the Cubs won with a score of 5-4. (3)Chicago has many historic places to visit. Keith found the Chicago Water Tower impressive as it is one of the few remaining landmarks to have survived the Great Chicago Fire of 1871. Keith also took a walk through Jackson Park, a great outdoor space that hosted the World's Fair of 1892. The park is great for a leisurely stroll, and **it** still features some of the original architecture and replicas of monuments that were featured in the World's Fair. (4) During the last part of his visit, Keith managed to climb the stairs inside of the Willis Tower, a 110-story skyscraper. Despite the challenge of climbing the many flights of stairs, Keith felt that reaching the top was worth the effort. From the rooftop, Keith received a gorgeous view of the city's skyline with Lake Michigan in the background. From the text above, it indicates that the reason Keith impressed by the chicago water tower because of … A. It is the tallest building in the city B. It supplies water to the entire population C. It is the only remaining monument of the world's fair D. It is one of few landmarks that survived a historical fire E. It is the original architecture and replicas of
Pembahasan	**Jawaban: D. It is one of few landmarks that survived a historical fire** **Pembahasan:** Perhatikan paragraf ketiga, kalimat "Keith found the Chicago Water Tower impressive as it is one of the few remaining landmarks to have survived the Great Chicago Fire of 1871." Kata ini menunjukan bahwa water tower merupakan salah satu dari sedikit landmark yang tersisa dan selamat dari kebakaran. Maka opsi yang benar adalah opsi D. it is one of few landmarks that survived a historical fire (itu adalah salah satu dari sedikit landmark yang selamat dari kebakaran bersejarah).

Soal	Bacalah tulisan berikut, kemudian jawablah soal-soal yang tersedia dengan memilih jawaban yang tepat di antara pilihan jawaban A, B, C, D atau E. Teks While some of the staples of eating healty are pretty easy to remember-eating balanced meals that include veggies, protein and starch, and eating lots of fiber, not too much sugar and not too much fat-sometimes keeping track of all of the little ways that diet can influence our health can be challenge. Yet, if there's one will be presented this April at a meeting of the American Academy of Neurology, because of the high concentration of antioxidants called flavonoids found in dark chocolate, inculding every now and then might decrease the risk for stroke, and may also reduce the risk of death after suffering a stroke. The findings, based on a review of three previous studies, suggest that the antioxidants in chocolate may play a role in reducing stroke risk, according to researchers from Canada's McMaster University and University of Toronto. While one study included in the review found no correlation between chocolate consumption and stroke risk, a second study, which included nearly 45,000 people, found that those who ate one serving of chocolate per week were 22% less likely to have a stroke than those who ate no chocolate. (According to Hershey's, for example, one serving of it's Extra Dark chocolate is 37 grams, which, the company boasts, provides the antioxidant equivalent of two glasess of red wine or 11/3 cups of blueberries.) A Thrid study, which included more than 1,100 people, found that those who ate 50 grams of chocolate per week 46% less likely to die after suffering a stroke than those who didn't chocolate. The last study, chocolate can improved mood because the antioxidant. Of course, the problem with this research is that it doesn't clarify which comes first-are healthier people, who are already at lower risk for stroke, more likely to include chocolate as a part of their diet? Or does chocolate actually play a pivotal role in reducing stroke risk? That, researcher say, is the question for a future study. According to paragraph 2, which is not one of the three researches done on chocolate? A. No correlation between chocolate consumption and stroke risk B. Those who ate chocolate were 22% less likely to have a stroke C. One serving of Extra Dark chocolate provides enough antioxidants to reduce stroke risk D. Those who ate 50 grams chocolate per week were 46% to die after suffering stroke E. Chocolate can improved mood

Pembahasan	**Jawaban: C. One serving of Extra Dark chocolate provides enough antioxidants to reduce stroke risk** **Pembahasan:** Dengan cara membaca cepat kita lalu mencatat jawaban yang disebutkan di teks tersebut. Opsi A itu terdapat dibacaan yaitu di paragraf ke dua kalimat ke 4. Lalu opsi B itu juga disebutkan di bacaan yaitu di paragraf ke 2 kalimat ke 6. Begitu juga opsi D dan E ada di paragarf ke 2. Maka yang tidak disebutkan pada penelitian terhadap coklat yaitu opsi C.

Nomor 5.	
Soal	Horse owners who plan to bread one or more mares should have a working knowledge of heredity and know how to care for breeding animals and foals. Then number of mares bred that actually concieve varies from about 40 to 85 percent, with the average running less than 50 percent. Some mares that do concieve fail to produce living foals. This means that, on average, two mares are kept a whole year to produce one foal, and even, some foals are disappointments from the standpoint of quality. By careful selection, breeders thoughout history have developed various kinds of horses with a wide variety of characteristics to suit many different needs. The Great Horse of the Middle Ages, for example, was bred for size amd strength to carry a heavily armored knight. The massive horses of such breeds are often called “cold blooded”. The Arabs bred lithe desert horses that small and swift. These animals are often referred to as “hot blooded”. “Cross-breeding of hot-blooded and cold-blooded horses” for certain characteristics produced breeds ranging from hiding horses to draft horses. The thoroghbred is considered by many to be the highpoint of elegance and fine selective breeding. Many persons mistakenly apply the name thoroughbred any purebred horse. Thoroughbred is a distinct breed of running horses that traces its ancestry through the male line directly back to four Eastern stallion; the Byerly Turk, the Darley Arabian,the Great horse and the Godolphin Barb. For convenience the breeds of horses are often divided into three major groups: (1) ponies, (2) heavy, or draft horses, and (3) light horses. It can be inferred from the passage that cold-blooded and hot blooded horses were cross-bred for what reason? A. Such cross-breeding was a safer means of reproduction B. Cross-bred horses were preferred by Arabs C. By cross-breeding, horses with desirable mixed characteristics could be produced. D. Cross-breeding produced Thoroughbred horses. E. Cross-breeding produced good horses

Pembahasan	**Jawaban: C** **Pembahasan:** Dari ayat tersebut dapat disimpulkan bahwa kuda berdarah dingin dan kuda berdarah panas dikawinkan silang karena alasan apa Di bacaan diatas disebutkan bahwa ‘“Cross-breeding of hot-blooded and cold-blooded horses” for certain characteristics produced breeds ranging from hiding horses to draft horses’’ artinya adalah Perkawinan silang kuda berdarah panas dan berdarah dingin”untuk karakteristik tertentu menghasilkan keturunan mulai dari kuda persembunyian hingga kuda penarik. Opsi A (Salah) Artinya Perkawinan silang semacam itu adalah cara reproduksi yang lebih aman Opsi B (Salah) Artinya Kuda silang lebih disukai oleh orang Arab **Opsi C (Benar)** Artinya Perkawinan silang kuda berdarah panas dan berdarah dingin untuk karakteristik tertentu menghasilkan keturunan mulai dari kuda persembunyian hingga kuda penarik. Opsi D (Salah) Artinya Perkawinan silang menghasilkan kuda Ras Asli. Opsi E (Salah) Artinya perkawinan silang menghasilkan kuda yang bagus

Soal	Global warning is the most recent threat our earth has to endure. It is about a change in our earth's surface, part or whole, temperature. Temperatures today are 0.74°C higher than 150 years ago. Many scientists believe that the fundamental factor causing it is a rise in atmospheric carbon dioxide level. When people use fossil fuels like coal and oil, the release more carbon dioxide to the air. Nature has already provided us with the preventive equipment. trees, which absorbs much of the carbon dioxide. But nowadays, people cut down the earth's forest recklessly; which means less carbon dioxide is absorbed by plants. If the earth's temperature becomes hotter, the sea level will also become higher. This is partly because water expands when it gets warmer. It is also partly because warm temperatures make glaciers melt. The sea level rise may cause coastal areas to flood. It will also cause the weather patterns to change which leads to many catastrophe for mankind. According to the text, what we can do to prevent more global warming damage? A. Buy an air conditioner B. Build wooden house C. Cut more trees D. Plant more trees E. dispose of the trash in its place

Pembahasan	**Jawaban: D** **Pembahasan:** Pertanyaan di soal ini adalah apa yang bisa kita lakukan untuk mencegah pemanasan global. Di teks dituliskan bahwa salah satu pemanasan global adalah karena banyak hutan yang ditebang pohonnya sehingga karbon dioksida tidak banyak yang diserap oleh tumbuhan. (But nowadays, people cut down the earth's forest recklessly; which means less carbon dioxide is absorbed by plants). Jadi jawaban yang tepat untuk pertanyaan diatas adalah menanam lebih banyak pohon Opsi A (Salah) Artinya membeli AC Opsi B (Salah) Artinya membangun rumah kayu Opsi C (Salah) Artinya memotong lebih banyak pohon **Opsi D (Benar)** Artinya menanam lebih banyak pohon Opsi E (Salah) Artinya buang sampah pada tempatnya

Soal	Passage A Thomas Jefferson could do many things. As a young man, he was a farmer and a lawyer in Virginia. He was also a scientist, an inventor, a philosopher, and an architect. He designed his own home, called Montecello. He could communicate in French, Italian, Spanish, Latin, and Greek. Many of jefferson's ideas became basic principles of the government of the United States. For example, he believed that "all men are created equal". That is we are born the same and should receive the same treatment under the law. He also said that power must come form "the consent free elections, a free press, and free speech". Thomas Jefferson held many important government jobs. He was ambassador to France, Secretary of State (under George Washington), Vice President under John Adams), and the huge Louisiana territory for the United States from France. However, he was killed on April 1865 by a well -know actor and Confederate sympathizer, john Wilkes Booth at Ford's Theater in Washington D.C. Passage B John F. Kennedy was President for only three years, from 1961 to 1963, but his personality and ideas changes America. He was both the first Roman Catholic and the youngest President in history of the country. He set clear goals for America. For example, he promised that the United States would land a man on the moon before 1970. Kennedy supported the ideas of Martin Luther King, Jr. and fought for civil rights, fair housing, and program to stop poverty. He asked Congress for more money for education and medical care for elderly people. Kennedy was against Communism. For example, when the Soviet Union put missiles in Cuba, he sent US ships to surround the island. But he believed that the best way to fight Communism was not by sending armies bt by attacking poverty and injustice. He started the Peace Corps and sent Americans to over sixty countries n Africa, Asia and South Africa. These young volunteers worked and lived with the people, built school, and taught farmers more modern methods. Kennedy was a man for the future. He worked to shop the testing of nuclear weapons. But on November 22, 1963, he was assassinated. Both passage are similar in that they … A. show the struggles to become the US presidents. B. put forward arguments against human inequality C. present similar leadership of the two presidents D. give an illustration of the life of president E. describe two important leaders in the US

Pembahasan	**Jawaban: E. describe two important leaders in the US** **Soal :** Kedua teks ini serupa karena mereka… **Pembahasan**: Kedua wacana soal teks A dan teks B, menggambarkan dua pemimpin penting di Amerika (U.S). Opsi A (salah) Opsi A artinya menunjukkan perjuangan untuk menjadi presiden AS. Opsi B (salah) Opsi B artinya mengajukan argumen menentang ketidak setaraan manusia Opsi C (salah) Opsi C yaitu menghadirkan kesamaan kepemimpinan kedua presiden Opsi D (salah) Opsi D yaitu memberikan ilustrasi tentang kehidupan presiden Opsi E (benar) Opsi E yaitu menggambarkan dua pemimpin penting di AS

Soal	Everybody should change their way of life to reduce global warming. There are several things that we can do. One of them is by buying and consuming fresh local groceries as much as possible. It of course includes local vegetables, fruits, bread, etc. Local groceries don't need much transportation to get it into the market. It of course means, the amount of carbon dioxide produced is less than the groceries from other region. Therefore, by buying local groceries we are helping reduce the amount of carbon dioxide produced. Consuming fresh groceries instead of frozen ones are healthier for us. Furthermore, fresh food or groceries means no requirements for it to be freeze up. It means that no electricity is needed and saving energy means reducing carbon dioxide and money. So, from now on we should consume fresh local groceries to reduce global warming. To reduce the global warming we should …. A. Buy import product B. Buy expensive clothes C. Consume frozen foods D. Consume fresh foods E. Not use electricity efficiently

Pembahasan	**Jawaban: D** **Pembahasan:** Pembahasan: Jawaban bisa ditemukan dikalimat ke 3 (One of them is by buying and consuming fresh local groceries as much as possible Opsi A (Salah) Membeli produk impor Opsi B (Salah) Membeli pakaian mahal Opsi C (Salah) Mengkonsumsi makanan beku **Opsi D (Benar)** Mengkonsumsi makanan segar Opsi E (Salah) Tidak menggunakan listrik secara efisien

Soal	Holding on the belief that children will shed their “baby fat”as they get older may be perpetuating the childhood obesity epidemic, and laying a foundation for obesity later in life among overweight tots. According to 2006 data from the Center for Disease Control, 16% of American children were obese, and 32% overweight, with a growing propotion of overweight and obese children under age four. That is why it is critical to identify the “tipping point” between baby fat amd obesity risk, according to research from Eastern Virginia Medical School and Children’s Hospital of the King’s Daughter that was published this week in the journal Clinical Pediatrics. In a study of 111 overweight patients between the ages of two and 20 , researchers analyzed the patterns of children’s weight gain to determine at what age intervention to prevent obesity is most useful. Their conclusion: some children were on the road to obesity as early as thress months, meaning that doctors need to discuss unhealthy weight gain with parents as early as their child’s infancy, but certainly no later than age two. Which of the following statements is true according to 2006 data from Centers for Disease Control? A. 16% of American children were overweight with a growing proportion of overweight and obese children under age four B. 32% of American children were obese with a growing proportion of overweight and obese children under age four C. 16% of American children were obese with a growing proportion of overweight and obese children under age four D. 16% of American children were obese and overweight with a growing proportion of overweight and obese children under age four E. 32% of American children are obsese and overweight

Pembahasan	**Jawaban: D** **Pembahasan:** Pertanyaan di soal ini adalah pernyataan yang betul dari data Pusat Kontrol Penyakit. Maka jawabannya sudah pasti ada di kalimat ke dua dan kita harus mencari opsi dengan makna yang sama dengan data diteks tersebut Opsi A (Salah) Arti kalimat ini adalah 16% anak-anak Amerika kelebihan berat badan dengan proporsi anak-anak yang kelebihan berat badan dan obesitas di bawah usia empat tahun yang terus meningkat Opsi B (Salah) Arti kalimat ini adalah 32% anak-anak Amerika mengalami obesitas dengan proporsi anak-anak yang kelebihan berat badan dan obesitas di bawah usia empat tahun yang terus meningkat Opsi C (Salah) Arti kalimat ini adalah 16% anak-anak Amerika mengalami obesitas dengan proporsi anak-anak yang kelebihan berat badan dan obesitas di bawah usia empat tahun yang terus meningkat **Opsi D (Benar)** Arti kalimat ini adalah 16% anak-anak Amerika mengalami obesitas dan kelebihan berat badan dengan proporsi anak-anak yang kelebihan berat badan dan obesitas di bawah usia empat tahun yang terus meningkat Opsi E (salah) Arti kalimat ini adalah 32% anak-anak Amerika obesitas dan kelebihan berat badan

Soal	Bacalah tulisan berikut, kemudian jawablah soal-soal yang tersedia dengan memilih jawaban yang tepat di antara pilihan jawaban A, B, C, D atau E Teks The Sumatran elephant is one of the largest and strongest animals. This species is 1,7 to 2,6 meters in height. It is smaller than the African elephant. This Sumatran elephant is rare because of forest loss in Sumatra. Its existence is theatened by irrespnsible hunting, deforestation, and natural disasters. The Sumatran elephants live near rivers or the lowlands in Sumatra. They consume more than 200 kilograms of food every day. The presence of elephants means that are sufficient resources to support their life. It means that balanced natural conditions are there. They can keep this ecosystem by walking in a group, as their wasted feces, every hour, can fertilize the ground naturally. Nowdays, there are many organizations interested in protecting Sumatran elephants. Because human conflict is another threat to this species, the World Wildlife Foundation and other conservation organizations are established to protect them from such conflicts. In this way, Sumatran elephants will live in a peace. What is the purpose of the text above? A. To explain how Sumatran elephants have become rare B. To persuade people to protect Sumatran elephants C. To give a general description of Sumatran elephants D. To tell a story about Sumatran elephants'problems E. To tell about the story of elephant

Pembahasan	**Jawaban: A. To explain how Sumatran elephants have become rare** **Pembahasan:** Pertanyaan pada teks tersebut adalah menanyakan tujuan dari bacaan tersebut. Biasanya jawaban terdapat di paragrap pertama. Di paragrap pertama dijelaskan bahwa gajah di Sumatera mulai berkurang (This Sumatran elephant is rare because of forest loss in Sumatra) dan juga alasan kenapa gajah-gajah itu berkurang jumlahnya **Opsi A (Benar)** Arti dari opsi A adalah Untuk menjelaskan bagaimana gajah Sumatra menjadi jarang. Opsi B (Salah) Arti dari opsi B adalah untuk membujuk orang untuk melindungi gajah Sumatera. Pada bacaan tidak disebutkan ajakan kepada orang-orang untuk melindungi gajah Sumatera ini. Opsi C (Salah) Arti dari opsi C adalah untuk memberikan penjelasan umum tentang gajah Sumatera Opsi D (Salah) Arti dari opsi D untuk menceritakan masalah gajah Sumatera Opsi E (Salah) Arti dari opsi E adalah untuk menceritakan cerita gajah. Jawaban ini salah karena terlalu umum dan ini bukan sebuah cerita gajah

Soal	The Japanese traditional house made of wood is expected to last about twenty years before having to be repaired or rebuilt. Each year it is depreciated. The interior design is what really sets the Japanese traditional houses. With the exception of the entry way (*genkam*), the kitchen (*daidokoro*), the bathing room (*sento*) and toile (*benjo*), the room in a Japanese traditional house does not have a designed use. A room can easily be a living area; a bed room, a dining room or any combination. Large are partitioned by *fusuma*, sliding doors made of wood and thick paper. Th paper used for fusuma is called *washi*. These sliding doors can be removed whenever a large space is needed. In large traitional houses, there was one large room, or ima (living space) that could be divided as needed. The smaller rooms like kitchen, bath and toilet were small extentions to side. Rouka or wooden-floored hallways, follow the edge of the home. Windows are made of wood and *shoji* paper, which is thin enough to let the light shine through. Even Japanese modern houses tend to have one traditional Japanese room, called a *washitsu*. This room has *tatami* mats on the floor as used in Japanese traditional house. *Tatami* are thick straw mats covered with stitched, woven rushes. *Tatami* are smooth and firm enough to walk on, while making a sleeping surface more comfortable than wood or stone. Some modern houses in Japan have a…. (which is usually found in traditional houses) A. ima B. washi C. rouka D. fusuma E. washitsu

Pembahasan	**Jawaban: E. washitsu** **Soal** : Beberapa rumah modern di Jepang memiliki…. (yang biasanya terdapat pada rumah adat) **Pembahasan** : Kalimat pertama pada paragraf 5 menyatakan bahwa Even Japanese modern houses tend to have one traditional Japanese room, called a washitsu Opsi A (salah) Artinya ruangan besar Opsi B (salah) Artinya kertas yang digunakan untuk fusuma Opsi C (salah) Artinya Lorong berlantai kayu Opsi D (salah) Artinya pintu geser terbuat dari kayu dan kertas tebal Opsi E (benar) Artinya ruangan tradisional jepang

Soal	The most common causes of tsunamis are underwater earthquakes. To understand underwater earthquakes, you must first understand plate tectonics. The theory of plate tectonics suggest that the lithosphere, or top layer of the Earth, is made up of a series of huge plates. These plates make up the continents and seafloor. They rest on an underlying viscous layer called the asthenosphere. Think of a pie cut into eight slices. The pie crust would be the lithosphere and the hot, sticky, pie filling underneath would be the asthenosphere. On the earth, these plates are constantlyin motion, moving along each other at a speed of 1 to 2 inches (2.5-5 cm) per year. The movement occurs most dramatically along fault lines (where the pie is cut). These motions are capable of producing eartquakes and volcanism, which, when they occur at the bottom of the ocean, are two possible sources of tsunamis. When two plates come into contact at a region known as a plate boundary, a heavier plate can slip under a lighter one. This is called subduction. Underwater subduction often leaves enormous “handprints” in the form of deep ocean troches along the seafloor connected to the lighter plate may “snap up” suddenly due to pressure from the sinking plate. This result in a eathquakes. The focus of the earthquakes is the point within the Earth where the rupture first occurs, rocks break and the first seismic waves are generated, the epicenter is the point on the seafloor directly above the focus. When this piece of the plate snaps up and sends tons of rock shooting upward with tremendous force, the energy of that force is transferred to the water. The energy pushes the water upward above normal sea level. This is the birth os the tsunami. The eartquake that generated the December 26, 2004 tsunami in the Indian Ocean was 9.0 on the Richter scale – one of the biggest in recorded history. The following information is true about tsunamis mentioned in the text, *except* that tsunamis are... A. predictable following any incidence of earthquakes B. close to the rise of sea levels from the sinking plate C. connected to deep ocean trenches along sea floors D. related to strong movements of plate tectonics E. highly linked to underwater earthquake

Pembahasan	**Jawaban: A. Predictable following any incidence of earthquakes** **Pembahasan:** Pertanyaan pada soal ini adalah informasi pada pilihan yang diberikan tentang tsunami adalah benar, *kecuali* ... Jawabannya adalah A yaitu predictable following any incidence of earthquakes (diprediksi setelah kejadian gempa bumi). **Opsi A (Benar)** Diprediksi setelah kejadian gempa bumi. Karena tsunami *bukan* hal yang bisa diprediksi Opsi B (Salah) Berkaitan dengan naiknya level air laut Opsi C (Salah) Berhubungan dengn pergerakan di dasar samudera Opsi D (salah) Berhubungan erat dengan pergerakan lempengan tektonik Opsi E (Salah) Berhubungan erat dengan gempa di dasar laut
Materi	Reading
Nomor 18.	

Soal	Europe's period of exploration and colonization was fueled largely by necessity. Europeans had become accustomed to the goods from Asia, such as the silk, spices, and pottery that had for centuries traveled the Silk Road. By the middle of the 16th century, however, this trade was under threat. The rise in power of the Ottoman Turks and the decline of the Mongol Empire disrupted traditional trade routes. At the same time, there were a number of improvements in shipbuilding and navigation, making it possible to travel farther and for longer periods of time. European countries recognized the potential profits of securing better trade with Asia and sought new routes by sea. Commissioned by Queen Isabella and King Ferdinand of Spain, Italian explorer Christopher Columbus was among the first who sought a faster, more direct route to Asia by sailing west rather than east. In 1492, Columbus landed on an island in the Caribbean. Although Columbus mistakenly believed he had landed on an island in East Asia, later explorers added to the knowledge of the land, and—thanks in part to the voyages of fellow Italian Amerigo Vespucci—determined that Columbus had reached a "New World." Each of the major European powers—Spain, France, the Netherlands, and England—sent explorers to the New World. Colonization, or the desire to establish permanent settlements, soon followed. Some of these European countries fought one another for control over trade and the riches of the New World. While they all shared a desire for wealth and power, their motivations for colonization differed somewhat, and thus the pattern and success of their colonies varied significantly. Spain was driven by three main motivations: God, Gold, and Glory. Columbus, in his voyage, sought fame and fortune, as did his Spanish sponsors. To this end, Spain built a fort in 1565 at what is now St. Augustine, Florida; today, this is the oldest permanent European settlement in the United States. A few fledgling Spanish settlements were established nearby, but clashes with Native Americans who lived there, and the lack of gold or other riches made many of them short-lived. Spanish conquistadors had better success in South America, where they conquered the Aztec and Inca Empires and claimed the land for Spain. Spain soon grew rich from ample deposits of gold and silver in Mexico, Central America, and South America. source: https://education.nationalgeographic.org/resource/motivations-colonization According to the passage, what caused Spain's colonization of North America to fail? A. The lack of fame and fortune for Spanish sponsors B. The establishment of oldest European settlement C. The conquest of the Aztec and Inca Empires in South D. The shifting focus to colonization Southern America E. The dispute with natives and the dearth of wealth

Pembahasan	**Jawaban: E. The dispute with natives and the dearth of wealth** **Pembahasan** Arti soal: “Berdasarkan teks, apa yang menyebabkan kolonisasi Spanyol di Amerika Utara mengalami kegagalan?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian yang membahas tentang kegagalan koloni Spanyol di Amerika Utara. Adapun hal tersebut dibahas dalam paragraf 4, kalimat 4 berikut: *“To this end, Spain built a fort in 1565 at what is now St. Augustine, Florida; today, this is the oldest permanent European settlement in the United States. A few fledgling Spanish settlements were established nearby, but clashes with Native Americans who lived there, and the lack of gold or other riches made many of them short-lived.”* Artinya: “Untuk tujuan ini, Spanyol membangun sebuah benteng pada tahun 1565 di tempat yang sekarang menjadi Saint Augustine, Florida; saat ini, tempat ini adalah pemukiman Eropa permanen tertua di Amerika Serikat. Beberapa pemukiman koloni Spanyol yang masih muda didirikan di dekatnya, tetapi bentrokan dengan penduduk asli Amerika yang tinggal disana, dan kurangnya emas atau kekayaan lainnya yang membuat banyak dari mereka berumur pendek.” Dari kalimat tersebut dapat disimpulkan bahwa salah satu hal yang membuat Spanyol tidak berhasil menjajah Amerika Utara adalah karena konflik dengan penduduk asli dan kurangnya emas dan kekayaan lain di Amerika Utara. **Opsi A (salah)** Artinya: “Kurangnya ketenaran dan kekayaan untuk sponsor Spanyol.” Opsi A salah karena bukan merupakan penyebab yang sesuai dengan informasi dalam teks. **Opsi B (salah)** Artinya: “Pendirian pemukiman Eropa tertua.” Opsi B salah karena bukan merupakan penyebab yang sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “Penaklukan Kerjaan Aztec dan Inca di Selatan.” Opsi C salah karena bukan merupakan penyebab yang sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “Pergeseran focus ke kolonisasi Amerika Selatan.” Opsi D salah karena bukan merupakan penyebab yang sesuai dengan informasi dalam teks. **Opsi E (BENAR)**

Nomor 19.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Generally, by people's own accounts, the public idea of women at home is that they are dull and boring. And the stereotype of a working woman is of hard, ambitious, selfish creatures. It is not just that you are either gentle and dull or selfish and interesting. It is that you are either a good mother or you are an interesting woman. (2) "Young women now seem to get a very clear picture that they have got a choice. If they are going to do mothering well, they have got to play for it by not being interesting women. If you are an interesting working woman, you are a bad mother. Lyn Richards put the blame for such notions and for resulting family tensions on the failure of people to talk enough about them. The media, too, are guilty. There is a lot of media coverage of successful career women and still a lot, especially in women's magazines, on the joys of motherhood. There's not that much about the trouble of either role and precious little about combining the roles. Yet half the women who are married in our society are working! (3) Nor is much thought given to the task of loosening the ties entrapping men. Lyn Richards, a working mother, grateful for the privilege of genuinely choosing and being able to afford the role, criticizes the systematic exclusion of men from 'child rearing and the really pretty fabulous aspects of having children. She condemns as ludicrous the idea of 9 to 5 treadmill of work as an absolute duty for men. 'The sheer irony to me is that the women's movement has told women the way to be liberated is to get into the 9 to 5 tied work force that men have been fighting against for a century. Really, we should be using changes in women's values to shake up all the oppression and rigidity that men have been under. (4) Indeed, there has been a change. The new thing since I married is that it's normal for both husband and wife to go on working when they marry. Now marriage isn't a particularly big deal. Very often it just legalizes something which has been going on anyway and it certainly doesn't change a woman's whole basic of life, her notion of who she is. The real life change is having the first child and when that happens I think that probably most couples are still reverting to something like the traditional concept of marriage. But the longer people put off having a child the more likely it is that they won't because they have set up a viable life style. They don't need to have kids now to have a good marriage. (5) Not that motherhood and raising families are wholly going out of fashion but rather that people are having smaller families. Consequently, the period a woman's life when she is not required to devote herself to mothering is lengthening. 'Mothering-the mother role-just isn't a very good identity base today, Lyn Richards say. 'Motherhood is a short-term appointment now. It doesn't last long! If Lyn is correct, in the future women in families of younger generations will … A. have less children to care for B. make up career individuals C. will be more prosperous D. are more individualistic E. share an equal responsibility

Pembahasan	**Jawaban: A. have less children to care for** **Pembahasan:** Dari kutipan '*They don't need to have kids now to have a good marriage..' dan 'Not that motherhood and raising families are wholly going out of fashion but rather that people are having smaller families*' (paragraf 4-5) mendukung gagasan Lyn bahwa dimasa mendatang wanita akan memiliki jumlah anak lebih sedikit. - Opsi B salah, karena ini berkaitan dengan memiliki sebuah anak dimasa yang akan datang. - Opsi C salah, karena disini Lyn pun tidak bisa menjamin keluarga akan lebih sejahtera atau tidak. - Opsi D salah, karena lebih individualistik itu untuk kepribadian wanitanya untuk menjadi mandiri, bukan bagaimana wanita dalam keluarganya. - Opsi E salah, karena berbagi tanggung jawab yang sama sudah dijelaskan pada kalimat sebelumnya.
Materi	Reading
Nomor 20.	

Soal	Social media influencers are individuals who utilize social media platforms to build their own personal brand or influence their followers to act (including buying products, supporting a brand, or vacationing in a certain location). They can share anything from clothes and beauty products to make-at-home slime with their followers. While it might seem like frivolous fun, some influencers are making significant amounts of money from their connection to their fans, making them the modern entrepreneur. While not every social media influencer is an entrepreneur, the ones who have started their own businesses from the brand they created online have much in common with traditional entrepreneurs when it comes to driving the economy. Entrepreneurs are people who organize, manage, and take on the risks of a business. They often start a new business in response to a perceived need for a good or service. An influencer, on the other hand, is someone who has the power to affect or change people and their behavior through social media—often to get them to buy something. Influencers who start their own business certainly fall under the first part of the definition of entrepreneur, as they are managing their business and taking on risk. But are they fulfilling a need? Many say yes: companies can target highly specific groups of people through employing an influencer—groups that might be missed by traditional advertising. And because influencers form a more personal relationship with their followers, the followers are seemingly more likely to buy what the influencer suggests. One area where entrepreneurs and influencers differ the most is in their processes of starting a business. Nearly all traditional businesses have startup costs, which go toward buying materials to create goods, equipment to manufacture items or provide a service, or office space. But entrepreneurs do not always have to put their own savings into a business. They can get venture capital, or money to start or grow a business, from outside investors, often in exchange for part ownership of the company. Influencers, on the other hand, have fewer startup costs, though it can vary by the influencer's specialty. Beauty and fashion influencers may have to get new clothes, buy the latest makeup, and hire a professional photographer to start out, but others only need their social media accounts and a smartphone. Additionally, many of the costs that apply to starting a business do not apply to influencers, like renting office space, as many works from home. source: https://education.nationalgeographic.org/resource/influencers-modern-entrepreneur What is the most significant distinction between entrepreneurs and influencers stated in the passage? A. The process of planning business costs B. The method to appealing target customer C. The approach to establishing a business D. The strategy of expanding the business E. The practice of dividing business ownership

Pembahasan	**Jawaban: C. The approach to establishing a business** **Pembahasan:** Arti soal: “Apa perbedaan paling signifikan antara pengusaha dan influencer yang dinyatakan dalam kalimat? Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian yang menjelaskan tentang perbedaan pengusaha dan influencer. Adapun hal tersebut dibahas dalam paragraf 3, kalimat 1 berikut: *“One area where entrepreneurs and influencers differ the most is in their processes of starting a business.”* Artinya: “Satu hal yang sangat berbeda antara pengusaha dan influencer adalah dalam hal proses mereka untuk memulai bisnis”. Maka, dapat disimpulkan bahwa perbedaan antara pengusaha dan influencer yang paling jelas adalah dalam hal cara mereka memulai bisnis. **Opsi A (salah)** Artinya: “Proses perencanaan biaya bisnis”. Opsi A salah karena bukan merupakan informasi yang sesuai dengan isi teks. **Opsi B (salah)** Artinya: “Metode untuk menarik target pelanggan”. Opsi B salah karena bukan merupakan informasi yang sesuai dengan isi teks. **Opsi C (BENAR)** Artinya: “Cara untuk mendirikan bisnis.” Opsi C benar karena merupakan pernyataan yang benar sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “Stategi untuk memperluas usaha.” Opsi D salah karena bukan merupakan informasi yang sesuai dengan isi teks. **Opsi E (salah)** Artinya: “Praktek pembagian kepemilikan usaha.” Opsi E salah karena bukan merupakan informasi yang sesuai dengan isi teks.

Nomor 21.	

Soal	When you think of “currency,” you are probably thinking of the cash you hand over at a store, or the credit cards or money transfers that can be used in place of physical money. In general, currency is a system of money backed by a government. Typically made up of coins and paper notes, currency is a medium of exchange, meaning that it is the basis for various kinds of trade and transactions. As technology has grown more sophisticated, digital currencies (which have no physical form) have grown as more financial transactions have gone online. Digital currency is simply a payment method that does not exist outside of its electronic form. Within the past decade, a new particularly popular kind of digital currency has emerged: cryptocurrency. Although this new system is unlikely to replace the more traditional forms of currency any time soon, it has made a significant impact in less than 10 years. The prefix “crypto” originally comes from the Greek word meaning “hidden.” This does not mean that cryptocurrency is secret, but rather that this “hidden” money is digital, and is kept secure with digital-code encryption. These digital currencies are the heart of systems that allow secure, direct payment for online transactions. “Crypto-” actually refers to the cryptographic data encryption that keeps the transactions protected from hackers or other digital eyes. It also makes cryptocurrency difficult to counterfeit. Cryptocurrency has gained popularity because it offers a straightforward way to transfer funds entirely online, without involving third parties like banks or credit card companies (and paying the fees they often charge for processing transactions). Instead of physical coins or paper notes, cryptocurrencies have digital “tokens,” or different digital denominations (think of one- or five-dollar bill, etc.). For example, one bitcoin is equivalent to 100,000,000 satoshis, the smallest denomination of a bitcoin and named for bitcoin’s supposed inventor, Satoshi Nakamoto. This enables transactions smaller than a full coin. The transfer of funds involves “public” and “private” keys, which are lines of code that need to match on both sides, so the transaction can be completed. Cryptocurrency is saved in the user’s “wallet,” or a URL or internet account address that can only be accessed by the owner. The wallet has a public key, and the private key is used to sign a transaction, much like you would sign a check or a credit card slip. According to the passage, how can people execute money transfer in cryptocurrency? A. by a check or a credit card slip obtained online B. by public and private key that can be accessed C. by a internet account address that is open to public D. by saving the private key used to sign a transaction E. by using wallet authorized by public and private codes

Pembahasan	**Jawaban: E. by using wallet authorized by public and private codes** **Pembahasan** Arti soal: “Berdasarkan teks, bagaimana orang-orang dapat melakukan transfer uang menggunkana mata uang crypto?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian yang menjelaskan tentang bagaimana proses transfer uang menggunakan mata uang crypto. Adapun hal tersebut dibahas dalam paragaf 4, kalimat 5-7 berikut: *“The transfer of funds involves “public” and “private” keys, which are lines of code that need to match on both sides, so the transaction can be completed. Cryptocurrency is saved in the user’s “wallet,” or a URL or internet account address that can only be accessed by the owner. The wallet has a public key, and the private key is used to sign a transaction, much like you would sign a check or a credit card slip.”* Artinya: “Transfer uang melibatkan kunci “publik” dan “pribadi” yang merupakan baris kode yang harus cocok di kedua sisi, sehingga transaksi dapat diselesaikan. Mata uang crypto disimpan dalam “dompet” pengguna, atau URL atau alamat akun internet yang hanya dapat diakses oleh pemiliknya. Dompet ini memiliki kunci public, dan kunci pribadi yang digunakan untuk menandatangani transaksi, sama seperti menandatangi cek atau slip kartu kredit.” Maka, dapat disimpulkan bahwa transfer uang dalam mata uang crypto dapat dilakukan dengan menggunkan dompet yang diautorisasi (disahkan) oleh kode public dan pribadi. **Opsi A (salah)** Artinya: “dengan cek atau slip kartu kredit yang diperoleh secara online.” Opsi A salah karena tidak sesuai dengan teks. **Opsi B (salah)** Artinya: “dengan kunci public dan pribadi yang dapat diakses.” Opsi B salah karena tidak sesuai dengan teks. **Opsi C (salah)** Artinya: “dengan alamat akun internet yang terbuka untuk umum.” Opsi C salah karena tidak sesuai dengan teks. **Opsi D (salah)** Artinya: “dengan menyimpan kunci pribadi yang digunakan untuk menandatangani transaksi.” Opsi D salah karena tidak sesuai dengan teks. **Opsi E (BENAR)**

Nomor 22.	
Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Sometimes experience in other countries can help people to understand their own identity better. Mahatma Gandhi was born in 1869 at Portandar in Western India. After studying in India, he dreamt of going to England to study. He was told that his Hindu religion did not allow voyages abroad. However, Gandhi was very determined and he finally left for England in 1887. At first, he tried to learn to behave like an English gentleman, but he soon learnt that it was better to be himself. He studied law in London, qualifying in 1891. He also learnt about other religions. (2) He returned home to India and worked as a lawyer for two years. After some problems, he was offered a job in South Africa. Here he experienced racism as a member of the Indian community. He decided to fight for the rights of Indians using "passive resistance. He had three main beliefs, namely non-violence, religious tolerance and truth. When he finally returned to India in 1915, he became a great political leader. During the fight for independence, he was often put in prison, but his beliefs never changed. (3) Gandhi had studied in Britain, so he understood the British better that they understood him. Gandhi's leadership led to independence, but, on Independence Day, 15th August, 1947, Gandhi refused to celebrate. He was in favor of Hindu-Muslim unity, but Muslims and Hindus could not agree. so a separate Muslim state was formed in Pakistan. In 1948, Gandhi started fasting to death as a protest against fighting between India and Pakistan. He was assassinated by a Hindu fanatic on 30th January 1948. India and Pakistan are still fighting in Kashmir today. The fight for independence was a difficult one, but not as difficult as the fight for non-violence, religious tolerance, and truth. Mahatma Gandhi got his university degree in .... A. 1887 B. 1947 C. 1948 D. 1915 E. 1891

Pembahasan	**Jawaban : E. 1891** **Pembahasan :** Dari kutipan 'He studied law in London, qualifying in 1891..." (qualifying lulus) pada paragraf 1 baris 5, dapat diketahui bahwa Gandhi mendapatkan gelar universitasnya di tahun 1891. - Opsi A salah, karena pada tahun tersebut Gandhi baru saja berangkat ke inggris, perhatikan kalimat berikut “Gandhi was very determined and he finally left for England in 1887”. - Opsi B salah, karena pada tahun 1947 merupakan tahun kemerdekaan negaranya, perhatikan kalimat berikut “on Independence Day, 15th August, 1947”. - Opsi C salah, karena pada tahun 1948 Gandhi mulai berpuasa sampai mati sebagai protes terhadap pertempuran India dan Pakistan. Perhatikan kalimat berikut “In 1948, Gandhi started fasting to death as a protest against fighting between India and Pakistan.”. - Opsi D salah, karena pada tahun 1915 dia kembali ke india dan menjadi pemimpin politik yang hebat. Perhatikan kalimat berikut “in 1915, he became a great political leader.”

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) The Hawaiian Islands are a tropical paradise most of the time. But even there, nature can sometimes show its more violent side. The islands have been bit by numerous natural disasters in the recent past. These disasters have caused deaths and great damage. (2) Through all of Hawaii's history, volcanoes have played an important part. The islands were formed by the eruption of volcanoes under the ocean. In the big island of Hawaii, the volcanoes continue to erupt. During an eruption, hot lava pours out of the top of a volcano and down the side. The red, hot lava covers everything in its path. The air is filled with smoke and horrible smelling gas that is sometimes poisonous. (3) Native Hawaiians believe that volcanoes are a natural part of life. In their traditional religion, volcanoes are ruled by the goddess, Pele. When Pele is angry, the volcanoes erupt. Before an eruption she takes a human from. If you meet her and are kind to her, you will not be hurt by the lava. Today, Hawaiians have forgotten most of the ancient gods, but not Pele. They continue to honor her and her volcanoes. (4) Another kind of natural disaster that has hit Hawaii is the tidal wave, or tsunami. Unlike volcanoes, tsunamis come from far away under the ocean. When an earthquake occurs underwater, it creates huge waves. If these waves hit land, they destroy everything along the coast. (5) These days, all of the Hawaiian Islands have special signals to warn of tsunamis. When the signal sounds, everyone knows it is time to run. They must try to get as far as from the seashore as possible. It can be concluded that tsunamis are caused by .... A. Volcanic eruptions B. Strong winds far out at sea C. Rain storms in the Pacific Ocean D. everything along the coast E. underwater earthquakes

Pembahasan	**Jawaban: E. underwater earthquakes** **Pembahasan:** Kata kunci nya adalah tsunami, come from. Dari kalimat ... tsunamis come from far away under the ocean. When an earthquake occurs underwater, it creates huge waves. (tsunami berasal dari jauh di bawah laut. Ketika sebuah gempa terjadi di bawah laut, ia menimbulkan gelombang yang besar) bisa diketahui bahwa tsunami disebabkan oleh gempa bawah laut atau underwater earthquakes. Maka jawaban yang tepat adalah opsi E. - Opsi A salah, karena letusan gunung berapi bukan penyebab terjadinya tsunami. - Opsi B salah, karena angin kencang jauh di laut adalah kejadian air pasar, dan ini tidak menyebabkan tsunami. - Opsi C salah, karena pada teks tersebut tidak disebutkan adanya hujan badai Samudera Pasifik, karena memang hujan badai tidak menyebabkan terjadinya tsunami. - Opsi D salah, karena tidak sesuai dengan isi teks, dan tidak spesifik.

Instead of physical coins or paper notes, cryptocurrencies have digital “tokens,” or different digital denominations (think of one- or five-dollar bill, etc.). For example, one bitcoin is equivalent to 100,000,000 satoshis, the smallest denomination of a bitcoin and named for bitcoin’s supposed inventor, Satoshi Nakamoto. This enables transactions smaller than a full coin. The transfer of funds involves “public” and “private” keys, which are lines of code that need to match on both sides, so the transaction can be completed. Cryptocurrency is saved in the user’s “wallet,” or a URL or internet account address that can only be accessed by the owner. The wallet has a public key, and the private key is used to sign a transaction, much like you would sign a check or a credit card slip. source: *https://education.nationalgeographic.org/resource/digital-currency* According to the passage, what is the advantages of using cryptocurrency? A. It enables direct, cost-free money transfers without intermediaries B. It provides an entirely straightforward way to do money transactions C. It involves third parties in processing transactions to keep security D. It uses third parties to handle payments in order to maintain security E. It does not charge any fees for online purchases through a third party

Pembahasan	**Jawaban: A. It enables direct, cost-free money transfers without intermediaries** **Pembahasan** Arti soal: “Berdasarkan teks, apa keunggulan dari menggunakan mata uang crypto?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian yang menjelaskan tentang keuntungan menggunkan mata uang crypto. Adapun hal tersebut dibahas dalam paragraf 4, kalimat 1 berikut: *“Cryptocurrency has gained popularity because it offers a straightforward way to transfer funds entirely online, without involving third parties like banks or credit card companies (and paying the fees they often charge for processing transactions).”* Artinya: “Mata uang crypto telah mendapatkan popularitas karena menawarkan cara langsung untuk mentransfer dana sepenuhnya secara online, tanpa melibatkan pihak ketiga seperti bank atau perusahaan kartu kredit (dan membayar biaya yang sering dikenakan untuk proses transaksi).” Maka, dapat disimpulkan bahwa keunggulan mata uang crypto adalah menawarkan cara transfer uang langsung secara online dan tanpa biaya. **Opsi A (BENAR)** Artinya: “Mata uang crypto memungkinkan pengiriman uang langsung tanpa biaya dan pihak ketiga.” Opsi A benar karena merupakan keuntungan menggunakan mata uang crypto yang sesuai dengan teks. **Opsi B (salah)** Artinya: “Mata uang crypto menyediakan cara yang sepenuhnya mudah untuk melakukan transaksi keuangan.” Opsi B salah karena bukan merupakan keuntungan menggunakan mata uang crypto yang sesuai dengan teks. **Opsi C (salah)** Artinya: “Mata uang crypto melibatkan pihak ketiga dalam memproses transaksi untuk menjaga keamanan.” Opsi C salah karena bukan merupakan keuntungan menggunakan mata uang crypto yang sesuai dengan teks. **Opsi D (salah)** Artinya: “Mata uang crypto menggunakan pihak ketiga untuk menangani pembyaran untuk menjaga keamanan.” Opsi D salah karena bukan merupakan keuntungan menggunakan mata uang crypto yang sesuai dengan teks. **Opsi E (salah)** Artinya: “Mata uang crypto tidak mengenakan biaya apapun untuk pembelian online melalui pihak ketiga.” Opsi E salah karena bukan merupakan keuntungan

Nomor 25.	
Soal	Language is the ability to learn and use a system of symbolic representations for communication. This includes a capacity to relate signs to abstract information. For example, letters grouped together make a word which human can read, and sounded words put together in the correct order allow human to have a conversation. Human language can incorporate spoken, written, visually signed, or tactile forms like braille. Around the world humans have developed many different spoken and written languages. However, mathematics in particular is often regarded as a “universal language” since the mathematical concepts that describe values and equations do not depend on cultural or other frameworks. Scientists are interested in the question of whether numerical symbols are truly universal – that is, whether they also work for species that are not human. The honeybee is a super organism for the study of comparative information processing in a brain. In 1973 Karl von Frisch was awarded a Nobel Prize in the field of Physiology and Medicine for his demonstrations that the honeybee can communicate with hive mates via a symbolic dance language. von Frisch showed that a foraging bee which locates rewarding flowers can fly back to a hive and signal both the direction and distance of the nutritious flowers via a “waggle dance”. Other bees can interpret the dance language to know where to fly to collect nectar. It’s questioned whether such an impressive communication system meant that honeybees could learn another type of symbolic language, a basic symbolic number system. Interestingly, chimpanzees, Rhesus monkeys, pigeons, and a single African grey parrot named Alex have demonstrated the skill to learn either Arabic numerals or English names for numbers. This shows that while no non-human species appear to have developed a symbolic representation of number, it is not because they lack the brain capacity to understand such representations. The research has already shown honeybees can learn and apply challenging numerical concepts such as greater vs. lesser items, a quantitative valuation of “zero”, and simple arithmetic. source: https://theconversation.com/we-taught-bees-a-simple-number-language-and-they-got-it-117816 According to the passage, which of the following is TRUE about language? A. Language is the ability of human to connect symbols and conversation B. Language is the capacity to communicate which is exclusive to human C. It is possible for human to communicate due to availability of language D. It is known that human language represents abstract information E. It is explained that human can only understand words in certain language

Pembahasan	**Jawaban: C. It is possible for human to communicare due to availability of language** **Pembahasan:** Arti soal: “Berdasarkan teks, mana dari pernyataan berikut ini yang BENAR tentang Bahasa?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk mencari bagian yang menjelaskan tentang Bahasa. Ditemukan bahwa pembahasan tentang Bahasa ada dalam paragraph pertama. Lalu, dari paragraph 1 ditemukan beberapa fakta tentang Bahasa sebagai berikut: *“Language is the ability to learn and use a system of symbolic representations for communication. This includes a capacity to relate signs to abstract information. For example, letters grouped together make a word which human can read, and sounded words put together in the correct order allow human to have a conversation. Human language can incorporate spoken, written, visually signed, or tactile forms like braille.”* Artinya: “Bahasa adalah kemampuan untuk mempelajari dan menggunakan sistem representasi simbolik untuk komunikasi. Hal ini termasuk kapasitas untuk menghubungkan tanda dengan informasi abstrak. Misalnya, huruf-huruf yang dikelompokkan menjadi satu kata yang dapat dibaca manusia, dan kata-kata yang dibunyikan disatukan dalam tata bahasa yang benar memungkinkan manusia untuk melakukan percakapan. Bahasa manusia dapat menggabungkan bentuk lisan, tulisan, tanda visual, atau sentuhan seperti braille”. Maka, dari paragraph tersebut dapat ditemukan beberapa fakta yang benar mengenai Bahasa sebagai berikut: 1) Bahasa adalah kemampuan menggunakan simbol untuk berkomunikasi 2)Bahasa adalah kemampuan untuk menghubungkan simbol dengan informasi abstrak 3) Manusia mungkin untuk berkomunikasi karena adanya Bahasa yang digunakan dengan aturan/tata bahasa yang tepat 4) Terdapat beberapa bentuk Bahasa yang dapat digabungkan **Opsi A (Salah)** Artinya: “Bahasa adalah kemampuan manusia untuk menghubungkan simbol dan percakapan”. Opsi A salah karena bukan merupakan fakta tentang Bahasa yang sesuai dengan informasi dalam teks. **Opsi B (Salah)**

Nomor 26.	

Soal	From toe length to handwriting and sleeping position, there have been countless studies linking various features with specific personality traits. But these are of course just associations between incidental features – which toe length we happen to have does not, after all, shape who we are as individuals. For that, we need to look at the brain and its complex anatomy. Now it has been discovered that there are striking structural differences in the brains of people with different personality types. It is believed that the structural changes – seen as variations in the thickness, area and folding of the brain – may result from differences in development in early life. An international team of researchers published this study in Social Cognitive and Affective Neuroscience. They analyzed the brains of over 500 healthy people aged 22 to 36 years. They evaluated personality traits using a questionnaire called the NEO five factor inventory. By doing this, they were able to divide the participants into the so-called “big five” personality traits: neuroticism, extraversion, openness, agreeableness and conscientiousness. It was found that neuroticism, a personality trait underlying mental illnesses such as anxiety disorders, was linked to a thicker cortex (the brain’s outer layer of neural tissue) and a smaller area and folding in some brain regions. Conversely, openness, a trait reflecting curiosity and creativity, was associated to thinner cortex and greater area and folding in the brain. The other personality traits were linked to other differences in brain structure, such as agreeableness, which was correlated with a thinner prefrontal cortex (this area is involved in tasks including processing empathy and other social skills). This is the first time the big five personality traits have been clearly linked to differences in brain thickness, area and folding in a large sample of healthy individuals. However, it was previously found that the brains of teenagers with serious antisocial behavioral problems differ significantly in structure to those of their peers who do not display such disruptive behavior. The relation between differences in brain structure and personality in healthy people suggests that brain changes may be even more pronounced in people with mental illnesses. Linking the brain structure to basic personality traits is a crucial step to improving our understanding of mental disorders. In the future, it may even give us the opportunity to detect those who are at high risk of developing mental illnesses early, which has obvious implications for prompt intervention. source: https://theconversation.com/what-your-brain-structure-says-about-your-personality-71826 What is the potential application of the research finding? A. It may enable early identification of persons at high risk for mental illness B. It may allow us to gain a better understanding of mental disorders in people C. It may prevent the crucial scenario that person who has illness encounter D. It may detect early indicators of high-risk injury developed in individual’s brain E. It may develop mental illness at a young age due to basic personality traits

Pembahasan	**Jawaban: A. It may enable early identification of persons at high risk for mental illness** **Pembahasan** Arti soal: “Apa potensi pengaplikasian dari temuan penelitian ini?” Untuk menjawab soal ini, kita perlu untuk membaca cepat teks untuk menemukan bagian yang menjelaskan tentang potensi pengaplikasian dari temuan penelitian tentang struktur otak ini. Adapun hal tersebut dibahas dalam paragaraf 5, kalimat 2-3 sebagai berikut: *“Linking the brain structure to basic personality traits is a crucial step to improving our understanding of mental disorders. In the future, it may even give us the opportunity to detect those who are at high risk of developing mental illnesses early, which has obvious implications for prompt intervention.”* Artinya: “Menghubungkan struktur otak dengan ciri-ciri kepribadian dasar adalah langkah penting untuk meningkatkan pemahaman kita tentang gangguan mental. Di masa depan, bahkan mungkin memberi kita kesempatan untuk mendeteksi mereka yang berisiko tinggi terkena penyakit mental sejak dini, yang memiliki implikasi nyata untuk intervensi segera.” Dari kalimat tersebut dapat disimpulkan bahwa hasil temuan penelitian ini dapat digunakan untuk mendeteksi mereka yang beresiko tinggi terkena penyakit mental secara dini. **Opsi A (BENAR)** Artinya: “Hal ini memungkinkan identifikasi dini untuk orang-orang yang beresiko tinggi mengalami penyakit mental.” Opsi A benar karena sesuai dengan informasi dalam teks. **Opsi B (salah)** Artinya: “Hal ini memungkinkan kita untuk mendapatkan pemahaman yang lebih baik tentang gangguan mental.” Opsi B salah karena tidak sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “Hal ini dapat mencegah scenario penting yang dihadapi orang yang memiliki penyakit.” Opsi C salah karena tidak sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “Hal ini dapat mendeteksi indicator awal cedera beresiko tinggin yang berkembang di otak individu”. Opsi D salah karena tidak sesuai dengan informasi dalam teks. **Opsi E (salah)**

Nomor 27.	
Soal	When you think of “currency,” you are probably thinking of the cash you hand over at a store, or the credit cards or money transfers that can be used in place of physical money. In general, currency is a system of money backed by a government. Typically made up of coins and paper notes, currency is a medium of exchange, meaning that it is the basis for various kinds of trade and transactions. As technology has grown more sophisticated, digital currencies (which have no physical form) have grown as more financial transactions have gone online. Digital currency is simply a payment method that does not exist outside of its electronic form. Within the past decade, a new particularly popular kind of digital currency has emerged: cryptocurrency. Although this new system is unlikely to replace the more traditional forms of currency any time soon, it has made a significant impact in less than 10 years. The prefix “crypto” originally comes from the Greek word meaning “hidden.” This does not mean that cryptocurrency is secret, but rather that this “hidden” money is digital, and is kept secure with digital-code encryption. These digital currencies are the heart of systems that allow secure, direct payment for online transactions. “Crypto-” actually refers to the cryptographic data encryption that keeps the transactions protected from hackers or other digital eyes. It also makes cryptocurrency difficult to counterfeit. Cryptocurrency has gained popularity because it offers a straightforward way to transfer funds entirely online, without involving third parties like banks or credit card companies (and paying the fees they often charge for processing transactions). Instead of physical coins or paper notes, cryptocurrencies have digital “tokens,” or different digital denominations (think of one- or five-dollar bill, etc.). For example, one bitcoin is equivalent to 100,000,000 satoshis, the smallest denomination of a bitcoin and named for bitcoin’s supposed inventor, Satoshi Nakamoto. This enables transactions smaller than a full coin. The transfer of funds involves “public” and “private” keys, which are lines of code that need to match on both sides, so the transaction can be completed. Cryptocurrency is saved in the user’s “wallet,” or a URL or internet account address that can only be accessed by the owner. The wallet has a public key, and the private key is used to sign a transaction, much like you would sign a check or a credit card slip. source: *https://education.nationalgeographic.org/resource/digital-currency* Which of the following is NOT TRUE about currency? A. It has official backing from the government B. It typically made up both coins and paper C. It refers the means used to pay for stuff D. It does not exist in tangible form E. It functions as a means of trade

Pembahasan	**Jawaban: D. It does not exist in tangible form** **Pembahasan** Arti soal: “Manakah dari berikut ini yang TIDAK BENAR tentang mata uang?” Untuk menjawab soal ini, kita perlu membaca cepat untuk menemukan bagian bacaan yang menjelaskan tentang mata uang (currency). Adapun hal tersebut dibahas dalam paragraf 1 sebagai berikut: *“When you think of “currency,” you are probably thinking of the cash you hand over at a store, or the credit cards or money transfers that can be used in place of physical money. In general, currency is a system of money backed by a government. Typically made up of coins and paper notes, currency is a medium of exchange, meaning that it is the basis for various kinds of trade and transactions.”* Artinya: “Ketika memikirkan “mata uang”, yang mungkin anda pikirkan uang tunai yang diberikan ke toko, atau kartu kredit atau transfer uang yang dapat digunakan sebagai pengganti uang fisik. Secara umum, mata uang adalah sistem uang yang didukung oleh pemerintah. Biasanya terdiri dari koin dan uang kertas, mata uang adalah alat tukar, yang berarti bahwa hal ini adalah dasar untuk berbagai jenis perdagangan dan transaksi.” Dari teks tersebut dapat disimpulkan beberapa hal tentang mata uang, yaitu: 1) Mata uang adalah sistem uang yang didukung pemerintah 2) Biasanya ada bentuk koin dan kertas 3) Mata uang adalah alat tukar 4) Digunakan untuk transaksi dan perdagangan Selanjutnya, kita perlu mencari dari opsi A sampai E mana yang merupakan pernyataan yang tidak sesuai dengan informasi dalam teks. **Opsi A (salah)** Artinya: “Hal ini memiliki dukungan resmi dari pemerintah.” Opsi A salah karena merupakan pernyataan tentang mata uang yang sesuai dengan isi teks. **Opsi B (salah)** Artinya: “Hal ini biasanya terdiri atas koin dan kertas.” Opsi B salah karena merupakan pernyataan tentang mata uang yang sesuai dengan isi teks. **Opsi C (salah)** Artinya: “Hal ini adalah cara yang digunakan untuk membayar barang.” Opsi C

Nomor 28.	
Soal	Water is at the heart of health and well-being for people and nature. Access to it is a human rights issue recognized by international treaties and declarations, and national standards. It's vital for education and economic productivity. Ultimately, it connects the environment to society. The most recent statistics (2020) show a general global trend of positive progress in access to water. The proportion of the global population using safely managed drinking water services increased from 70.2% in 2015 to 74.3% in 2020. But despite this progress, in 2020, two billion people still lacked safely managed drinking water. The sub-Saharan African region has the largest numbers, with 387 million people still lacking basic drinking water services. Current coverage of access to safe drinking water is estimated at only 54% of the region's population. In South Africa, the right to water is enshrined in the constitution. Before the country's transition to democracy in 1994, government policies were focused on the advancement of the white minority. The development of the country's water resources wasn't focused on improving the position of the mostly black, poor majority. The country has made significant progress since 1996 in expanding water services, especially within the disadvantaged and vulnerable communities and rural areas. But inequality in access to basic services is still a reality. Progress with water supply and sanitation service delivery has been slow and, in some instances, it's deteriorating. In 1994, about 14 million people (35%) in South Africa didn't have basic water supply services. The minimum standard of these services is defined as clean, piped water delivered within 200 meters of a household at a minimum flow rate of 10 liters per minute, for 300 days a year, with any interruption not lasting longer than two days at a time. The government adopted various policies and programs aimed at sustainable water development, improving the quantity and the quality of water supply to citizens. This created a comprehensive legislative framework for the provision of water and sanitation services. source: https://theconversation.com/basic-water-services-in-south-africa-are-in-decay-after-years-of-progress-185616 According to the text, what is the importance of water? A. It is recognized as human right issue by national standard B. It is fundamental to both human and environmental health C. It is linked the healthy environment to human well-being D. It is issued by international treaties and declarations E. It is essential for productivity of society and nature

Pembahasan	**Jawaban: B. It is fundamental to both human and environmental health** **Pembahasan:** Arti soal: “Berdasarkan teks, apa pentingnya air?” Untuk menjawab soal ini, kita perlu membaca dan memahami teks untuk menemukan bagian teks yang menjelaskan tentang pentingnya air. Adapun hal tersebut dibahas dalam paragraf 1, kalimat 1 berikut: **“Water is at the heart of health and well-being for people and nature.”** Artinya: “Air adalah jantung dari kesehatan dan kesejahteraan bagi manusia dan alam.” Frasa “is at the heart” dapat diartikan sebagai sesuatu yang sangat penting atau mendasar. Maka, disimpulkan bahwa air penting karena merupakan hal fundamental/mendasar untuk kesejahteraan dan atau kesehatan manusia dan alam. **Opsi A (salah)** Artinya: “diakui sebagai masalah hak asasi manusia oleh standar nasionnal.” Opsi A salah karena bukan merupakan pernyataan tentang pentingnya air yang sesuai dengan isi teks. **Opsi B (BENAR)** Artinya: “Hal ini sangat penting bagi kesehatan manusia dan lingkungan.” Opsi B benar karena merupakan pernyataan tentang pentingnya air yang sesuai dengan isi teks. **Opsi C (salah)** Artinya: “Menghubungkan lingkungan yang sehat dengan kesejahteraan manusia.” Opsi C salah karena bukan merupakan pernyataan tentang pentingnya air yang sesuai dengan isi teks. **Opsi D (salah)** Artinya: “Dibahas oleh perjanjian dan deklarasi internasional.” Opsi D salah karena bukan merupakan pernyataan tentang pentingnya air yang sesuai dengan isi teks. **Opsi E (salah)** Artinya: “Hal ini sangat penting untuk produktivitas masyarakat dan alam.” Opsi E salah karena bukan merupakan pernyataan tentang pentingnya air yang sesuai dengan isi teks.

Soal	Awarded the Nobel prize for physics in 1918, German physics Max Planck is best remembered as the originator of the quantum theory. His work helped user in a new era in theoretical physics and revolutionized the scientific community's understanding of atomic and sub-atomic processes. Planck intriduced an idea that led to the quantum theory, which became the foundation of twentieth century physics. In December 1900, Plnck worked out an equation that described the distribution of radiation accurately over the range of low to high frequencies. He had developed a theory which depended on a model of matter that seemed very strange at the time. The model required the emission of electromagnetic radiation in small chunks or particles. These particles were later called quantums. The energy associated with each quatum is measured by multiplying the frequency of the radiation, v, by a universal constant, h. Thus, energy, or E, equals hv. The constant, h, is known as Planck's constant. It is now recognized as one of the fundamental constant of the world. Planck announced his finding in 1900, but it was years before the full consequences of his revolutionary quantum theory were recognized. Throughout his life, Planck made significant contributions to optics, thermodynamics and stastistical mechanics, physical chemistry, and other fields. In 1930, He was elected president of the Kaiser Wilhelm society, which was renamed the Max II. Though deeply opposed to the fascist regime of Adolf Hitler, Planck remained in Germany throughout teh war. He died in Gottingen on October 4, 1947. The fact in this passage is … A. Only a German physics could discover such a theory B. Quantum theory, which led to the development of twentieth century physics, is basically a mathematical formula C. Planck's constant was not discernible before 1900 D. Radiation was hard to study E. Quantum theory has its own basic formula or new

Pembahasan	**Jawaban: B. Quantum theory, which led to the development of twentieth century physics, is basically a mathematical formula** **Soal : Fakta dari teks tersebut adalah…** **Pembahasan:** Quantum theory pada dasarnya adalah rumus matematika seperti dinyatakan dalam kalimat, “Thus energy, or E, equal hv.” Opsi A (salah) Artinya Hanya fisika Jerman yang bisa menemukan teori seperti itu **Opsi B (benar)** Artinya Teori kuantum, yang mengarah pada pengembangan fisika abad kedua puluh, pada dasarnya adalah rumus matematika Opsi C (salah) Artinya Konstanta Planck tidak terlihat sebelum tahun 1900 Opsi D (salah) Artinya Radiasi sulit dipelajari Opsi E (salah) Artinya Teori kuantum memiliki rumus dasar sendiri atau baru

Soal

Today, anyone with an internet connection can create and share deceptive content — from outright false information to a more underhanded distorting of facts. Considering the vastness of the internet, and since protecting freedom of speech is paramount, online misinformation is an immense challenge to legislate away.

This has been an especially large problem amidst the ongoing COVID-19 pandemic, where false and unsubstantiated claims about the nature of the virus spread rapidly and widely. Global misinformation campaigns targeting the safety and efficacy of vaccines have fuelled growing anti-vaccine rhetoric, stalling vaccination rates and causing preventable death. This has illustrated the imminent threat misinformation poses to the functioning of our institutions, and to society as a whole.

While misinformation itself is not new, the internet provides unprecedented reach for spreading it. Between 2014 and 2017, Russian content creators produced tens of thousands of pieces of false and modified content, reaching over 126 million American Facebook users alone. Twitter has similarly dealt with a record amount of “fake news” in recent years, resulting in thousands of legal demands for content removal from governments worldwide. Efforts to remove and label misinformation on social media platforms may help, but a more pertinent question is whether these efforts can match the rapid pace of misinformation spread.

In response to the growing pressure to control misinformation on their platforms, social media giants have generally relied on reactively removing or labelling false content after it’s widely noticed and reported. In the time this process takes, research has shown that fake news spreads farther and faster than truthful content. Misinformation is often perceived as “novel” and “sensational,” which swiftly grabs attention and gets viewed and shared more readily.

This is currently happening with the conflict in Ukraine, where several shocking images falsely claiming to show current events quickly reached hundreds of thousands of views on Twitter before being removed. Labelling or removing content from these platforms forces companies to navigate the blurry lines of what constitutes false or misleading content, and what should be protected as freedom of expression.

JADIBUMN
BIMBEL PERSIAPAN MASUK BUMN

source: https://theconversation.com/in-order-to-be-saved-from-misinformation-we-need-to-be-exposed-to-it-175984

What is the most concerning aspect of the practice of labelling and removing social media content?

A. It navigates companies in forcing its users to post a lot of more deceptive posts in their online platforms

B. It constitutes an attempt to restrict people’s right to freedom of expression in social media channels

C. It gives label to misleading contents and forces media social developer to remove such information

D. It compels companies to manage the fuzzy borders between misleading content and free expression

Pembahasan	**Jawaban: D. it compels companies to manage the fuzzy borders between misleading content and free expression** **Pembahasan:** Arti soal: “Apa aspek yang paling mengkhawatirkan dari praktik pelabelan and penghapusan konten dari media social?” Untuk menjawab soal ini, kita perlu memahami bacaan secara keseluruhan terutama pada bagian yang membahas tentang kekhawatiran yang ditimbulkan oleh praktik pelabelan dan penghapusan dan penghapusan konten dari media social yang dilakukan oleh para pengembang media social. Adapun secara khusus hal tersebut dibahas dalam Paragraf 5, Kalimat 2 berikut: “Labelling or removing content from these platforms forces companies to navigate the blurry lines of what constitutes false or misleading content, and what should be protected as freedom of expression.” Artinya: “Memberi label atau menghapus konten dari platform memaksa perusahaan untuk menavigasi (mengarahkan) garis kabur tentang apa yang disebut sebagai konten menyesatkan dan apa yang harus dilindungi sebagai kebebasan berekspresi.” Dari kalimat tersebut, dapat disimpulkan bahwa aspek mengkhawatirkan dari praktik pelabelan dan penghapusan konten media social adalah fakta bahwa hal ini menuntut perusahaan untuk mengarahkan/menentukan mana yang termasuk konten yang palsu/menyesatkan sekaligus melindungi kebebasan berekspresi. **Opsi A (salah)** Artinya: “hal ini mengarahkan perusahaan dalam memaksa penggunanya untuk memposting lebih banyak postingan yang menipu di platform online mereka.” Opsi A salah karena bukan kekhawatiran yang timbul karena praktik tersebut. **Opsi B (salah)** Artinya: “hal ini merupakan upaya untuk membatasi hak atas kebebasan berekspresi di saluran media sosial.” Opsi B salah karena bukan kekhawatiran yang timbul karena praktik tersebut. **Opsi C (salah)** Artinya: “Hal ini memberi label pada konten yang menyesatkan dan memaksa pengembang media sosial untuk menghapus informasi tersebut.” Opsi C salah karena bukan kekhawatiran yang timbul karena praktik tersebut. **Opsi D (BENAR)** Artinya: “Ini memaksa perusahaan untuk mengelola/menentukan batas kabur antara konten yang menyesatkan dan kebebasan berekspresi.” Opsi D benar karena merupakan kekhawatiran yang timbul karena praktik tersebut yang sesuai dengan informasi dalam teks.

Soal	Commonly assumed to be silent, 53 animals have had their 'voices' added to a family tree of vocalizations in an effort to determine when acoustic communication emerged in evolutionary history. The species that are finally being heard come from four different animal clades, including 50 turtle species, the South American lungfish (Lepidosiren paradoxa), a limbless amphibian called Cayenne caecilian (Typhlonectes compressicauda), and a reptile from New Zealand known as a tuatara (Sphenodon punctatus). All recorded species were found to possess a varied acoustic repertoire comprising a number of different sounds. The fact that so many species across the turtle tree of life share an ability to make vocal sounds strongly suggests it is ancestral to the entire turtle clade. What's more, when researchers combined the turtle data with an analysis of 1,800 other vertebrates with lungs, they found evidence of a common origin of sound production and acoustic communication across all animals in possession of enough backbone to draw and exhale breath. Amphibians and reptiles are much less studied, but just because the researchers don't have much data on their sound production, doesn't mean they aren't making noise. If we really want to understand how acoustic communication evolved, researchers argue, we have to systematically document these "neglected groups". This is exactly what the current study attempted to test. The authors only searched for sound production among 106 neglected species. Today, the reigning theory on acoustic communication suggests that this fundamental trait arose multiple times across the animal tree of life. This is based on an apparently wide variety of ear structures and vocal morphologies seen among birds and mammals. But this new phylogenetic analysis suggests that is incorrect. The fact that animals so far apart on the tree of life are producing sound in similar ways and for similar reasons, whether it be for mating, communication, or parenting, suggests the skill shares a common origin. It might have evolved just once before diverging. In fact, the trait seems to date back to an ancestor common to a wide variety of modern vertebrates that lived 407 million years ago. "Our results now show that acoustic communication did not evolve multiple times in diverse clades, but has a common and ancient evolutionary origin," concludes paleobiologist Marcelo Sánchez from the University of Zurich in Switzerland. The findings are a good reminder that just because an animal is hard to hear, doesn't mean we shouldn't listen to them. source: https://www.sciencealert.com/we-thought-these-animals-were-silent-scientists-just-found-their-voices It can be inferred that the term neglected groups mentioned in the passage refers to…. A. objects with more documented data B. researchers who want to study reptiles and amphibians C. researchers who conduct the research D. animals that are not making any noise E. animals that have received less research

Pembahasan	**Jawaban: E. animals that have received less research** **Pembahasan** Arti soal: “Dapat disimpulkan bahwa istilah ‘neglected group’ yang disebutkan dalam teks mengacu pada….” Untuk menjawab pertanyaan ini kita perlu membaca dan memahami paragraf 3 dimana istilah tersebut muncul untuk selanjutnya mengartikan apa yang dimaksud dengan istilah ‘neglected group’ atau kelompok yang diabaikan. Berikut paragraf 3 teks: “*Amphibians and reptiles are much less studied, but just because the researchers don't have much data on their sound production, doesn't mean they aren't making noise. If we really want to understand how acoustic communication evolved, researchers argue, we have to systematically document these "neglected groups".*” Artinya: “Amfibi dan reptil jauh lebih sedikit dipelajari, tetapi hanya karena para peneliti tidak memiliki banyak data tentang produksi suara mereka, tidak berarti mereka tidak membuat suara. Jika kita benar-benar ingin memahami bagaimana komunikasi akustik berkembang, para peneliti berpendapat, kita harus secara sistematis mempelajari "kelompok terabaikan" ini.” Dari paragaf tersebut dapat disimpulkan bahwa “kelompok terabaikan” yang disebutkan dalam teks mengacu pada kelompok hewan yang lebih sedikit dipelajari dan memiliki sedikit data tentang produksi suara mereka seperti amfibi dan reptil. Opsi A (salah) Artinya: objek dengan dokumenatasi data yang lebih banyak. Opsi A salah karena bukan kelompok yang dimaksud dalam teks. Opsi B (salah) Artinya: peneliti yang ingin mempelajari reptile dan amfibi. Opsi B salah karena bukan kelompok yang dimaksud dalam teks. Opsi C (salah) Artinya: peneliti yang melakukan penelitian ini. Opsi C salah karena bukan kelompok yang dimaksud dalam teks. Opsi D (salah) Artinya: hewan yang tidak menghasilkan suara apapun. Opsi D salah karena bukan kelompok yang dimaksud dalam teks. Opsi E (BENAR) Artinya: hewan yang kurang diteliti. Opsi E benar karena merupakan kelompok yang dimaksud dalam teks.

Labelling or removing content from these platforms forces companies to navigate the blurry lines of what constitutes false or misleading content, and what should be protected as freedom of expression. source: https://theconversation.com/in-order-to-be-saved-from-misinformation-we-need-to-be-exposed-to-it-175984 It is implied in the passage that social media platforms remove false information by…. A. responding to the sensational posts B. sharing the truth behind the information C. growing the control over their user accounts D. receiving multiple reports from its users E. notifying the process of content removal

Pembahasan	**Jawaban: D. receiving multiple reports from its users** **Pembahasan** Arti soal: “Tersirat dalam teks bahwa platform media social menghapus informasi palsu dengan cara….” Untuk menjawab soal ini kita perlu membaca cepat teks untuk menemukan bagian yang membahas tentang cara media social menghapus informasi palsu. Adapun hal tersebut dibahas dalam paragraf 4, kalimat 1 berikut: *“In response to the growing pressure to control misinformation on their platforms, social media giants have generally relied on reactively removing or labelling false content after it’s widely noticed and reported.”* Artinya: “Menggapi tekanan yang meningkat untuk mengendalikan informasi yang salah di platform mereka, raksasa media social biasanya mengandalkan penghapusan atau pelabelan konten palsu secara reaktif setelah diketahui dan dilaporakan secara luas.” Dari kalimat tersebut dapat disimpulkan bahwa media social akan menghapus suatu informasi setelah informasi tersebut dilaporkan secara luas oleh penggunanya. **Opsi A (salah)** Artinya: “menanggapi postingan yang sensasional.” Opsi A salah karena merupakan informasi yang tidak sesuai dengan teks. **Opsi B (salah)** Artinya: “membagikan kebenaran di balik informasi yang tersebar.” Opsi B salah karena merupakan informasi yang tidak sesuai dengan teks. Opsi C (salah) Artinya: “menumbuhkan control atas akun pengguna”. Opsi C salah karena merupakan informasi yang tidak sesuai dengan teks. **Opsi D (BENAR)** Artinya: “menerima banyak laporan dari penggunanya.” Opsi D benar karena merupakan informasi yang sesuai dengan teks. **Opsi E (salah)** Artinya: “memberitahukan proses penghapuskan konten.” Opsi E salah karena merupakan informasi yang tidak sesuai dengan teks.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) The mountains of worn-out tires in these dumps present a number of health and environmental dangers. First, they attract rats and mosquitoes, which then spread disease among humans. The tires can also catch on fire, and these fires are very difficult to extinguish. They may burn from a few days to a few months. While the tires burn, they release cancer-causing gases into the air. These gases spread over nearby towns and cause health problems for people who live there. (2) After a tire dump fire is put out, pieces of burned tires remain on the ground. When it rains, chemicals from the burned parts wash into the soil and into the ground water. This pollutes the soil and the drinking water in the area. (3) Aside from these problems, the tire dumps represent a terrible waste of resources. Therefore, in order to avoid the problems and the waste, people are looking for ways to recycle or reuse tires. Recycling is common for other materials, such as paper, glass, and aluminum. Now tires are also being reused in a number of creative ways. (4) One solution is to burn the tires to create energy. An energy company with plants in California and Connecticut burns tires to produce steam for generating electricity. When the tires are burned properly, the fire does not pollute the air. Every day, workers check to make sure that no dangerous gases are allowed out of the energy plant's chimneys. A total of about 15 million tires are burned every year in the company's two plants. This produces enough electricity to supply about 42,000 houses. The main idea of paragraph 1 is … A. The dangers of burning tires for health and the environment B. tire burning process C. waste tire recycling D. disposal of used tires E. air pollution

Pembahasan	**Jawaban : A. The dangers of burning tires for health and the environment** **Pembahasan:** Kalimat utama pada paragraf ke satu dapat kita temukan diawal kalimat paragraf tersebut “The mountains of worn-out tires in these dumps present a number of health and environmental dangers.” Hal ini menunjukan bahwa bahaya nya ban yang terbakar bagi kesehatan dan lingkungan. Di paragraf kesatu dijelaskan proses bagaimana ban pembakaran ban bekas ditempat pembungan sampah terjadi dan memicu kesehatan banyak orang, bahkan dapat menyebabkan kanker. Maka jawaban yang paling tepat adalah opsi A. - Opsi B salah, karena proses pembakaran ban lebih diperjelas lagi di paragraf kedua. - Opsi C salah, karena daur ulang ban dijelaskan di paragraf ketiga pada teks tersebut. - Opsi D salah, karena pembuangan ban bekas dijelaskan diparagraf ke tiga. - Opsi E salah, karena tidak spesifik sehingga tidak bisa dijadikan kalimat utama pada teks tersebut.

Soal	Taufik Hidayat (born 10th August 1981 in Bandung, West Java) is a retired Indonesian badminton player. He is a former World and olympics Champion in men's singles. He has also won the Indonesian Open six times (1999, 2000, 2002, 2003,2004 and 2006). When he was young, he joined the SGS Club, a club badminton in Bandung, where he was trained under lie Sumirat. Hidayat won the men's single's competition at the 2004 Summer Olympics. In August 2005, he won the men's single's competition at the IBF World Championships. He also won the gold medal at the Asian Games twice, at Busan 2002 and Doha 2006. He maried Agum Gumelar's daughter, Ami Gumelar, in 2006. In August they were blessed with a daughte, Natarin Alika Hidayat. A few day after Alika was born, he left for the capital og Malaysia, to attend the planet Championships. Hidayat's main qualities are his backhand is perhaps most famous for his backhand smash, revered for its unusually high generation of power), forehand jump smash, drop shot (reverse slice particular), smooth footwork and deceiving net play. Hidyat's forehand jump smash in the 2006 World Championships is currently the fastest smash recordin the single's competition. He recorded a 305 km/h in a match againts Ng Wei. The main idea of the last paragraph is... A. Taufik Hidayat is an excellent badminton player in many ways B. The fastest smash was recorded in his single's competitions C. Taufik's main qualities are his backhand smashes D. Taufik is know as a unique badminton player E. Taufik has unusually high generation power

Pembahasan	**Jawaban: A. Taufik Hidayat is an excellent badminton player in many ways** **Soal : Ide pokok paragraf terakhir adalah...** Pembahasan: Isi dari paragraf terkahir adalah Taufik Hidayat memiliki kemampuan terbaik dalam melakukan backhand, smash pukulan forehand dengan meloncat, drop shot, pergerakan kakinya yang halus, dan permainan jaring yang menipu. Sehingga inti dari paragraf terakhir adalah Taufik Hidayat merupakan pemain bulu tangkis yang unggul dalam beberapa cara. **Opsi A (benar)** Arti kalimat ini adalah Taufik Hidayat adalah pemain bulutangkis yang sangat baik dalam banyak hal Opsi B (salah) Arti kalimat ini adalah Smash tercepat dicatat dalam kompetisi single-nya Opsi C (salah) Arti kalimat ini adalah Kualitas utama Taufik adalah pukulan backhand-nya Opsi D (salah) Arti kalimat ini adalah Taufik dikenal sebagai pemain bulutangkis yang unik Opsi E (salah) Arti kalimat ini adalah Taufik memiliki daya pembangkitan yang luar biasa tinggi

Nomor 35.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) The killer sea waves known as Tsunamis are so quiet in their approach from a far, so harmless, that until recently their history has been one of surprise attack. (2) Out in the middle of the ocean, the distance between tsunami wave crests can be 100 miles and the height of the wave have no more than three feet: sailors can ride one and suspect nothing. At the shoreline, the first sign is often an ebbing-a retreat but rather a gathering of forces. When the great waves finally do strike, they rear up and hit harbor and coast, causing death and damage. (3) These seismic sea waves or tidal waves-as they are sometimes called, bear no relation to the moon or tides. And the word "tsunami", Japanese for "harbor wave", related to their destination rather than their origin. The causes are various: undersea or coastal earthquakes, deep ocean avalanches or volcanism. Whatever the cause, the wave motion starts with a sudden move like a hit from a giant paddle that displaces the water. And the greater the undersea hit, the greater the tsunami's damaging power. (4) In 1883, Krakatoa volcano in the East Indies erupted, and the entire island collapsed in 820 feet of water. A tsunami is a tremendous forces bouncing around Java and Sumatera, killing 36.000 people with walls of water that reached 115 feet in height. (5) In 1946, a tsunami struck first near Alaska and then, without warning, hit Hawaiian Islands, killing 159 people and causing millions of dollars of damage. This led to the creation of the Tsunami Warning System, whose nerve center in Honolulu keeps around-the-clock vigil with the aid of new technology. If the seismic sea waves are confirmed by the Honolulu center, warnings are transmitted within a few hours to all threatened Pacific points. Tsunamis have been deprived of their most deadly sting-surprise. The tsunamis are seemingly harmless when they start because … A. The waves out in the ocean were not alarmingly high. B. The ebbing of the water leave fish stranded and slapping on the bottom. C. The great waves strike, reaching up and hitting harbor and coast. D. The waves approaching from a far gather forces and move the water away from the land. E. The seismic sea waves bear no relation to the moon or tides.

Pembahasan	**Jawaban : A. The waves out in the ocean were not alarmingly high.** **Pembahasan :** Pada paragraf kedua dikatakan *"Out in the middle of the ocean, the distance between tsunami wave crests can be 100 miles and the height of the wave have no more than three feet: sailors can ride one and suspect nothing. At the shoreline, the first sign is often an ebbing-a retreat but rather a gathering of forces. When the great waves finally do strike, they rear up and hit harbor and coast, causing death and damage.* bahwa jauh di lautan sana, gelombang tsunami berjarak sekitar 100 mil dan tingginya tidak lebih dari tiga meter. Hal tersebut tidak menimbulkan kekhawatiran bagi para pelaut yang menganggap hal tersebut adalah hal yang wajar. Di tepian pantai pun gelombang yang terjadi tidaklah dahsyat sehingga tsunami tidak terlihat menakutkan ketika mulai terjadi. Dilihat dari pilihan jawaban yang ada, maka Jawaban (A)-lah yang paling tepat karena awalnya terlihat sebagai gelombang biasa maka kedatangannya sangatlah mengejutkan.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) Edward Patrick Eagan was born on April 26,1987, in Denver, Colorado, and his father died in a railod accident when Eagan was only a year old. He and his four brothers were raised by his mother, who earned a small income from teaching foreign languages. (2) Inspired by Frank Merriwell, the hero of a series of popular novels for boys, Eagan pursued an education for himself as well as an interest in boxing. He attended the University of Denver for a year before serving in the U.S. Army as an **artillery** lieutenant during World War I. After the war, he entered Yale University and while studying there, won the U.S. national amateur heavyweight boxing title. He graduated from Yale in 1921, attended Harvard Law School, and received a Rhodes scholarship to the University of Oxford where he received his A.M. in 1928. (3) While studying at Oxford, Eagan become the first American to win the British amateur boxing championship. Eagan won his first Olympic gold medal as a light heavyweight boxer at the 1920 Olympic Games in Antwerp, Belgium. Eagan also fought at the 1924 Olympics in Paris as heavyweight but failed to get a medal. Though he has taken up the sport just three weeks before the **competition**, he managed to win a second gold medal as a member of the four-man bobsled team at the 1932 Olympics in Lake Placid, New York. Thus he became the only athlete to win gold medals at both the Summer and Winter Olympics. (4) Eagan was a member of the first game of athletes inducted into the U.S. Olympic Hall of Fame in 1983. Eagan became a respected attorney, serving as an assistant district attorney for southern New York and as chairman of the New York State Athietic Commission (1945-1951). He married soap heiress Margaret Coigate and attained the rank of lieutenant colonel during World War II. According to the passage, Eagan's profession was … A. A boxing trainer B. An attorney C. An army officer D. President of Colgate E. Author
Pembahasan	**Jawaban : B. An attorney** Dapat kita simpulkan bahwa Eagan berprofesi sebagai attorney (pengacara), hal ini dijelaskan pada paragraf ke 4 yang menjelaskan bahwa beliau menjadi pengacara terhormat.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text 5 (1) Throughout history, people have been the victims of the pickpokets. Today, pickpocketing is one of the most rapidly increasing crime. Pickpockets are increasing in number and developing better methods to practice their skills. Approximately, one million American loose money to pickpockets. His victims, or 'marks' as they called, can be rich or poor, young or old. (2) During the eighteenth century, pickpockets were hanged in England. Large crowds of people would gather to watch the hanging, which was supposed to be the warning for the other pickpockets. However, in time, this practice was discontinued. The reason: while people attentively watching the hanging of a pickpocket, other pickpockets skillfully stole the money from the spectators! (3) Police officials say that the most efficient pickpockets come from South America. Many of these expert pickpockets are trained in special schools called Jingle Bells Schools. A pickpocket graduated from J.B.S. when he is able to steal a wallet from a dressed dummy (mannequin) that has bells inside his pockets. (4) Even the most well-dressed, respectable person can be a pickpocket. Some of the favorite places are banks, airports, race tracks, supermarkets, elevators, trains and bus stations. Oftenly, some pickpockets are working together with other pickpockets as a partner. Another kinds of pickpocket works outside or inside the bars and specialized in stealling from women is called 'purse snatcher! (5) To avoid being the victim of the pickpocket, it is important to be very cautious and alert when in the midst of a large gatherings of people. South American pickpockets are the most efficient ones because.... A. they are well-trained B. they are handsome C. they are well-dressed D. they are respectable E. they are persistent

Pembahasan	**Jawaban: A. They are well-trained** **Pembahasan:** Kata kunci dari pertanyaan tersebut adalah South America. Kata kunci tersebut dapat ditemukan pada paragraf ketiga yang di dalamnya membahas kehidupan para pencopet yang tinggal di Amerika Selatan (Amerika Latin). Hal yang membuat para pencopet tersebut menarik adalah ketika terdapat sekolah khusus bagi pencopet disana sehingga mereka menjadi orang yang terlatih (well-trained) dalam menjalankan aksinya.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) Coral reefs are one of the most fragile, biologically complex and diverse marine ecosystems on Earth This ecosystem is one of the fascinating paradoxes of the blosphere how do clear, and thus nutrient-poor, waters support such prolific and productive communities? Part of the answer lies within the tissues of the corals themselves. Symbiotic cells of algae known as zooxanthellae carry out photosynthesis using the metabolic wastes of the coral thereby producing food for themselves, for their corals, hosts, and even for other members of the reef community This symbiotic process allows organisms in the reef community to use sparse nutrient resources efficiently. (2) Unfortunately for coral reefs, however, a variety of human activities are causing world wide degradation of shallow marine habitats by adding nutrients to the water. Agriculture, slash-and-burn land clearing, sewage disposal and manufacturing that creates waste by-products all increase nutrient loads in these waters. Typical symptoms of reef decline are destabilized herbivore populations and an increasing abundance of algae and filter-feeding animals. Declines in reef communities are consistent with observations that nutrient input is increasing in direct proportion to growing human populations, thereby threatening reef communities sensitive to subtle changes in nutrient input to their waters. The author refers to "filter-feeding animals' in order to.... A. provide an example of a characteristic sign of reef deterioration B. explain how reef communities acquire sustenance for survival C. identify a factor that helps herbivore populations thrive D. indicate a cause of decreasing nutrient input in waters that reefs inhabit E. identify members of coral reef communities that rely on coral reefs for nutrients

Pembahasan	Jawaban: A. provide an example of a characteristic sign of reef deterioration Pembahasan: Cari dalam wacana kalimat yang menggunakan frasa filter-feeding animals kemudian baca secara utuh kalimat tersebut. Sebagai referensi tambahan, baca kalimat sebelum dan atau setelah kalimat tersebut Kalimat utuh yang menggunakan frasa yang ditanyakan merupakan kalimat ketiga dari paragraf kedua "*Typical symptoms of reef decline are destabilized herbivore populations and an increasing abundance of algae and filter-feeding animals*. Pada kalimat tersebut. penulis menyatakan gejala penurunan jumlah terumbu karang adalah tidak stabilnya populasi herbivora laut dan peningkatan jumlah alga dan hewan penyaring makanan dengan filter- feeding animals Jadi, jawaban yang tepat adalah A, provide an example of a characteristic sign of reef deterioration (memberikan contoh sifat dari tanda kerusakan terumbu karang). - Opsi B salah, karena disini komunitas karang melindungi terumbu karang agar tetap terjaga, bukan malah menjelaskan bagaimana komunitas karang memperoleh makanan untuk bertahan hidup. - Opsi C salah, karena populasi herbivora laut mengalami penurunan, yang menyebabkan gejala penurunan jumlah terumbu karang. - Opsi D salah, karena karena tidak dijelaskan pada teks tersebut dan tidak adanya penjelasan mngenai berkurangnya masukan hara di perairan yang didiami terumbu karang. - Opsi E salah, karena filter-feeding merujuk kepada tanda kerusakan terumbu karang bukan kepada anggota komunitas.

Soal	One day, Daisy decided to buy Donald a new hat. “Your hat is out fashion!” She said, “Come on, I’ll buy a new one.” Donald knew that Daisy was right, so she agreed to go to a hat shop. As she went in, Daisy took off his old hat, “Hey, what’s going on?” Asked Donald. “I’m taking off your old hat because it’s so ugly. We don’t want the assistant to see you wearing it, do we? Said Daisy. Donald just said, “Err…no…I mean, you’re right, we don’t.” In fact, Donald was very found of his old hat, although he didn’t mind getting a new one if Daisy paid for us it. The trouble was this: there wasn’t any hat in the shop that Donald like. He tried many hats, but he felt that all hats looked silly on him. The shop assistant was getting tired in serving Donald, but he took another hat and showed it to him.”What about this one, Sir? I am sure you’ll like it.” “I quite agree!” said Donald happily. Do you know why? Because the hat looked exactly the same as his old one! Poor Daisy, she wasn’t very happy, but she had to pay for the hat. She promised she would buy a new hat for Donald, didn’t she ? Which is true about Donald according to the text ? A. Donald like being silly with his new hat B. Donald didn’t like his old fashioned hat C. Donald asked Daisy to buy him a new hat D. Donald was very angry with the shop assistant E. Donald chose a hat that looked exactly the same as the old one

Pembahasan	**Jawaban: E. Donald chose a hat that looked exactly the same as the old one** **Soal** : Manakah yang benar tentang Donald menurut teks? **Pembahasan**: Pernyataan yang tepat untuk teks di atas yaitu Donald memilih topi yang sama persis dengan yang lama/yang sudah dia miliki. Pernyataan tersebut ada di paragraph ke-2 yaitu *"because the hat looked the same as his old one"* Opsi A (salah) Opsi A artinya Donald suka bersikap konyol dengan topi barunya Opsi B (salah) Opsi B artinya Donald tidak menyukai topinya yang kuno Opsi C (salah) Opsi C yaitu Donald meminta Daisy untuk membelikannya topi baru Opsi D (salah) Opsi D yaitu Donald sangat marah dengan asisten toko Opsi E (benar) Opsi E yaitu Donald memilih topi yang terlihat persis sama dengan yang lama

Soal	Two state-owned lenders — Bank Mandiri and Bank BNI — will build temporary houses for 400 families displaced by the recent strong earthquake that hit Sigi District, CentralSulawesiProvinc Second Assistant Secretary of Sigi District Government Iskandar Nontji informed that the temporary houses for 100 families will be constructed by Bank Mandiri in the South Sibayala area of Dolo Sub-district. Meanwhile, Bank BNI will erect the temporary shelters for 300 families in Jonoge Village of Sigi Biromaru Sub-district that severely suffered from soil liquefaction during the 7.4-magnitude earthquake that rocked the area on Sept 28, he noted. The temporary houses will be constructed on pieces of land, owned by the sub-district government, village, and community members, he stated, adding that the Sigi district government will facilitate all related parties to sign a letter of agreement. “We are going to provide a letter of agreement that will be signed by all related parties to avoid any unexpected eventuality in the future,” he explained What is the text about? A. Building temporary houses for displaced family B. Planning to displace the temporary house C. Signing a letter of agreements to build a permanent house D. New luxury house will be built by BNI E. Assistant Secretary has built temporary houses

Pembahasan	**Jawaban: A. Building temporary houses for displaced family** **Pembahasan:** Soal ini menanyakan teks tersebut menceritakan tentang apa. Jawabannya dapat ditemukan di paragraf 1 yaitu ‘’... Bank Mandiri and Bank BNI — will build temporary houses for 400 families displaced by the recent strong earthquake that hit Sigi District..’’ **Opsi A (Benar)** Membangun rumah sementara untuk keluarga pengungsi Opsi B (Salah) Planning to displace the temporary house Opsi C (Salah) Signing a letter of agreements to build a permanent house Opsi D (Salah) New luxury house will be built by BNI Opsi E (Salah) Asisten Sekretaris telah membangun rumah sementara

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Inside Out is terrifically funny and smart: a high-concept animated family comedy from Pixar whose playful abstractions appear to have been cultured in an impossibly sophisticated laboratory. It's about what's going on inside a lonely 11-year-old girl called Riley (voiced by Kaitlyn Dias), when her stressed parents move her away from everything and everyone she loves to settle in a strange new city. (2) We see her five emotional forces as characters: Joy, Sadness, Anger, Disgust and Fear-secret tutelary deities, like the toys in Toy Stories squabbling among themselves within the mission control of Riley's consciousness. This is a dazzlingly surreal and faintly disturbing mental universe in which Riley's characteristic traits are represented by five huge "personality islands on the horizon, and where memories become multi-colored balls taken away every day to be warehoused offsite in a gigantic library, and retrieved at key moments. It is here that perky Joy (Amy Poehler) crucially faces off with mopey Sadness (Phyllis Smith), whose frumpy hair and specs are surely inspired by Marcie from Peanuts or Honey Huan in Doonesbury. (3) There is a message about emotional literacy, delivered via the complicated spectacle of Joy feeling sad or Sadness cheering up, and I have to say that nothing Sadness does compares to the devastating power of the flesh-and-blood, un-avatared sad moments in Toy Story or Up. Yet the vast expanse of Riley's inner mind, where Joy and Sadness must go on a journey together, is a glittering Oz to the Kansas that is the outer world of school and home. It's co-directed and co-written by Pete Doctor with a raft of additional script contributors, including the New Yorker's Simon Rich: a kite mark of excellence if ever there was one. This is high- IQ entertainment. The text talks about… A. Pixar review B. film review C. Inside Out's news D. smart entertainment E. a comedy show

Pembahasan	Jawaban: B. Film review Pembahasan: Teks tersebut membicarakan sebuah review film berjudul "Inside Out" yang disutradarai oleh Pete Docter (It's co-directed and co- written by Pete Docter) dengan konsep animasi komedi (high-concept animated family comedy). - Opsi A salah, karena Pixar adalah animasi konsep filem tesebut, dan teks tersebut tidak menyeluruh memaparkan tentang pixar. - Opsi C salah, karena ini adalah sebutan untuk film tersebut, bisa juga dimaksud dengan judul flm yang direview adalah inside out. - Opsi D salah, karena teks ini tidak hanya membahas hiburan cerdas saja. - Opsi E salah, karena ini memang film komedi namun ini adalah jenis film yang direview, jenis film ini merupakan komedi keluarga animasi berkonsep tinggi dari Pixar.

Nomor 44.	
Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks Manic depression is another psychiatric illness that mainly affects mood. A patient suffering from this disease will alternate between periods of manic excitement and extreme depression, with or without relatively normal periods in between. The changes in mood suffered by a manic–depressive patient go far beyond the day-to-day mood changes experienced by the general population. In the period of manic excitement, the mood elevation can become so intense that it can result in extended insomnia, extreme irritability, and heightened aggressiveness. In the period of depression, which may last for several weeks or months, a patient experiences feelings of general fatigue, uselessness, and hopelessness, and in serious cases, may contemplate suicide. The word “excitement” is closest to… A. Sad B. Happy C. Frustrated D. Anxious E. Miserable

Pembahasan	**Jawaban: B. Happy** **Pembahasan:** Perlu kita ketahui bahwa makna “excitement” adalah kegembiraan yang berlebih, maka jawaban yang paling tepat adalah opsi B. karena: - Sad = sedih - Happy = bahagia - Frustrated = frustasi - Axious = cemas - Miserable = sengsara
Materi	Reading
Nomor 45.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) Today's car are smaller, safer, cleaner, and more economical than their predecessors, but the car of the future will be far more pollution-free than those on the road today. Several new types of automobile engines have already been developed that run on alternative sources of power, such as electricity, compressed natural gas, methanol, steam, hydrogen, and propane. Electricity, however, is the only zero emission option presently available. (2) Although electric vehicles will not be truly practical until a powerful, compact battery or other dependable source of current is available, transportation experts foresee a new assortment of electric vehicle entering everyday life; shorter range commuter electric cars, three-wheeled neighborhood cars, electric delivery vans, bikes, and trolleys. (3) As automakers work to develop practical electrical vehicles, urban planners and utility engineers are focusing on infrastructure systems to support and make the use of the new cars. Public charging facilities will need to be as common as today's gas stations. Public parking spots on the street or the in commercial lots will need to be equipped with devices that allow drivers to charge their batteries while they shop, dine, or attend a concert. To encourage the use of electric vehicles, the most convenient parking in transportation centers might be reserved for electric cars. (4) Planners foresee electric shuttle buses, trains, buses, and neighborhood vehicles all meeting at transit centers that would have facilities for charging and renting. Commutes will be able to rent a variety of electric cars to suit their needs: light trucks, one-person three-wheeler, small cars, or electric/gasoline hybrid cars for longer trips, which will no doubt take place on automated freeways capable of handling five minutes times number of vehicles that can be carried by a freeway today. In the second paragraph the author implies that.... A. a dependable source of electric energy will eventually be developed B. everyday life will stay much the same in the future C. a single electric vehicle will eventually replace several modes of transportation D. electric vehicles are not practical for the future E. electric vehicles are not efficient for future use

Pembahasan	**Jawaban : A. a dependable source of electric energy will eventually be developed** **Pembahasan:** Pada paragraf kedua penulis menjelaskan meskipun kendaraan lisrik tidak praktis untuk digunakan karena harus menyesuaikan dengan baterai yang kuat dan sumber arus lain yang tersedia, tetapi para ahli transportasi memperkirakan berbagai kendaraan listrik baru yang bisa digunakan dalam kehidupan sehari-hari. Maka dapat kita simpulkan meskipun kendaraan listrik tidak praktis tetapi dimasa depan energi tersebut adalah salah satu yang dapat diandalkan dan dikembangkan oleh para ahli transportasi, mengingat dimasa depan bahan bakar minyak akan habis. Maka jawaban yang paling tepat adalah opsi **A. a dependable source of electric energy will eventually be developed** (sumber energi listrik yang dapat diandalkan pada akhirnya akan dikembangkan). - Opsi B (kehidupan sehari-hari akan tetap sama dengan dimasa depan) salah, karena pada paragraf 2 penulis menjelaskan berbagai alat transportasi listrik yang bisa digunakan dimasa depan. Dimana transportasi listrik tersebut belum ada dimasa sekarang. - Opsi C (satu kendaraan listrik pada akhirnya akan menggantikan beberapa model transportasi) salah, karena penulis tidak menjelaskan perubahan dari satu kendaraan listrik akan menggantikan beberapa model listrik, melaikan penulis menyebutkan berbagai macam alat transportasi yang bisa digunakan dalam kehidupan sehari-hari. - Opsi D (Kendaraan listrik tidak praktis untuk masa depan), salah, diawal kalimat memang penulis menyampaikan bahwa kendaraan listrik tidak praktis namun pada kalimat selanjutnya penulis menegaskan bahwa para ahli pun memperkiraan beberapa kendaraan listrik yang bisa memasuki dan disesuaikan dengan kehidupan sehari-hari, seperti: mobil listrik komuter jarak pendek, sepeda, troli, mobil pick up, dll. - Opsi E (Kendaraan listrik tidak efisien untuk masa depan), salah, karena pada paragraf kedua penulis menjelaskan bahwa para ahli transportasi telah memperkiraan kendaraan listrik yang efisien digunakan dalam kehidupan sehari-hari seperti: mobil listrik komuter jarak pendek, sepeda, troli, mobil pick up, dll.
