Nomor 1.	
Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Faraday studied the magnetic field around a conductor carrying a DC electric current. While conducting these studies, Faraday established the basis for the electromagnetic field concept in physics, subsequently enlarged upon by James Maxwell. He similarly discovered electromagnetic induction, diamagnetism, and laws of electrolysis. He established that magnetism could affect rays of light and that was an underlying relationship between the two phenomena. His inventions of electromagnetic rotary devices formed the foundation of electric motor technology, and it was largely due to his efforts that electricity became viable for use in technology. (2) as a chemist, Michael Faraday discovered benzene, investigated the clathrate hydrate of chlorine, invented an early form of the Bunsen burner and the system ofoxidation numbers, and popularized terminology such as anode, cathode, electrode, and ion. (3) Although Faraday received little formal education and knew little of higher mathematics, such as calculus, he was one of the most influential scientists in history. Historians of science refer to him as the best experimentalist in the history of science. The SI unit of capacitance, the farad, is named after him, as is the Faraday constant, the charge on a mole of electrons (about 96,485 coulombs). Faraday's law of induction states that magnetic flux changing in time creates a proportional electromotive force. (4) Faraday was the first and foremost Fullerian Professor of Chemistry at the Royal Institution of Great Britain, a position to which he was appointed for life. (5) Albert Einstein kept a photograph of Faraday on his study wall alongside pictures of Isaac Newton and James Clerk Maxwell. (6) Faraday was highly religious. He was a member of the Sandemanian Church, a Christian sect founded in 1730 that demanded total faith and commitment. Biographers have noted that a strong sense of the unity of God and nature pervaded Faraday's life and work. Which of the following statements closely relates to Michael Faraday? A. Michael Faraday dedicated his life in science and religion. B. Michael Faraday was downhearted his life in science. C. Michael Faraday concentrated his life in technology. D. Michael Faraday was one of successful scientists. E. Michael Faraday poured his science in technology.

Pembahasan	**Jawaban: A. Michael Faraday dedicated his life in science and religion** **Pembahasan:** Pernyataan yang sesuai teks adalah Faraday mendedikasikan hidupnya untuk ilmu dan agama
Materi	Reading
Nomor 2.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) There are numerous consequences due to illegal activities in the forestry sector. **Revenues** lost by governments caused by illegal logging results in decrease of their ability to invest in the forestry sector. This has an effect on poverty levels, primarily because of the revenue lost by governments. As a result, this reduces their financial capability as well as the programs that could be implemented to help the poor. (2) Moreover, poor people are not in a position to influence political bodies. This keeps them from accessing the forest resource. Finally the resource's low cost contributes to an increase in waste and provides very little incentive to buy timber harvested from forests managed in a sustainable manner. Inadequate forest law enforcement and governance in other countries can also threaten sustainable forest management. (3) As for the direct negative consequences of illegal logging on the wood products industry, their effect is to simultaneously increase harvesting and increase the availability of timber, thus lowering the price for producers. The price decrease suffered by producers can lead to unfair competition, thus reducing the profitability of legal companies. Illegal logging is a disincentive to sustainable forest management. The illegal timber trade threatens not only the visibility of legal trade, but also its reputation. (4) Despite the negative impacts, some stakeholders might benefit from illegal forest activities, such as consumers who could benefit from lower process and national industries that could increase their competitiveness by having access to lower timber prices. (5) Several initiatives have emerged to combat illegal logging and illegal activities in the forestry sector. Among them, it is important to mention the policy statements issued by wood producers' associations, government initiatives which range from procurement policies to the signature of memoranda of understanding between countries, and the procurement policies of major centers. (6) Other more practice solutions are being put forward to reduce illegal logging and trade. Some if those solutions relate more to timber trade, there is no doubt that forest certification is seen, for some, as a tool; among many others, that enables control over the illegal wood trade, especially when it comes to the chain of custody. Also, there are other methods presently used or put forward to help combat illegal logging and illegal trade. They include log tracking systems, legality license-based verification system such as labeling, private and public procurement policies, international cooperation and coordination in trade statistics, information exchange on illegal logging and illegal trade, and the study of possible trade related measures. Which of the following best summarizes the passage? A. Multi-national cooperation is required to fight illegal logging. B. Illegal logging impacts a government socially, economically, and politically. C. Governmental and non-governmental organizations should fight illegal logging. D. Various solutions on illegal logging should be implemented to result

Pembahasan	**Jawaban : B. Illegal logging impacts a government socially, economically, and politically.** **Pembahasan :** Rangkuman yang paling tepat dari teks bacaan tersebut adalah tentang efek secara sosial, ekonomi, dan politik dari penebangan liar. Hal tersebut bisa kita simpulkan dari paragraf 1 yang membahas dampak penebangan liar. Paragraf 2 memberikan contoh akibatnya dari segi ekonomi. Paragraf 3 membahas dampak negatif penebangan liar terhadap industri kayu. Paragraf 4 membahas pihak yang diuntungkan dari penebangan liar. Paragraf 5 dan 6 membahas solusi untuk pengurangan penebangan liar. Maka jawaban yang tepat adalah opsi B. - Opsi A salah, karena pernyataan tersebut tidak mencakup keseluruhan isi teks, pernyataan ini hanya memberikan solusi saja, sedangkan pada teks tersebut lebih menceritakan juga dampak dari penebangan liar. - Opsi C salah, karena organisasi non-pemerintah tidak dijelaskan pada teks tersebut. - Opsi D salah, karena tidak mencakup seluruh isi teks. - Opsi E salah, karena tidak hanya membahas solusinya saja melainkan dampak dari penebangan liar.

Soal	Although photography was first made public in 1839, the theory behind the principles of the medium begins with Aristotle's description of how light waves behave when projected through a small aperture. This is fundamentally the descriptions of how a lens or camera's a aperture operates when it projects an image onto the film at the back of a camera. In the middle ages, Alhazen and Francis Bacon extended the principle to include a large,darkened room with a small opening in one wall. In the 15th to 18th centuries these *camera obscure*, as it came to the be called, was reduced in size and made convenient for artist to use in tracing scenic design and architectural perspective. The chemical principle basic photography were also describe well before photography was "inverted". Johann Schulze, in 1727, demonstrated that silver salts turned black when exposed to light. Carl W. Scheele, in 1777, showed that ammonia retorted the effects of light, and he indicated a possible way of the photochemical process by the end of the 18th century, the necessary equipment (the *camera obscure*) were available at least to produce semipermanent photographic images. The artistic style and aestheticsof Renainssance and post- Renainssance Europe placed a high value on a naruralistic rendering of nature and thus legitimatized the use of machines like the *camera obscure* by artist. By the mid-18th century, a public demand had made itself for realistic portaist, which was partially satisfied by other machines for recording human likenesses, beggining in the 1970's Jacques Charles conducted experiments in the automatic; if permanent, recording of portait silhouettes on photosensitive paper. Two imperatoves-the need for perspectively accurate landscape and achitectural scenes and for objectively truthful portraits-created a climate for certain types and style of the pictures that, after 1839l would be achieved easily by photography. What is the main idea of paragraph 1 ? A. A lens projected images accurately-onto the camera film B. Aristotle discovered the wonder of light waves C. Alhazen and Francis Bacon were the dark room inventors D. Camera obscure used to be enormous before it was reduced in size E. The intial idea of photography came up long before it was publicized

Pembahasan	**Jawaban: E. The intial idea of photography came up long before it was publicized** **Pembahasan:** Soal ini menanyakan pikiran utama diparagraf ke-1. Jawabannya dapat ditemukan di paragraf ke-1 kalimat ke-1 yaitu ‘’ Although photography was first made public in 1839, ….’’(Meskipun fotografi pertama kali dipublikasikan pada tahun 1839,..) Opsi A (Salah) Lensa memproyeksikan gambar secara akurat ke film kamera Opsi B (Salah) Aristoteles menemukan keajaiban gelombang cahaya Opsi C (Salah) Alhazen dan Francis Bacon adalah penemu ruangan gelap Opsi D (Salah) Kamera tidak jelas dan sangat besar sebelum ukurannya diperkecil **Opsi E (Benar)** Ide awal fotografi muncul jauh sebelum dipublikasikan

Nomor 4.	

Soal	Manic depression is another psychiatric illness that mainly affects mood. A patient suffering from this disease will alternate between periods of manic excitement and extreme depression, with or without relatively normal periods in between. The changes in mood suffered by a manic–depressive patient go far beyond the day-to-day mood changes experienced by the general population. In the period of manic excitement, the mood elevation can become so intense that it can result in extended insomnia, extreme irritability, and heightened aggressiveness. In the period of depression, which may last for several weeks or months, a patient experiences feelings of general fatigue, uselessness, and hopelessness, and in serious cases, may contemplate suicide. The passage indicates that most people… A. Never undergo mood changes B. Experience occasional shifts in mood C. Switch wildly from highs to lows D. Become highly depressed E. Feel nothing

Pembahasan	**Jawaban: D** **Pembahasan:** Bacaan di atas menyiratkan bahwa hampir sebagian besar orang menjadi sangat depresi. Jawaban ada di paragrap pertama yaitu *A patient suffering from this disease will alternate between periods of manic excitement and extreme depression* Opsi A (Salah) Artinya tidak pernah mengalami perubahan suasana hati Opsi B (Salah) Artinya merasakan perubahan suasana hati sesekali Opsi C (Salah) Artinya beralih dengan liar dari tertinggi ke terendah **Opsi D (Benar)** Artinya menjadi sangat depresi Opsi E (Salah) Artinya merasa hampa

Soal	A forgotten issue in urbanism is land use during the night time, with problems such as noise and dirt, could be improved with information form Twitter. At least this is what Enrique and Vanessa Frias-Martinez believe, computer science researchers at Telefonica Research and the University of Marryland (USA) respectively, who have suggested using geolocalized tweets for urban planning and land use. Enrique Frias-Martinez explained that geolocalized tweets can be very use ful source of information for planing since it is an activity carried out by a large number of people who provide information on where they are at aspecific time what they are doing. The researcher points out that thanks to increased use of smartphones, social networks like Twitter and Facebook have made it possible to access and produce information ubiquitously. These networks generate tags with the event's geolocation. The new technique "automatically determines land use in urban areas by grouping together geographical regions with similiar patterns of Twitter activity", says the researcher. Using aggregate activity of tweets, the Frisa-Martinez siblings have studied land use in Manhattan, Madrid, and London. In the first two cases they identified four uses; residential, bussines, day time leisure (mainly parks and touris areas) and nightlife areas. The study has determainded that, in Madrid, night-time tweet activity is concentrated on weekends and in Manhattan, on weekdays. On the other land, London is chracterized by its tweeting activity in daytime leisure areas. The author's purpose in writing the passage is to.. A. compare Facebook and Twitter users in terms of geolocation tags. B. argue that social networks do not necessarily reflect users' activities C. persuade people to stop using geolocation tags to protect their privacy D. inform the possible use of twitter data for studying and planning land use E. illustrate the urgency of solving various problems concerning urban planning

Pembahasan	**Jawaban: D. inform the possible use of twitter data for studying and planning land use** **Soal : Tujuan penulis dalam menulis paragraf adalah untuk...** **Pembahasan:** tujuan teks tersebut adalah untuk menginformasikan kegunaan data Twitter untuk penelitian dan perencanaan lahan. Opsi A (salah) Artinya membandingkan pengguna Facebook dan Twitter dalam hal tag geolokasi. Opsi B (salah) Artinya berpendapat bahwa jejaring sosial tidak selalu mencerminkan aktivitas pengguna Opsi C (salah) Artinya membujuk orang untuk berhenti menggunakan tag geolokasi untuk melindungi privasi mereka **Opsi D (benar)** Artinya menginformasikan kemungkinan penggunaan data Twitter untuk mempelajari dan merencanakan penggunaan lahan Opsi E (salah) Artinya menggambarkan urgensi penyelesaian berbagai masalah tata kota

Soal	I personally think that reading is a very important activity in our life. Why do I say so? Firstly, by reading we can get a lot of knowledge about many things in the world such as science, technology, sport, arts, culture, etc that written in books, magazines, newspaper, etc. Secondly, by reading we can get a lot of news and information about something happening in any parts of the world. Another reason, reading gives us happiness. Books are literally happiness boosters. Reading can help us to melt down our stress levels faster than other methods. Reading is the best way to relax our brains. The last, reading can also take us to other parts of the world. By reading a book about Africa, we may feel we're really sitting in the jungles not at home in our rooms. From the facts above, it's abvious that everyone needs to read to get knowledge, information, and also entertainment. In summary, we can say reading is truly important in our life. Why is reading very important in our life? A. By reading, we can get a lot of friends, relatives, experience, etc. B. By reading, we can get little knowledge but a lot of entertainment C. By reading, we are always relaxed D. By reading, we are always happy E. By reading, we can get a lot of knowledge, news, information, and entertainment.

Pembahasan	**Jawaban: E** **Pembahasan:** Pertanyaan di soal ini menanyakan mengapa membaca penting dalam kehidupan kita. Jawabannya dapat kita temukan di kalimat terakhir yaitu ‘’ that everyone needs to read to get knowledge, information, and also entertainment’’. Jadi jawaban yang paling tepat adalah opsi E Opsi A (Salah) Artinya dengan membaca kita bisa mendapatkan banyak teman, saudara, pengalaman, dll. Opsi B (Salah) Artinya dengan membaca kita bisa mendapatkan sedikit ilmu tapi banyak hiburan Opsi C (Salah) Artinya dengan membaca, kita selalu rileks Opsi D (Salah) Artinya dengan membaca, kita selalu bahagia **Opsi E (Benar)** Artinya dengan membaca kita bisa mendapatkan banyak ilmu, berita, informasi, dan hiburan

Soal	Losari beach is a beautiful beach and located on the edge city of Makassar. It is located only about 3 km from the center of Makassar (Karebosi Park). The beach used to be the longest café in Asia, because many cafes stand in along the beach, but now the cafes are collected in a special place so it does not spread along the coast. Charm of the beach is mainly seen in the evening when the sunset stands out. This is a major attraction of people's coming to the Losari beach. Every evening hundreds of people come to witness the panorama of red as the sun will disappear into the ocean, so do not miss the sunset at the Losari beach. If the sky is sunny, the scenery is absolutely perfect. Because of its location in a bay, the water of Losari is even often quiet as usual pool water. Losari is its waterfront of Makassar. The lengthy of the beach is approximately one kilometer and it is a public space that can be accessed by anyone. On this beach there is a park called the Pelataran Bahari (Marine Park), with semicircular area of nearly one hectare. This place is a plaza with a clean floor for children to play and running around, while parents and teens sit on concrete benches to enjoy the sea breeze. From this place, you are also free to view out to the sea and watch the sunset slowly turns reddish in the line of the horizon. The reflected light also creates sheen on the surface of sea water. The Pelataran Bahari also serves as the stadium of open water to watch the coastal waters in front of Losari beach. This coastal water is often used as a racecourse jet ski, boat races and traditional boat jolloro katinting, or become a transit point of rely of Sandeq traditional sailboats and yachts. In Losari there are also a few hotels. Some of them qualified as a tree stars hotel. The hotel is offering panoramic beauty of the sea with luxury service treats. There are Losari Beach Hotel, Losari Beach Inn, Makassar Golden Hotel, and Pantai Gapura Hotel. All of the hotels located in Jalan Penghibur. Where is Losari beach located? A. Somewhere at Makassar City. B. Locate at Jalan Penghibur. C. Near Makassar City. D. Located only about 3 km from the center of Makassar (Karebosi) E. In Pelatari Bahari

Pembahasan	**Jawaban: D. Located only about 3 km from the center of Makassar (Karebosi)** **Pembahasan:** Di soal ini ditanayakan letak pantai Losari. Jawabannya dapat diketahui di paragraf 1 kalimat ke-2. . It is located only about 3 km from the center of Makassar (Karebosi Park) Opsi A (Salah) Suatu tempat di kota Makasar Opsi B (Salah) Berlokasi di Jalan Penghibur Opsi C (Salah) Dekat kota Makasar **Opsi D (Benar)** Berlokasi di 3 km dari pusat kota Makasar yaitu Karebosi) Opsi E (Salah) Di Pelatari Bahari

Soal	Bacalah tulisan berikut, kemudian jawablah soal-soal yang tersedia dengan memilih jawaban yang tepat di antara pilihan jawaban A, B, C, D atau E Teks The Sumatran elephant is one of the largest and strongest animals. This species is 1,7 to 2,6 meters in height. It is smaller than the African elephant. This Sumatran elephant is rare because of forest loss in Sumatra. Its existence is theatened by irrespnsible hunting, deforestation, and natural disasters. The Sumatran elephants live near rivers or the lowlands in Sumatra. They consume more than 200 kilograms of food every day. The presence of elephants means that are sufficient resources to support their life. It means that balanced natural conditions are there. They can keep this ecosystem by walking in a group, as their wasted feces, every hour, can fertilize the ground naturally. Nowdays, there are many organizations interested in protecting Sumatran elephants. Because human conflict is another threat to this species, the World Wildlife Foundation and other conservation organizations are established to protect them from such conflicts. In this way, Sumatran elephants will live in a peace. The main idea of the second paragraph is ... A. Sumatran elephants will live in a peace B. The human conflict that threaten the animals C. The world Wildlife Foundation’s establishment D. The threats to the life of Sumatran elephants E. The efforts to protect the Sumatran elephants

Pembahasan	**Jawaban: E. The efforts to protect the Sumatran elephants** **Pembahasan:** Pada soal ini ditanyakan pokok pikiran utama di paragrap ke dua. Dan pada umumnya jawabannya akan berada di kalimat pertama di paragrap tersebut. Walaupun begitu tetap harus dibaca secara keseluruhan secara scanning atau skimming. Di paragrap kedua diceritakan beberap organisasi yang berupaya untuk melindungi gajah Sumatera. Opsi A (Salah) Arti dari opsi A adalah gajah Sumatera akan hidup damai Opsi B (Salah) Arti dari opsi B adalah Konflik manusia yang mengancam binatang. Opsi C (Salah) Arti dari opsi ini adalah pembentukan Yayasan Binatang Liar Dunia. Sudah jelas ini salah karena pada teks tersebut bukan menceritakan pendirian Yayasan Binatang Liar Dunia. Opsi D (Salah) Arti dari opsi ini adalah ancaman terhadap gajah Sumatera Pada paragrap kedua ini memang disebutkan adanya ancaman terhadap gajah tapi inti dari paragrap kedua ini adalah usaha untuk melindungi gajah Sumatera **Opsi E (Benar)** Arti dari opsi E adalah upaya untuk melindungi gajah Sumatera

Soal	Non verbal communication is defined as communication between people by means other than speech. Non verbal communication (NVC) derived from one following major sources : eye contact (amount looking at another person's body and face), mouth(especially smiling or grimacing in relation to eye contact), posture (for example, sitting forwards of backward), gesture (as with the use of arm movements when talking), orientation of the body to the to the address, body distance (as when we stand to close or too far away from others, smell (including perfumes), skin(including pigmentation, blushing and texture) hair (including length, texture and style), clothes (with particular references to fashion). Non-verbal communication is no quite the same as body language because any claim about a language must refer to an agreed and identifiable grammar and syntax. NVC is not always so precise or advanced: the vocabulary of non verbal sign is more limited than speech. Even so, it is a mistake to consider NVC as isolated from speech . instead some complex interaction envisaged between word and body signal and one is not always complementary. Imagine yourself interviewing job applicants. You might not offer employment to a candidate who refuses to look at you, always frowns, hunches both shoulders, sweats a lot and has a Mohican haircut- despite the fact that he or she gives thoughtful and interesting replies to your questions. Take eye contact as an example for discussion. Mutual eye contact (where both people look into each other's eyes) can be a sign of linking but prolonged gaze leads to discomfort. The directed eye contact victims a code of looking, where eye contact is frequently broken but returned to and leads to depersonalization of the victim because an aggressor deliberately breaks the rules which the victim address to. Eye contact is often enhanced by size of pupils, eyebrow inflection and movement, and smiling. The author organizes the idea in the text by… A. Classifying types of non verbal communication B. Differentiating non verbal communication from body language C. Defining non verbal communication and giving examples D. Exposing problems in defining non verbal communication E. Ordering sources of non verbal communication chronologically

Pembahasan	**Jawaban: C. Defining non verbal communication and giving examples** **Soal** : Penulis mengorganisasikan gagasan dalam teks dengan? **Pembahasan**: Penulis Menyusun idenya dengan memberikan definisi komunikasi ***non-verbal*** dan memberikan contoh-contohnya. Opsi A (salah) Artinya yaitu Mengklasifikasikan jenis komunikasi nonverbal Opsi B (salah) Artinya yaitu Membedakan komunikasi nonverbal dengan bahasa tubuh Opsi C (benar) Artinya yaitu memberikan definisi komunikasi non-verbal dan memberikan contoh-contohnya Opsi D (salah) Artinya yaitu Mengekspos masalah dalam mendefinisikan komunikasi non verbal Opsi E (Salah) Artinya yaitu Mengurutkan sumber komunikasi non verbal secara kronologis

Soal	Opera refers to a dramatic art form, originating in Europe, in which the emotional content is conveyed to the audience as much through music, both vocal and instrumental, as it is through the lyrics. In contrast, in musical theater, an actor's dramatic performance is primary elements of theater such as scenery, customes, and acting. However, the words of the opera, or liberrato, are sung rather than spoken. The singers are accompanied by a musical ensemble ranging from a small instrumental ensemble to a full symphonic orchestra. Based on the text, what makes the opera different? A. The spoken words in opera are sung B. The actors dance during the show C. The stage light is exceptional D. The performance has modern theme E. The story is modern

Pembahasan	**Jawaban: A** **Pembahasan:** Pertanyaan di soal ini adalah apa yang membuat opera ini berbeda berdasarkan teks tersebut. Dari teks ini memberitahu kita bahwa ‘’ However, the words of the opera, or liberrato, are sung rather than spoken’’ (kata-kata opera, atau libretto, dinyanyikan daripada diucapkan) **Opsi A (Benar)** Artinya kata-kata yang diucapkan dalam opera dinyanyikan Opsi B (salah) Artinya para aktor menari saat pertunjukan berlangsung Opsi C (salah) Artinya lampu panggungnya luar biasa Opsi D (Salah) Artinya pertunjukannya bertema modern Opsi E (salah) Artinya ceritanya modern

Soal	Everyone likes to group things. Language students group words as verbs, nouns and so on ; collections of words are clasiffied as phrases, or clauses, or sentence and these again are reclassified according to their function. In the same way, botansist classify plants as algae, or fungi, or gymnosperms, etc. Zoologist classify animals as vertebrates and invertebrates. The vertebrates can be further classified as mammals, reptiles, birds, fish, etc. Classification enables us to keep hold of more information and, if it is based on the right data, enables us to understand better the ideas we are studying. Chemists are no exception. The chemical classification of materials, if it is based on a good system, should enable us to understand better the many substances which exist in our world. What is to be the basis of our classification? Perhaps the most obvious one is appearance. Material could be classified as solid liquid or gas with some mixed type as, for example, mud being solid/liquid material and steam a liquid/gas material. Appearance could enable us to subdivide our main classification groups a little further; the solid may be green, or black, powdery or crystalline; the liquid may be colored oily, thick, or free following; the gas may be colored. However, we soon realize that many probably quite different material have the same appearance. Both air and the deadly carbon-monoxide gas, are colorless, odorless gases, but we would not like to group them as same thin. Many different liquids are colorless, water-like materials. The paragraph following the passage most likely deals with the classification of.... A. flora dan fauna B. human sounds C. liquids and gases D. human behaviors E. words and phrases

Pembahasan	**Jawaban: C. liquids and gases** **Soal : Paragraf berikut kemungkinan besar berkaitan dengan klasifikasi ....** **Pembahasan:** Penulis mengungkapkan atau menyusun gagasannya atau idenya dengan cara pemberian contoh contoh dari kedua paragraf Opsi A (salah) Artinya tumbuhan dan hewan Opsi B (salah) Artitnya suara manusia **Opsi C (benar)** Artinya cairan dan gas Opsi D (salah) Artinya kebiasaan manusia Opsi E (salah) Artinya kata dan frase

Soal	Dear Dr.Hambali Sahali, We would like to invite you and your staff to visit our school SMP Duta Bangsa, where we are engaged in an exciting service learning project. Service-learning is a teaching method that engages our students in solving problems within their school and communities as an integral part of their academic studies. It is hoped that students master important curriculum content by making meaningful connection between what they study and its real-life applications. Besides, students become more effective citizens through acts of kindness, community stewardship and civic action. This effort is made possible with support from Learn and Serve America, a program of the corporation for National and Community Service. May we suggest that you visit us on January 11, 2010 at 10 o'clock? This will give you an opportunity to see our program in action. We have also invited our community partners, members of the local media, and several families of students whom we serve. They are eager to talk to you about the importance of investing in service-learning activities in our local community. We have enclosed a one page profile of our program for your reference. I will contact your office within the next two weeks to follow-up on this invitation. Again, we do hope you can join us on this occasion. Thank you very much for your consideration. Sincerely, Andy Sehatapi What does the second paragraph of the text tell us about? A. The persons who have been invited. B. The purpose of service-learning project. C. The importance of local media in project. D. The opportunity to see a program in action. E. A program of the corporation for National and Commnity Service

Pembahasan	**Jawaban: B. The purpose of service-learning projcet** **Soal : Apa yang dikatakan paragraf kedua dari teks itu kepada kita?** **Pembahasan:** Soal diatas menanyakan topic suatu paragraph. Dari kata-kata pada paragraph tersebut dapat diketahui bahwa paragraph tersebut tentang tujuan diadakannya kegiatan service learning project, bukan yang lainnya. Opsi A (Salah) Artinya yaitu orang-orang yang telah diundang, sedangkan pada paragrap 2 tidak menjelaskan siapa saja orang yang di undang **Opsi B (Benar)** Artinya yaitu tujuan dari proyek service-learning, karena sudah jelas pada kalimat pertama paragrap dua menceritakan tentang service learning projcet Opsi C (Salah) Artinya yaitu pentingnya media lokal dalam proyek sedangkan paragrap 2 tidak menjelaskan itu Opsi D (Salah) Artinya yaitu kesempatan untuk melihat program beraksi dan ini jelas tidak adakaitan dalam paragrap 2 Opsi E (Salah) Artinya Program korporasi untuk layanan nasional dan masyarakat jawaban ini hanya bagian dari inti paragrap 2.

Soal	In this little tiny called a cigarette, lies more than 4000 dangerous substances that will lead those who smoke it to death. Imagine, 4,000 deadly substances! Are those 4,000 evil substances not enough to make us stop smoking? I wonder why people are still smoking cigarettes. Among those substances, there is nicotine, the substance that causes addicted to smoke over and over again; tar, the substance that causes lung cancer; carbon monoxide, that substance that blocks oxygen circulation within the blood; and carcinogen, the main actor of all cancer caused by smoking. People who smoke cigarettes, smokers, actually know the information. But again, I still wonder why they do smoke. Those terrible things about smoking are not the worst thing. The super worst thing about smoking is the passive smokers. Yeah, the bad effects of the smoking habit are not only for those who smoke (active smoker) but also for those innocent people wo inadvertently inhale the smoke cigarettes. Passive smokers receive that bad effect of smoking even three times bigger than active smokers themselves. Just remember our beloved one who don't smoke, our friends, our family, or our children. Are they really deserve all bad things of that we have done? Indeed, the habit of smoking is not as easy to stop it . It needs great effort and courage. But we can start to stop smoking right now with a healthy life-style. Remember all the bad things that we will get if we still consume cigarettes. Remember those innocent the passive smokers who will get the same misfortune if they inhale the poisonous smoke we produce. Remember our children, family, and friends who will be damaged if they are near us still smoke. Just remember all those things and please stop it. The topic of the text above is… A. the danger of smoking B. the benefit of smoking C. the effect of selling cigarette D. the danger of selling the cigarette E. the danger of lung cancer

Pembahasan	**Jawaban: A** **Pembahasan:** Pertanyaan dari soal ini adalah apa topic dari bacaan ini. Jawabannya ada diparagraf ke satu kalimat pertama yaitu ‘’In this little tiny called a cigarette, lies more than 4000 dangerous substances that will lead those who smoke it to death’’ artinya di i dalam rokok kecil yang disebut ini, terdapat lebih dari 4000 zat berbahaya yang akan menyebabkan kematian bagi yang merokok'. Jadi jawabannya adalah bahaya dari merokok. **Opsi A (Benar)** Artinya bahaya dari merokok Opsi B (Salah) Artinya manfaat dari merokok Opsi C (Salah) Artinya efek dari menjual rokok Opsi D (Salah) Artinya bahaya dari menjual rokok Opsi E (salah) Artinya bahaya dari kanker paru-paru

Nomor 16.	

Soal	Did you ride your bike to school when you were kid? A generation ago most kids rode, walked or caught the bus to the school; very few of us were dropped off by our parents at the school gates. These days most of us have exprienced the daily traffic jams around schools at drop-off and pick up times, as parents drive their children to the to school gate. While there is no national data on the number of children who walk or ride to school, a recent Victorian survey found nearly half of all children are driven to school every day. Parents choose to drop their kids at school for a number of reason – mostly to do with safety and convenience. But experts say chauffeuring your kids to school every day could mean they are missing out on much-needed exercise and other life skills. Research suggests at leats a third of Australian children aged 9-16 years are not getting te amount of daily physical activity recommended in national guidelines. But this is not because children's participation in leisure on sporting activities has dropped off, says Dr. Jan Garrard. Participation in these activities has not altered much over the years, Garrard says but what has changed is the level of incident activity children do. "when you look at countries where children are just active as part of everyday life, they do not have to be sporty. All they have to do is to get around the way the community gets around by walking and cycling, and they get enough physical activity"she says. The part following the passage above most likely contains information on … A. advice to parent for their children to have enough physical activities B. the decreasing trend of children to do physical activities C. parental motives behind cahuffeuring their children to school D. reasons for children not to do fun and incidental activities E. effects of having children not to be given a lift to school

Pembahasan	**Jawaban: A** **Pembahasan:** Soal ini menanyakan bacaan di atasmengandung informasi tentang apa. Dan setelah kita simpulkan teks ini mengandung informasi untuk memberikan saran kepada orang tua agar memberikan kegiatan yang melibatkan kemampuan fisik pada anak-anak mereka **Opsi A (Benar)** saran kepada orang tua agar memberikan kegiatan yang melibatkan kemampuan fisik pada anak-anak mereka Opsi B (Salah) kecenderungan menurunnya anak-anak untuk melakukan aktivitas fisik Opsi C (Salah) motif orang tua di balik mengantar anak-anak mereka ke sekolah Opsi D (Salah) alasan anak tidak melakukan kegiatan yang menyenangkan dan insidental Opsi E (Salah) efek punya anak tidak diberi tumpangan ke sekolah

Soal	*Announcement* *English Conversation Club (SCC)* *is opening registration for new members* *join us and improve your English!* *Every Thursday from 4.00 p.m to 5.00 p.m at the school hall* *For registration, please contact* *Wayan (VIIA)* *Anissa (VIIB)* When do the members have meeting ? A. In the morning. B. On Thursday afternoon. C. On Thursday morning. D. In the afternoon at three o'clock. E. Every Thursday afternoon

Pembahasan	**Jawaban: E** **Pembahasan:** Dituliskan dipengumuman tersebut bahwa anggota SCC akan bertemu setiap Kamis sore jam 16.00 – 17.00 (*Every Thursday from 16.00 to 17.00 at the school hall*) Opsi A (Salah) Artinya di pagi hari. Jawaban ini salah karena diteks disebutkan pukul 4 sore sampai 5 sore (4.00 p.m – 5 p.m). Kalau pagi seharusnya menggunakan kode a.m bukan p.m Opsi B (Salah) Artinya pada hari Kamis siang. Harinya memang betul tapi hanya pada hari Kamis saja bukan setiap hari Kamis seperti yang disebutkan di bacaan Opsi C (Salah) Artinya Kamis pagi. Jawaban ini juga salah karena seharusnya sore Opsi D (Salah) Artinya sore jam 3. Ini tidak disebutkan harinya karena sudah jelas dibacaan disebutkan setiap hari Kamis **Opsi E (Benar)** Artinya setiap Kamis sore.Jawaban ini betul sesuai dengan pernyataan di bacaan tersebut

Nomor 18.	

Soal	There are major gaps in how food waste in tourism is understood and calculated, according to researchers at the University of Eastern Finland and the University of Southern California. Food waste originating from hotels, restaurants and events is recognized and can be estimated and calculated, but as the tourism industry is becoming more and more diverse, so are the sources of its food waste. According to the researchers, a focus on preventing food waste only in the traditional food service and accommodation establishments ignores the reality of growing tourist households and will stifle sustainability efforts. Food waste is a major issue globally, and it has also been identified as the most prominent type of hospitality waste. Annually, roughly 1.3 billion tons of food is lost or goes to waste, which is equivalent to one third or even up to one half of all food intended for human consumption. Food waste is a major environmental, social and economic issue. Indeed, the tourism industry is facing ever-growing economical, societal and legislative reasons to address food waste. Today's tourism is not limited to package travel and hotel stays, thanks to the emergence of alternatives such as camping, couch surfing, AirBnB, staying at friends' and relatives' homes or travelling across the country in a recreational vehicle, for example. Food waste is created in all these tourist households, but very little research into the topic has been carried out so far. Yet, there is a need to mitigate food waste from these sources as well. "We can already see that there are savvy players in the tourism industry who have succeeded in reducing their food waste and have even managed to turn that into an asset. Yet, it is not enough for only the traditional food service and accommodation establishments to reduce their food waste, we need to get all tourist households on board. As the tourism sector changes, research into food waste and sustainability becomes ever more important," Research Manager Juho Pesonen from the University of Eastern Finland says. According to the researchers, comprehensive reduction of food waste requires that its sources and amounts are identified and that its disposal by tourist households is addressed. In addition, there is a need to study the drivers of tourist household food waste and barriers to its reduction. source: https://www.sciencedaily.com/releases/2019/11/191101100142.htm Which of the following is NOT TRUE about food waste issue? A. Almost 1.3 billons tons of food go to waste every year B. Nearly half of human-consumed food is wasted annually C. It is the most prevalent type of tourism industry waste D. It is a problem that is receiving worldwide attention E. It is only a concern for worldwide hospitality industry

Pembahasan	**Jawaban: E. It is only a concern for worldwide hospitality industry** **Pembahasan** Arti soal: “Manakah dari berikut ini yang SALAH tentang permasalahan limbah makanan?” Untuk menjawab soal ini, kita perlu untuk membaca cepat teks untuk menemukan bagian yang membahas tentang isu limbah makanan. Adapun hal tersebut secara khusus dibahas dalam paragraf 2 berikut: *“Food waste is a major issue globally, and it has also been identified as the most prominent type of hospitality waste. Annually, roughly 1.3 billion tons of food is lost or goes to waste, which is equivalent to one third or even up to one half of all food intended for human consumption. Food waste is a major environmental, social and economic issue.”* Artinya: “Sampah makanan adalah masalah utama secara global, dan juga telah diidentifikasi sebagai jenis sampah perhotelan yang paling banyak. Setiap tahun, sekitar 1,3 miliar ton makanan hilang atau terbuang sia-sia, yang setara dengan sepertiga atau bahkan hingga setengah dari semua makanan yang ditujukan untuk konsumsi manusia. Limbah makanan adalah masalah utama lingkungan, sosial dan ekonomi.” Selanjutnya, kita perlu menemukan mana diantara opsi A sampai E yang memuat pernyataan yang SALAH tentang isu limbah makanan. **Opsi A (salah)** Artinya: “Hampir 1,3 miliar ton makanan terbuang setiap tahun”. Opsi A salah karena merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi B (salah)** Artinya: “Hampir setengah dari makanan yang dikonsumsi manusia terbuang setiap tahunnya”. Opsi B salah karena merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “Hal ini adalah jenis limbah industri pariwisata yang paling umum”. Opsi C salah karena merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “Hal ini adalah permasalahan yang mendapat perhatian dunia”. Opsi D salah karena merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi E (BENAR)** Artinya: “Hal ini hanya menjadi perhatian bagi industri perhotelan di seluruh

Nomor 19.	

Soal	A glacier is a huge mass of ice that moves slowly over land. The term “glacier” comes from the French word glace (glah-SAY), which means ice. Glaciers are often called “rivers of ice.” Glaciers fall into two groups: alpine glaciers and ice sheets. Alpine glaciers form on mountainsides and move downward through valleys. Sometimes, alpine glaciers create or deepen valleys by pushing dirt, soil, and other materials out of their way. Alpine glaciers are found in high mountains of every continent except Australia (although there are many in New Zealand). The Gorner Glacier in Switzerland and the Furtwangler Glacier in Tanzania are both typical alpine glaciers. Alpine glaciers are also called valley glaciers or mountain glaciers. Ice sheets, unlike alpine glaciers, are not limited to mountainous areas. They form broad domes and spread out from their centers in all directions. As ice sheets spread, they cover everything around them with a thick blanket of ice, including valleys, plains, and even entire mountains. The largest ice sheets, called continental glaciers, spread over vast areas. Today, continental glaciers cover most of Antarctica and the island of Greenland. Massive ice sheets covered much of North America and Europe during the Pleistocene time period. This was the last glacial period, also known as the Ice Age. Ice sheets reached their greatest size about 18,000 years ago. As the ancient glaciers spread, they carved and changed the Earth’s surface, creating many of the landscapes that exist today. During the Pleistocene Ice Age, nearly one-third of the Earth’s land was covered by glaciers. Today, about one-tenth of the Earth’s land is covered by glacial ice. Glaciers begin forming in places where more snow piles up each year than melts. Soon after falling, the snow begins to compress, or become denser and tightly packed. It slowly changes from light, fluffy crystals to hard, round ice pellets. New snow falls and buries this granular snow. The hard snow becomes even more compressed. It becomes a dense, grainy ice called firn. The process of snow compacting into glacial firn is called firnification. source: *https://education.nationalgeographic.org/resource/glacier-moving-rivers-ice* According to the passage, what distinguishes ice sheets from alpine glaciers? A. Ice sheets can also form on land B. Ice sheets moves slowly over land C. Ice sheets can be found in mountains D. Ice sheets cover its surroundings with thick ice E. It appears only during the coldest winter months

Pembahasan	Arti soal: “Berdasarkan teks, apa yang membedakan lapisan es dari gletser alpine? Untuk menjawab ini kita perlu membaca cepat teks untuk mencari bagian yang membahas tentang perbedaan lapisan es dan gletser alpine. Adapun hal tersebut dibahas dalam paragraf 3, kalimat 1 berikut: “Ice sheets, unlike alpine glaciers, are not limited to mountainous areas.” Artinya: “Lapisan es, tidak seperti gletser alpine, tidak hanya terbatas di area pegunungan.” Maka, dapat disimpulkan bahwa lapisan es juga bisa terbentuk di daratan. **Opsi A (BENAR)** Artinya: “Lapisan es juga dapat terbentuk di daratan.” Opsi A benar karena sesuai dengan informasi dalam teks. **Opsi B (salah)** Artinya: “Lapisan es bergerak perlahan diatas daratan.” Opsi B salah karena bukan hal yang membedakan lapisan es dan gletser alpine yang sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “Lapisan es dapat ditemukan di pegunungan.” Opsi C salah karena bukan hal yang membedakan lapisan es dan gletser alpine yang sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “Lapisan es menutupi sekelilingya dengan es tebal.” Opsi D salah karena bukan hal yang membedakan lapisan es dan gletser alpine yang sesuai dengan informasi dalam teks. **Opsi E (salah)** Artinya: “Lapisan es hanya muncul selama bulan-bulan terdingin di musim dingin.” Opsi E salah karena bukan hal yang membedakan lapisan es dan gletser alpine yang sesuai dengan informasi dalam teks.

Soal	Language is the ability to learn and use a system of symbolic representations for communication. This includes a capacity to relate signs to abstract information. For example, letters grouped together make a word which human can read, and sounded words put together in the correct order allow human to have a conversation. Human language can incorporate spoken, written, visually signed, or tactile forms like braille. Around the world humans have developed many different spoken and written languages. However, mathematics in particular is often regarded as a “universal language” since the mathematical concepts that describe values and equations do not depend on cultural or other frameworks. Scientists are interested in the question of whether numerical symbols are truly universal – that is, whether they also work for species that are not human. The honeybee is a super organism for the study of comparative information processing in a brain. In 1973 Karl von Frisch was awarded a Nobel Prize in the field of Physiology and Medicine for his demonstrations that the honeybee can communicate with hive mates via a symbolic dance language. von Frisch showed that a foraging bee which locates rewarding flowers can fly back to a hive and signal both the direction and distance of the nutritious flowers via a “waggle dance”. Other bees can interpret the dance language to know where to fly to collect nectar. It’s questioned whether such an impressive communication system meant that honeybees could learn another type of symbolic language, a basic symbolic number system. Interestingly, chimpanzees, Rhesus monkeys, pigeons, and a single African grey parrot named Alex have demonstrated the skill to learn either Arabic numerals or English names for numbers. This shows that while no non-human species appear to have developed a symbolic representation of number, it is not because they lack the brain capacity to understand such representations. The research has already shown honeybees can learn and apply challenging numerical concepts such as greater vs. lesser items, a quantitative valuation of “zero”, and simple arithmetic. source: https://theconversation.com/we-taught-bees-a-simple-number-language-and-they-got-it-117816 Why mathematics is often regarded as a “universal language”? A. Because it describes universal cultural influences in number B. Because it is influenced by concepts of values and equations C. Because it depends on its restricted mathematical concepts D. Because it explains its concepts only in its own framework E. Because its frameworks depend on the description of its culture

Pembahasan	**Jawaban: D. Because it explains its concepts only in its own framework** **Pembahasan:** Arti soal: “Mengapa matematika sering dianggap sebagai sebuah “Bahasa universal”? Untuk menjawab soal ini kita perlu membaca cepat teks untuk mencari bagian yang membahas tentang matematika sebagai Bahasa universal. Setelah membaca, dapat ditemukan bahwa pembahasan ini terdapat dalam paragraph 2 berikut: *“However, mathematics in particular is often regarded as a “universal language” since the mathematical concepts that describe values and equations do not depend on cultural or other frameworks. Scientists are interested in the question of whether numerical symbols are truly universal – that is, whether they also work for species that are not human.”* Artinya: “Namun, matematika khususnya sering dianggap sebagai "bahasa universal" karena konsep matematika yang menggambarkan nilai dan persamaan tidak bergantung pada kerangka budaya atau lainnya. Para ilmuwan tertarik pada pertanyaan apakah simbol numerik benar-benar universal – yaitu, apakah mereka juga berfungsi untuk spesies yang bukan manusia.” Dari paragraph tersebut dapat diketahui bahwa alasan matematika dianggap sebagai Bahasa universal adalah karena konsep matematika tidak bergantung pada kerangka budaya atau yang lainnya dan juga karena menggunakan simbol numerik yang universal. Maka, dapat disimpulkan bahwa alasan matematika dianggap sebagai Bahasa universal adalah karena hanya menggunakan kerangkanya sendiri, tanpa pengaruh budaya, untuk menjelaskan konsepnya. **Opsi A (salah)** Artinya: “Karena matematika menggambarkan pengaruh budaya universal dalam angka”. Opsi A salah karena bukan merupakan alasan yang tepat mengapa matematika dianggap Bahasa universal. **Opsi B (salah)** Artinya: “Karena matematika dipengaruhi oleh konsep nilai dan persamaan”. Opsi B salah karena bukan merupakan alasan yang tepat mengapa matematika dianggap Bahasa universal. **Opsi C (salah)** Artinya: “Karena matematika bergantung pada konsep matematika yang terbatas”. Opsi C salah karena bukan merupakan alasan yang tepat mengapa matematika dianggap Bahasa universal. **Opsi D (BENAR)** Artinya: “Karena matematika menjelaskan konsepnya hanya dalam kerangkanya

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text Ability that we have to focus so intensely that the rest of the world temporarily disappears. Instead of having difficulty concentrating or getting started, the hyper focused Adder has trouble shifting focus away from the interesting subject at hand. Hyper focus can be a really good thing. If you're highly interested in what you're concentrating on, then the ability to hyper focus is an asset. It can help you get through a difficult task, like a report for work or a household problem that needs to be fixed. This positive hyper focus is what I call being in the flow. You enjoy what you're doing--whether it is work, problem-solving, or being creative. You're productive and you enjoy not only what you're doing, but also the fact that you're making progress. Your thoughts and actions are flowing. However, hyper focus can also be a bad thing. Adults with ADD often go into hyper focus mode when a stressful problem or situation presents itself, and the inability to tear yourself away results in more stress. This can happen when writing a paper for school, trying to solve a problem at work, attempting to fix a broken gadget, or even surfing the internet. Negative hyper focus is what I call being in the stick. It is really about an inability to shift focus, and the frustration that results. You want to finish a task or make progress but your frustration in the situation has made you unable to move on. You become determined to do what you set out to do at any cost. (Article source: http://www.articlebiz.com/) Which of the following is NOT in line with the sentences "You want to finish a task or make progress but your frustration in the situation has made you unable to move on. You become determined to do what you set out to do at any cost." (Paragraph 3)? A. Your thoughts and actions are stuck. B. You don't feel good about making progress. C. You feel compelled to finish what you set out to do at all costs. D. You may lose sleep, skip meals, and compromise your mental health to finish a task. E. You tend to have a good time management and prioritizing.

Pembahasan	**Jawaban : E. You tend to have a good time management and prioritizing.** **Pembahasan:** Pahami makna kalimat yang ditanyakan dan simpulkan. Makna dari pernyataan pada soal tersebut adalah “kamu ingin menyelesaikan sebuah tugas tetapi rasa frustasi akan keadaan telah membuatmu tidak bisa bergerak maju. Kamu menjadi bertekad untuk melakukan apa yang kamu tetapkan untuk dilakukan tak peduli apapun”. Maka disini kita harus mencari opsi jawaban yang tidak sesuai dengan pernyataan soal diatas. Jawaban yang tidak sesuai dengan pernyataan diatas adalah **opsi E. You tend to have a good time management and prioritizing (kamu cenderung memiliki manajemen waktu yang baik dan prioritas)** karena pernyataan ini bertolak belakang dengan keadaan frustasi yang sedang dihadapi. - Opsi A salah, karena ini merupakan makna yang benar ketika kamu ingin menyelesaikan tugas tetapi rasa frustasi akan keadaan telah membuat kamu susah untuk mengerjakan tugas tersebut, maka pikiran dan tindakanmu terjebak. - Opsi B salah, karena ini merupakan makna yang benar ketika kamu ingin menyelesaikan tugas tetapi rasa frustasi akan keadaan telah membuat kamu susah untuk mengerjakan tugas tersebut, maka kamu tidak bisa/ tidak nyaman membuat kemajuan. - Opsi C salah, karena ini merupakan makna yang benar ketika kamu ingin menyelesaikan tugas tetapi rasa frustasi akan keadaan telah membuat kamu susah untuk mengerjakan tugas tersebut, kamu merasa terdorong untuk menyelesaikan apa yang kamu tetapkan untuk dilakukan tak peduli apapun. - Opsi D salah, karena ini merupakan makna yang benar ketika kamu ingin menyelesaikan tugas tetapi rasa frustasi akan keadaan telah membuat kamu susah untuk mengerjakan tugas tersebut, kamu mungkin melewatkan tidur, melewatkan makan, dan membahayakan kesehatan mental untuk menyelesaikan tugas tersebut.

Nomor 22.	

Soal	The Boston Tea Party was one of the events that led to the American Revolution. It happened in the American colony of Massachusetts in 1773. At the time, the colonies were ruled by Great Britain. For many years the American colonist had complained about the way British government treated them. One of the complaints was that the government made the colonists pay taxes on goods that were shipped to them. Although an indirect tax, it was opposed by many American colonists who saw this legislation as another attempt by Parliament to assert unconstitutional authority over the colonies. They complained so strongly about the taxes that the government eventually ended most of the taxes. The colonist still had to pay tax on tea, however. And there was only one company that was allowed to ship tea to the colonies and to sell it there. Colonist in New York City and Philadelphia refused to allow the ships to unload their cargo. In Massachusetts, however, the governor, Thomas Hutchinson, was loyal to the British. He allowed the ships to enter Boston Harbor and unload their cargo. He also made merchants pay the tax on the tea. The first tea shipment arrived in Boston Harbor on the Dartmouth in late November of 1773, and two more soon followed. After its arrival, by law, tea had to be unloaded within 20 days. On December 16, the twentieth day after the Dartmouth's arrival, Sam Adams organized a meeting of his fellow Bostonians to discuss what to do about the tea. Incredibly, 5,000 people (about 1/3 of the population of Boston) attended the gathering. Later that evening, the Sons of Liberty inspired by Adams, and many dressed as Native Americans, tossed 92,000 pounds of tea (valued at about $1.7 million today) into the harbor. The British government soon imposed several new laws that were meant to punish the colonist. One of the new laws closed Boston's harbor until the colonist paid for the tea that was ruined. Although the new laws were aimed mainly at Massachusetts, they made the colonies want to work together to end British rule. Representatives from the 13 colonies met to protest the laws in Philadelphia on September 5, 1774. The meeting became the First Continental Congress. This important event, possibly more so than any other from the colonial era, is emblematic of American resistance to British oppression. source: https://www.commonlit.org/en/texts/boston-tea-party https://www.americanacorner.com/blog/boston-tea-part Which of the following is TRUE about the Boston Tea Party? A. About half of the Boston population participated in the event B. The event was initiated by the Massachusetts government C. The Dartmouth tea ship were destroyed during the event D. Nearly one hundred thousand pounds of tea were dumped E. The natives Americans were responsible for carrying out the event

Pembahasan	**Jawaban: D. Nearly one hundred thousand pounds of tea were dumped** **Pembahasan** Arti soal: “Manakah dari berikut ini yang BENAR tentang Pesta Teh Boston?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian yang membahas tentang peristiwa Pesta Teh Boston. Adapun hal tersebut dibahas dalam paragraf 3 berikut: *“The first tea shipment arrived in Boston Harbor on the Dartmouth in late November of 1773, and two more soon followed. After its arrival, by law, tea had to be unloaded within 20 days. On December 16, the twentieth day after the Dartmouth’s arrival, Sam Adams organized a meeting of his fellow Bostonians to discuss what to do about the tea. Incredibly, 5,000 people (about 1/3 of the population of Boston) attended the gathering. Later that evening, the Sons of Liberty inspired by Adams, and many dressed as Native Americans, tossed 92,000 pounds of tea (valued at about $1.7 million today) into the harbor.”* Artinya: “Pengiriman teh pertama tiba di Pelabuhan Boston di Dartmouth pada akhir November 1773, dan dua lagi segera menyusul. Setelah kedatangannya, secara hukum, teh harus dibongkar dalam waktu 20 hari. Pada tanggal 16 Desember, hari kedua puluh setelah kedatangan Dartmouth, Sam Adams mengadakan pertemuan dengan sesama warga Boston untuk membahas apa yang harus dilakukan tentang teh. Luar biasanya, 5.000 orang (sekitar 1/3 dari populasi Boston) menghadiri pertemuan tersebut. Malamnya, Sons of Liberty yang terinspirasi oleh Adams, banyak yang berpakaian seperti penduduk asli Amerika, melemparkan 92.000 pon teh (senilai sekitar $1,7 juta hari ini) ke pelabuhan.” Selanjutanya, kita harus menemukan dari opsi A sampai E mana yang merupakan pernyataan yang sesuai dengan isi kalimat. **Opsi A (salah)** Artinya: “Sekitar setengah dari populasi Boston berpartisipasi dalam Peristiwa ini”. Opsi A salah karena bukan merupkan pernyataan yang sesuai dengan informasi dalam teks. **Opsi B (salah)** Artinya: “Peristiwa ini diprakarsai oleh pemerintah Massachusetts”. Opsi B salah karena bukan merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “Kapal the Dartmouth dihancurkan dalam peristiwa ini”. Opsi C salah karena bukan merupakan pernyataan yang sesuai dengan informasi dalam teks. **Opsi D (BENAR)** Artinya: “Hampir seratus ribu pon teh dibuang”. Opsi D benar karena merupakan

Soal	Hawai'i, that honeymoon destination known for stunning sunsets, has a dark secret—it's a geologically violent place. That's because the Hawaiian Islands were born from volcanic activity. In fact, that volcanism can still be observed today in Hawai'i. The six largest Hawaiian Islands—the Big Island, Maui, Lanai, Molokai, Oahu, and Kauai—form a chain of islands running to the northwest. The islands appear in this pattern for a specific reason: They were formed one after the other as a tectonic plate, the Pacific Plate, slid over a plume of magma—molten rock—puncturing Earth's crust. These magma plumes aren't small—they can extend hundreds of kilometers below Earth's surface. This upwelling of molten rock, known as a "hot spot," creates volcanoes that spew out lava (magma that reaches Earth's surface). The lava then cools and hardens to create new land. The Hawaiian Islands were literally created from lots of volcanoes—they're a trail of volcanic eruptions. Hot-spot volcanism can occur in the middle of tectonic plates. That's unlike traditional volcanism, which takes place at plate boundaries. One explanation that scientists have proposed for hot-spot volcanism is that it occurs near unusually hot parts of Earth's mantle, the layer of the planet below the crust. In the case of the Hawaiian Islands, the Pacific Plate is continually moving to the northwest over the Hawaiian hot spot. This movement caused the Hawaiian chain of islands to form. The Pacific Plate is just one of the Earth's roughly 20 tectonic plates, which are constantly in motion and are responsible for events like earthquakes. There are many landforms around the Hawaiian Islands that formed from the same volcanic hot spot. Scientists believe this hot spot has been expelling lava for roughly 70 million years. source: https://education.nationalgeographic.org/resource/chain-islands-hawaiian-hot-spot According to the passage, why Hawaii is a geologically active region? A. Because its islands were formed by volcanic activity B. Because its islands have breathtaking sunsets C. Because its volcanism can still be seen today D. Because it has a dark secret which is well known E. Because it has six largest island which form a chain

Pembahasan	**Jawaban: A. Because its islands were formed by volcanic activity** **Pembahasan:** Arti soal: “Berdasarkan bacaan, mengapa Hawaii adalah Kawasan yang aktif secara geologis?” Untuk menjawab soal ini, kita perlu untuk membaca cepat bacaan untuk menemukan bagian teks yang membahas tentang Hawaii sebagai Kawasan yang aktif secara geologis dan alasannya. Setelah membaca, dapat ditemukan bahwa hal tersebut dibahas dalam paragraf 1, kalimat 1-2 berikut: “Hawai'i, that honeymoon destination known for stunning sunsets, has a dark secret—it’s a geologically violent place. That’s because the Hawaiian Islands were born from volcanic activity.” Artinya: “Hawai'i, tujuan bulan madu yang terkenal dengan matahari terbenam yang menakjubkan, memiliki rahasia gelap— yaitu tempat ini berbahaya secara geologis. Hal ini karena Kepulauan Hawaii lahir dari aktivitas gunung berapi.” Dari kalimat tersebut dapat disimpulkan bahwa arti frasa “it’s a geologically violent place” adalah bahwa Hawaii adalah Kawasan yang aktif secara geologis. Selanjutnya, dijelaskan bahwa hal tersebut terjadi karena kepulauan Hawaii terbentuk karena aktivitas volkanik/gunung berapi. **Opsi A (BENAR)** Artinya: “karena pulau-pulaunya terbentuk oleh aktivitas gunung berapi”. Opsi A benar karena memuat alasan yang tepat mengapa Hawaii disebut Kawasan yang berbahaya secara geologis. **Opsi B (salah)** Artinya: “karena pulau-pulaunya memiliki matahari terbenam yang indah”. Opsi B salah karena bukan merupakan alasan yang sesuai dengan informasi dalam bacaan. **Opsi C (salah)** Artinya: “Karena vulkanismenya masih bisa dilihat sampai sekarang.” Opsi C salah karena bukan merupakan alasan yang sesuai dengan informasi dalam bacaan. **Opsi D (salah)** Artinya: “Karena memiliki rahasia gelap yang terkenal.” Opsi D salah karena bukan merupakan alasan yang sesuai dengan informasi dalam bacaan. **Opsi E (salah)** Artinya: “karena memiliki enam pulai terbesar yang membentuk rantai”. Opsi E

Soal	What determines how generous a person is? Could it be how much money they have? How kind are they? Or maybe it comes down to their values. These all seem reasonable assumptions, but a new study from Berkeley University suggests something that feels as trivial as how well someone has slept lately can also affect how willing they are to help other people on any given day. It found sleep deprivation leads to a reduction in generosity. The researchers tested how kind people were when they were tired in three different ways. In the first study, they deprived 21 volunteers of sleep for 24 hours, then asked them how willing they would be to help in a range of scenarios such as helping a stranger carry their shopping bags. They asked the participants to repeat the altruism questionnaire after a normal night's sleep. The researchers also studied the 21 participants' brain activity levels using fMRI imaging. Next, 171 volunteers recruited online kept a diary of their sleep before doing the same questionnaire. For both experiments the researchers found that tired participants scored lower on the altruism questionnaire. This was the case regardless of participants' empathy traits and whether the person they were supposed to help was a stranger or someone familiar to them. Finally, the researchers analyzed over 3.8 million charity donations made in the US before and after the clocks were changed for summer, which causes everyone to lose an hour's sleep. Donations decreased by 10% in the days after the clocks changed compared to the weeks before and after the transition. The fMRI imaging analysis found sleep deprivation seems to be connected to reduced activity in the area of the brain linked to social cognition, which regulates our social interactions with others. The change in brain activity was not related to sleep quality, only to quantity. The good news is this effect is short lived, and disappears once we return to our normal sleep pattern. source: https://theconversation.com/tiredness-can-change-how-generous-you-are-new-research-189072 Which of the following is NOT a method of data collection used in the research? A. Questionnaire B. Experiment C. fMRI imaging D. Observation E. On-site survey

Pembahasan	**Jawaban: E. on-site survey** **Pembahasan:** Arti soal: “Manakah dari berikut ini yang BUKAN merupakan metode pengumpulan data yang digunakan dalam penelitian?” Untuk menjawab soal ini kita perlu membaca cepat teks untuk mencari bagian teks yang membahas tentang metode yang digunakan dalam penelitian. Selanjutnya, dari penjelasan mengenai bagaimana penelitian tersebut dilakukan, kita dapat menarik kesimpulan metode pengumpulan data apa saja yang digunakan dalam penelitian. Adapun, hal tersebut dibahas dalam paragraf 2-4 berikut: *“The researchers tested how kind people were when they were tired in three different ways. In the first study, they deprived 21 volunteers of sleep for 24 hours, then asked them how willing they would be to help in a range of scenarios such as helping a stranger carry their shopping bags. They asked the participants to repeat the altruism questionnaire after a normal night’s sleep. The researchers also studied the 21 participants’ brain activity levels using fMRI imaging.* *Next, 171 volunteers recruited online kept a diary of their sleep before doing the same questionnaire. For both experiments the researchers found that tired participants scored lower on the altruism questionnaire. This was the case regardless of participants’ empathy traits and whether the person they were supposed to help was a stranger or someone familiar to them.* *Finally, the researchers analyzed over 3.8 million charity donations made in the US before and after the clocks were changed for summer, which causes everyone to lose an hour’s sleep. Donations decreased by 10% in the days after the clocks changed compared to the weeks before and after the transition.”* Dari bagian tersebut diketahui bahwa penelitian dilakukan dengan tiga cara, yaitu: 1)Meminta partisipan untuk mengisi kuesioner dan memeriksa aktivitas otak partisipan menggunakan pencitraan fMRi (paragraf 2) 2) Melakukan experiment terhadap partisipan dengan mengisi jurnal tidur harian dan kuesioner (paragraf 3) 3) Mengobservasi tingkat donasi di AS sebelum dan sesudah musim panas (paragaf 5) Dari penjelasan tersebut ditemukan 4 metode pengumpulan data yang digunakan dalam penelitian, yaitu 1) kuesioner, 2) pencitraan fMRI, 3) eksperimen, dan 4) observasi. **Opsi A (salah)** Artinya: “Kuesioner”. Opsi A salah karena kuesioner adalah metode pengumpulan data yang digunakan dalam penelitian. **Opsi B (salah)** Artinya: “Eksperimen”. Opsi B salah karena eksperimen adalah metode

Nomor 25.	

Soal	Archeologists have long speculated that Stonehenge, the prehistoric stone circle in Wiltshire, England, was a sort of astronomical calendar because of its perfect alignment with the midsummer and midwinter solstices. However, they have struggled to determine how the calendar worked. Now, Professor Timothy Darvill of Bournemouth University in the UK, may have finally solved the mystery. The expert believes the 5,000-year-old neolithic monument served as a solar calendar for the local residents. "It's a perpetual calendar that recalibrates every winter solstice sunset," Darvill says. "This would have enabled the ancient people who lived near the monument in what is now Wiltshire, UK, to keep track of days and months of the year." Darvill's quest to find the monument's true purpose began in 2020 after a new study revealed that most of the sarsen stones — the rocks found at Stonehenge — were from the same local quarry. They were also taken and set up at Stonehenge at the same time. The expert says this indicated they served a common cause. To find out what that could be, Darvill turned to the monument's arrangement for clues. Stonehenge's outer circle originally comprised 30 large sarsen stones linked together by 30 stone crossbars, or lintels. Darvill believes they represented the 30 days of the month. The researcher further theorizes that the five sets of trilithons — pairs of large vertical stones each with a horizontal stone atop — that lie within the Sarsen Circle, represent five additional days. The archeologist further asserts that the four so-called "station stones" outside the sarsen circle served as a reminder to add a leap day every four years. "Thirty, 5, and 4 are interesting numbers in a calendrical kind of sense," says Darvill. "Those 30 uprights around the main sarsen ring at Stonehenge would fit very nicely as days of the month. Multiply that by 12, and you get 360, add on another 5 from the central trilithons, you get 365." Darvill, who published his findings in the journal Antiquities on March 2, 2022, is unsure why the ancient people decided to develop a solar calendar. He thinks they may have gotten the idea from the Mesopotamians and Egyptians, who also created solar calendars during that time. It is also possible that they embarked on the initiative on their own. source: *https://www.dogonews.com/2022/3/23/stonehenge-may-have-served-as-a-solar-calendar* According to the text, which of the following is NOT TRUE about Stonehenge’s arrangements? A. The station stones set outside of the sarsen stone configuration B. Five pairs of vertical and one horizontal stones for each are stacked C. The researcher was able to turned the monument’ arrangement D. 30 stone crossbars connect the outer circle stones together E. The outmost circle originally consisted of 30 enormous stones

Pembahasan	Arti soal: “Berdasarkan teks, manakah dari berikut ini yang SALAH tentang aturan susunan Stonehenge?” Untuk menjawab soal ini, kita perlu membaca dan memahami tentang aturan susunan Stonehenge yang dibahas dalam teks. Adapun hal tersebut dibahas dalam paragraf 4 berikut: *“To find out what that could be, Darvill turned to the monument's arrangement for clues. Stonehenge's outer circle originally comprised 30 large sarsen stones linked together by 30 stone crossbars, or lintels. Darvill believes they represented the 30 days of the month. The researcher further theorizes that the five sets of trilithons — pairs of large vertical stones each with a horizontal stone atop — that lie within the Sarsen Circle, represent five additional days. The archeologist further asserts that the four so-called "station stones" outside the sarsen circle served as a reminder to add a leap day every four years.”* Artinya: “Untuk mengetahui apa itu, Darvill beralih aturan susunan monument itu untuk mencari petunjuk. Lingkar luar Stonehenge awalnya terdiri dari 30 batu sarsen besar yang dihubungan oleh 30 palang batu atau ambang pintu. Darvill percaya batu-batu itu mewakili 30 hari dalam sebulan. Selanjutnya ia berteori bahwa lima set trilithon -pasangan batu vertical besan dengan batu horizontal diatasnya- yang terletak di dalam lingkaran sarsen mewakili lima hari tambahan. Selanjutnya ia menegaskan bahwa empat batu yang disebut “batu stasiun” di luar lingkar sarsen berfungsi sebagai pengingat untuk menambahkan hari kabisat setiap empat tahun.” Selanjutnya, kita perlu menemukan mana dari opsi A sampai E yang merupakan pernyataan yang SALAH tentang aturan susuan Stonehenge. **Opsi A (salah)** Artinya: “Batu stasiun diatur diluar konfigurasi batu sarsen.” Opsi A salah karena merupakan pernyataan yang sesuai dengan isi teks. **Opsi B (salah)** Artinya: “Lima pasang batu vertikan dan satu batu horizontal masing-masing ditumpuk.” Opsi B salah karena merupakan pernyataan yang sesuai dengan isi teks. **Opsi C (BENAR)** Artinya: “Peneliti dapat mengubah susunan monument tersebut.” Opsi C benar karena merupakan pernyataan yang tidak sesuai dengan isi teks. **Opsi D (salah)** Artinya: “30 palang batu menghubungkan batu lingkar luar.” Opsi D salah karena merupakan pernyataan yang sesuai dengan isi teks. **Opsi E (salah)** Artinya: “Lingkaran terluar awalnya terdiri atas 30 batu besar.” Opsi E salah

Nomor 26.	

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Generally, by people's own accounts, the public idea of women at home is that they are dull and boring. And the stereotype of a working woman is of hard, ambitious, selfish creatures. It is not just that you are either gentle and dull or selfish and interesting. It is that you are either a good mother or you are an interesting woman. (2) "Young women now seem to get a very clear picture that they have got a choice. If they are going to do mothering well, they have got to play for it by not being interesting women. If you are an interesting working woman, you are a bad mother. Lyn Richards put the blame for such notions and for resulting family tensions on the failure of people to talk enough about them. The media, too, are guilty. There is a lot of media coverage of successful career women and still a lot, especially in women's magazines, on the joys of motherhood. There's not that much about the trouble of either role and precious little about combining the roles. Yet half the women who are married in our society are working! (3) Nor is much thought given to the task of loosening the ties entrapping men. Lyn Richards, a working mother, grateful for the privilege of genuinely choosing and being able to afford the role, criticizes the systematic exclusion of men from 'child rearing and the really pretty fabulous aspects of having children. She condemns as ludicrous the idea of 9 to 5 treadmill of work as an absolute duty for men. 'The sheer irony to me is that the women's movement has told women the way to be liberated is to get into the 9 to 5 tied work force that men have been fighting against for a century. Really, we should be using changes in women's values to shake up all the oppression and rigidity that men have been under. (4) Indeed, there has been a change. The new thing since I married is that it's normal for both husband and wife to go on working when they marry. Now marriage isn't a particularly big deal. Very often it just legalizes something which has been going on anyway and it certainly doesn't change a woman's whole basic of life, her notion of who she is. The real life change is having the first child and when that happens I think that probably most couples are still reverting to something like the traditional concept of marriage. But the longer people put off having a child the more likely it is that they won't because they have set up a viable life style. They don't need to have kids now to have a good marriage. (5) Not that motherhood and raising families are wholly going out of fashion but rather that people are having smaller families. Consequently, the period a woman's life when she is not required to devote herself to mothering is lengthening. 'Mothering-the mother role-just isn't a very good identity base today, Lyn Richards say. 'Motherhood is a short-term appointment now. It doesn't last long! The expression combining the roles in precious little about combining the roles! (paragraph 2 in line 9) in the passage means ..... A. being either a married or a career woman B. working both in an office and at home C. serving the family and doing office work D. enjoying motherhood and caring for the family

Pembahasan	**Jawaban: E. having a dual role of mother and career woman.** **Pembahasan:** Combining the roles' disini maksudnya 'peran ganda seorang wanita. Peran tersebut bisa dilihat pada kutipan '*There is a lot of media coverage of successful career women and still a lot, especially in women's magazines, on the joys of motherhood* (paragraf 2 baris 9). Peran ganda di sini adalah sebagai wanita karir dan ibu. Maka jawaban yang tepat adalah opsi E. - Opsi A salah, karena ini merupakan gabungan peran menjadi wanita karir dan menjadi seorang ibu. - Opsi B salah, karena disini maksud dari combining the role adalah peran ganda menjadi wanita karir yaitu bekerja dikantor atau lain sebagainya, dan dirumah menjadi ibu. - Opsi C salah, karena disini menitik beratkan sebuah peran bukan tugas untuk melayani keluarga dan melakukan pekerjaan kantor. - Opsi D salah, karena disini dijelaskan bahwa wanita memiliki peran ganda, menjadi wanita karir dan ibu. Bukan hanya mengurus keluarga saja.

Nomor 27.	

Soal	There are major gaps in how food waste in tourism is understood and calculated, according to researchers at the University of Eastern Finland and the University of Southern California. Food waste originating from hotels, restaurants and events is recognized and can be estimated and calculated, but as the tourism industry is becoming more and more diverse, so are the sources of its food waste. According to the researchers, a focus on preventing food waste only in the traditional food service and accommodation establishments ignores the reality of growing tourist households and will stifle sustainability efforts. Food waste is a major issue globally, and it has also been identified as the most prominent type of hospitality waste. Annually, roughly 1.3 billion tons of food is lost or goes to waste, which is equivalent to one third or even up to one half of all food intended for human consumption. Food waste is a major environmental, social and economic issue. Indeed, the tourism industry is facing ever-growing economical, societal and legislative reasons to address food waste. Today's tourism is not limited to package travel and hotel stays, thanks to the emergence of alternatives such as camping, couch surfing, AirBnB, staying at friends' and relatives' homes or travelling across the country in a recreational vehicle, for example. Food waste is created in all these tourist households, but very little research into the topic has been carried out so far. Yet, there is a need to mitigate food waste from these sources as well. "We can already see that there are savvy players in the tourism industry who have succeeded in reducing their food waste and have even managed to turn that into an asset. Yet, it is not enough for only the traditional food service and accommodation establishments to reduce their food waste, we need to get all tourist households on board. As the tourism sector changes, research into food waste and sustainability becomes ever more important," Research Manager Juho Pesonen from the University of Eastern Finland says. According to the researchers, comprehensive reduction of food waste requires that its sources and amounts are identified and that its disposal by tourist households is addressed. In addition, there is a need to study the drivers of tourist household food waste and barriers to its reduction. source: https://www.sciencedaily.com/releases/2019/11/191101100142.htm According to the researchers, how can food waste be completely reduced? A. by identifying the address of most tourist households B. by first figuring out where and how much it comes from C. by coordinating the barrier of disposal of tourism waste D. by studying the primary drivers of food waste in tourism E. by entirely handling the tourism accommodation services

Pembahasan	**Jawaban: B. by first figuring out where and how much it comes from** **Pembahasan** Arti soal: “Menurut para peneliti, bagaimana limbah makanan dapat sepenuhnya dikurangi?” Untuk menjawab soal ini kita perlu membaca cepat teks untuk menemukan bagian yang membahas pendapat peneliti tentang penanganan limbah makanan. Adapun hal tersebut dibahas dalam paragraf 5 berikut: *“According to the researchers, comprehensive reduction of food waste requires that its sources and amounts are identified and that its disposal by tourist households is addressed. In addition, there is a need to study the drivers of tourist household food waste and barriers to its reduction.”* Artinya: “Menurut para peneliti, pengurangan limbah makanan yang komprehensif mengharuskan sumber dan jumlahnya diidentifikasi dan pembuangannya ditangani. Selain itu, ada kebutuhan untuk mempelajari pemicu sumber limbah makanan pariwisata dan hambatan untuk menguranginya.” Dari kalimat tersebut dapat disimpulkan bahwa para peneliti menyatakan bahwa untuk mengurangi limbah makanan secara komprehsif perlu dulu untuk 1) mengidentifikasi sumber dan jumlahnya dan 2) menangani pembuangannya. **Opsi A (salah)** Artinya: “dengan mengidentifikasi alamat sebagian besar pelaku pariwisata.” Opsi A salah karena tidak sesuai dengan informasi dalam teks. **Opsi B (BENAR)** Artinya: “dengan terlebih dahulu mencari tahu dari mana asalnya dan seberapa banyak.” Opsi B benar karena sesuai dengan informasi dalam teks. **Opsi C (salah)** Artinya: “engan mengkoordinasikan hambatan pembuangan limbah pariwisata.” Opsi C salah karena tidak sesuai dengan informasi dalam teks. **Opsi D (salah)** Artinya: “dengan mempelajari pendorong utama limbah makanan di pariwisata.” Opsi D salah karena tidak sesuai dengan informasi dalam teks. **Opsi E (salah)** Artinya: “dengan sepenuhnya menangani jasa akomodasi pariwisata.” Opsi E salah karena tidak sesuai dengan informasi dalam teks.

Nomor 28.	
Soal	Last week was a hectic week. I have been touring East Java and Bali. There were so many things that I've experienced that it's difficult to write about all of them. I arrived in Yogyakarta, on Sunday. I stayed in a cheap accommodation, a wisma. The room was clean and I cloud get hot water to bathe. On Monday , I went with a tour group to visit Borobudur and the Hindu tamples in Prambanan. Some of these tamples are more than twelve hundred years old. They date well beyond the churches in my hometown in Europe, I was amazed at the enormity of the construction. I'm sure they did not have today to raise and lay those huge blocks of stone. The carvings on the walls were another feature of the construction. I'm getting used to the spicy food served here. I have eaten fresh fish, lamb, and beef. I know you dont eat all this but I've got used to it. On Tuesday i decided to go for a hike to Mount Merapi. But I found out that it was a difficult climb. So I went to the forest park in kaliurang. That was a lovely walk that made m hot and tired. But I managed to cool off in waterfall in the park then walked up to a hill nearby where I could see the smokey, fiery Mount Merapi. The main idea of the second paragraph is... A. The writer arrived in Yogyakarta B. Borobudur, Prambanan temples and the carvings amazed the write C. The writer visited Borobudur and Prambanan temples with a tour group D. The temples are older than the churches in Europe E. The writer spent the night at a cheap wisma

Pembahasan	**Jawaban:** C. The writer visited Borobudur and Prambanan temples with a tour group **Soal :** Ide pokok paragraf kedua adalah.. **Pembahasan:** Ide utama paragraf ke-2 adalah bahwa penulis mengunjungi Candi Borobudur dan Candi Prambanan dengan group tournnya. Pernyataan ini di sebutkan di paragraf 2 . *"On Monday , I went with a tour group to visit Borobudur and the Hindu tamples in Prambanan"*. Kemudian penulis menceritakan pengalamanya disana. Opsi A (Salah) Artinya yaitu Penulis tiba di Yogyakarta Opsi B (Salah) Artinya yaitu Borobudur, candi Prambanan dan ukirannya memukau para penulisnya **Opsi C (Benar)** Artinya yaitu Penulis mengunjungi candi Borobudur dan Prambanan bersama rombongan wisata Opsi D (salah) Artinya Kuil-kuil itu lebih tua dari gereja-gereja di Eropa Opsi E (Salah) Artinya Penulis bermalam di Wisma yang murah

Soal	The average internet user spends nearly three hours a day using social media. It's clear that social media is becoming increasingly crucial to sharing important information with the public -- like how to stay safe from COVID-19, for example -- and researchers want to know what makes a piece of media compelling enough for people to share it online. A new study published in the Journal of Experimental Psychology: Generalled by University of Pennsylvania researchers Danielle Cosme and Emily Falk analyzed the behavior of more than 3,000 individuals to explore the psychology behind sharing information online. It turns out that the answer is quite straightforward: People share information that they feel is meaningful to themselves or to the people they know. Cosme and her team test what contributes to "value-based virality" -- essentially that information on the internet can go viral because people find it inherently valuable, either to themselves or to society. This finding is key to crafting effective messaging for social causes, says Cosme, a research director at the Annenberg School for Communication's Communication Neuroscience Lab. Knowing the psychological ingredients that make a person share a post on social media can help scientists share facts about climate change or public health officials dispel myths about vaccines. Cosme's research shows that people pay more attention to information they perceive to be related to themselves. Similarly, humans are social beings and love to connect with each other. Sharing information activates reward centers in our brain. And when we communicate with others, we consider what the other person is thinking or wants to hear -- a quality known as social relevance. For Cosme's study, participants were exposed to articles and social media posts about health, climate change, voting, and COVID-19. Some participants read headlines and summaries of news articles, others looked at social media posts. All of the participants rated how likely they were to share each message and how relevant they found each one to themselves and to people they know. source: https://www.sciencedaily.com/releases/2022/08/220825164005.htm What is the potential future application of this study’s findings? A. It can be used to find the key method to manage social issues B. It can be used to share facts about climate change or public health C. It can be used to develop impactful method of online social campaign D. It can be applied to dispel myths about vaccines shared in social media E. It can be applied to help scientist crafting their social media posts

Pembahasan	**Jawaban: C. It can be used to develop impactful method of online social campaign** **Pembahasan:** Arti soal: “Apa potensi penerapan hasil penemuan dari penelitian ini di masa depan?” Untuk menjawab soal ini kita perlu membaca cepat teks, terutama pada bagian yang menjelaskan manfaat dari hasil temuan penelitian yang dibahas dalam teks. Adapun hal tersebut dibahas dalam paragraf 3, kalimat 1 berikut: “This finding is key to crafting effective messaging for social causes, says Cosme, a research director at the Annenberg School for Communication's Communication Neuroscience Lab.” Artinya: “Penemuan ini adalah kunci untuk menyusun pesan yang efektif untuk tujuan social, menurut Cosme, direktur penelitian di Annenberg School for Communications’ Communication Neuroscience Lab.” Maka dapat disimpulkan bahwa potensi pengaplikasian hasil penemuan penelitian ini adalah untuk membuat pesan yang efektif untuk disebarkan untuk tujuan social seperti tentang perubahan iklim atau vaksinasi. Opsi A (salah) Artinya: “dapat digunakan untuk menemukan metode kunci untuk mengelola isu sosial.” Opsi A salah karena bukan pengaplikasian hasil temuan yang sesuai dengan informasi dalam teks. Opsi B (salah) Artinya: “dapat digunakan untuk berbagi fakta tentang perubahan iklim atau kesehatan masyarakat.” Opsi B salah karena bukan pengaplikasian hasil temuan yang sesuai dengan informasi dalam teks. Opsi C (BENAR) Artinya: “dapat digunakan untuk mengembangkan metode kampanye sosial online yang berdampak.” Opsi C benar karena merupakan pengaplikasian hasil temuan yang sesuai dengan informasi dalam teks. Opsi D (salah) Artinya: “dapat diterapkan untuk menghilangkan mitos tentang vaksin yang dibagikan di media sosial.” Opsi D salah karena bukan pengaplikasian hasil temuan yang sesuai dengan informasi dalam teks. Opsi E (salah) Artinya: “dapat diterapkan untuk membantu ilmuan menyusun postingan media

Nomor 30.	
Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) The impacts of electronic commerce in a developing country can be helpful rather than **detrimental**. Electronic commerce has the potential to tie developing countries into the rest of the world so they are no longer considered outsiders. For example, electronic commerce can enable more people to access products and services that once were not available. Another benefit is that electronic commerce stores are available 24 hours a day, 7 days a week. As the infrastructure for electronic commerce keeps growing, services that were not offered in the past become available. Many of these benefits have not been proven yet, but the technology is now available, and developing countries are looking forward to these benefits. The high cost technology may still be detrimental in many developing countries. However, the constant innovation of software and hardware will hopefully reduce these costs. (2) Consumers in developing countries can benefit from electronic commerce because they can buy product that could only be found in major cosmopolitan cities. Electronic commerce is closing the gap between the countries that have wide availability of products and those with limited availability. The basic purpose of electronic commerce is to provide goods and services to consumers who do not live close to physical location of the product or service and would otherwise have a hard time acquiring these products and services. (3) Society and consumers alike have only begun to enjoy the benefits of electronic commerce. Since new developments are made on a continuous basis, it will eventually affect every individual. Some of the benefits enjoyed by society and consumers, for example, are ease of transaction, comparability of products, quick delivery and the ability to make any type of transaction at any given time of day. (4) Electronic commerce facilitates delivery of public and social services, such as healthcare, education and distribution of government social services at a reduced cost, improving the quality of care and living in these communities. For example, healthcare services can reach patients in rural areas. It can be inferred from the text that …. A. remote area need to improve their technology to catch up with businesses B. electronic commerce is mainly accessed by develop countries until today C. consumers in developing countries prefer traditional commerce D. society uses electronic commerce for particular products only E. electronic commerce can accelerate services to the public

Pembahasan	**Jawaban : E. electronic commerce can accelerate services to the public** **Pembahasan:** Dapat disimpulkan dari teks bahwa e-commerce dapat mempercepat akses ke masyarakat umum. Maka jawaban yang tepat adalah opsi E. - Opsi A salah, karena teks tersebut tidak menceritakan daerah terpencil perlu meningkatkan teknologi mereka untuk mengejar bisnis, sehingga pernyataan ini tidak sesuai dengan isi teks. - Opsi B salah, karena tidak mencakup seluruh isi teks. - Opsi C salah, karena tidak sesuai dengan isi teks, teks tersebut tidak membahas bahwa negara berkembang lebih memilih perdagangan tradisional. - Opsi D salah, karena penulis menjelaskan bahwa berbagai produk disediakan oleh perdagangan elektronik, sehingga memudahkan masyarakat untuk mengaksesnya.

Soal	On May 24 2018, the United Nations (UN) Security Council unanimously passed a resolution condemning the use of food insecurity and starvation as a tactic of war. It was the first time the Council had ever addressed the issue, acknowledging a threat to the lives of tens of millions of people. Aimed at countries currently engaged in international or civil wars, the resolution implores all parties to leave food stocks, farms, markets, and other distribution mechanisms intact. It demands parties in conflict permit humanitarian aid workers unimpeded access to populations in dire need and states that “using starvation of civilians as a method of warfare may constitute a war crime.” Ending hunger and extreme food insecurity features among the UN’s Sustainable Development Goals, adopted in 2015. Worldwide, the number of hungry and malnourished people had been declining for at least two decades but began rising after 2015. Experts believe conflicts and wars, along with weather events associated with climate change, are the main reasons for this setback. Among the 815 million people suffering from chronic malnutrition in 2016, 60 percent lived in areas affected by armed conflict. Wars are inherently violent and harmful, but destruction of resources can sometimes create more catastrophic harm than bombs and bullets. Warring parties may plunder an enemy’s food supply, deliberately destroying farms, livestock, and other civilian infrastructure. Conflict can cause food shortages and the severe disruption of economic activities, threatening the means of survival of entire populations. Additionally, wars commonly trigger the displacement of huge numbers of people, cutting them off from their food supplies and livelihoods. Refugees are often vulnerable to acute food insecurity as well as disease. Alternately, if people remain in their homes, surrounding armies can trap people inside a village, city, or neighborhood and deprive them of food, medicine, and other vital resources until they surrender. Many conflict zones desperately need humanitarian aid, but increasingly, one or both parties in a conflict may block relief operations from reaching starving populations or even carry out attacks against humanitarian organizations. source: https://education.nationalgeographic.org/resource/hunger-and-war What does this passage imply regarding the cause of the setback in 2015? A. It had reemerged as a result of the continuous occurrences of global strife B. It had reappeared as a result of changes in climate, warfare, and war C. It resurfaced in 2015 attributed to the rise in malnourished individuals D. It returned as a consequence of the decline of starvation all over the world E. It had returned in 2015 due to experts’ belief on the benefit of conflicts and wars

Pembahasan	**Jawaban: B. It had reappeared as a result of change in climate, warfare, and war** **Pembahasan:** Arti soal: “Apa yang tersirat dari teks ini tentang penyebab kemunduran yang terjadi pada tahun 2015?” Untuk menjawab soal ini, kita perlu membaca cepat teks untuk menemukan bagian teks yang membahas tentang kemunduran yang muncul kembali pada tahun 2015. Dapat ditemukan bahwa bagian teks yang membahas hal tersebut ada dalam paragraf 2, kalimat 2-3 berikut: *“Worldwide, the number of hungry and malnourished people had been declining for at least two decades but began rising after 2015. Experts believe conflicts and wars, along with weather events associated with climate change, are the main reasons for this setback.”* Artinya: “Di seluruh dunia, jumlah orang yang mengalami kelaparan dan gizi buruk telah menurun setidaknya selama dua dekade namun mulai mengalami kenaikan kembali setelag tahun 2015. Para ahli percaya bahwa konflik dan perang, bersama dengan kejadian-kejadian yang diasosiasikan dengan perubahan iklim, adalah penyebab utama untuk kemunduran ini.” Dari bagian tersebut, dapat disimpulkan yang dimaksud dengan kemunduran adalah peristiwa adanya kenaikan jumlah orang yang kelaparan dan gizi buruk. Adapun dijelaskan di kalimat selanjutnya bahwa penyebab terjadinya hal tersebut adalah konflik, perang dan kejadian-kejadian yang diasosiasikan dengan perubahan iklim. **Opsi A (Salah)** Artinya: “Kemunduran tersebut muncul kembali sebagai akibat dari kejadian konflik global yang terus menerus terjadi”. Opsi A salah karena bukan alasan yang mengapa kelaparan dan gizi buruk mengalami kenaikan pada tahun 2015 yang sesuai dengan informasi dalam teks. **Opsi B (BENAR)** Artinya: “Kemunduran tersebut muncul kembali sebagai akibat dari perubahan iklim, konflik, dan peperangan”. Opsi B Benar karena perubahan iklim, konflik, dan peperangan adalah alasan yang sesuai dengan informasi dalam teks. **Opsi C (Salah)** Artinya: “Kemunduran tersebut muncul kembali pada tahun 2015 karena adanya peningkatan individu yang mengalami gizi buruk”. Opsi C salah karena bukan alasan yang mengapa kelaparan dan gizi buruk mengalami kenaikan pada tahun 2015 yang sesuai dengan informasi dalam teks. **Opsi D (Salah)** Artinya: “Kemunduran tersebut muncul kembali sebagai konsekuensi dari

Nomor 32.	

Soal	We take it for granted that technology brings people closer together and improves our access to essential products and services. If you can't imagine life without your smartphone, it's easy to forget that people who can't or don't want to engage with the latest technology are being left behind. For example, there have recently been reports that cashless payment systems for car parking in the UK are seeing older drivers unfairly hit with fines. This has led to calls for the government to intervene. Age is one of the biggest predictors of digital exclusion. Only 47% of those aged 75 and over use the internet regularly. And out of the 4 million who have never used the internet in the UK, only 300,000 people are under 55. But older people are not the only ones who feel shut out by new technology. For example, research shows vulnerable people, such as those with disabilities, are also disengaging with e-services and being "locked out" of society. From train tickets to vaccine passports, there is a growing expectation that consumers should embrace technology to participate in everyday life. Essential services such as healthcare, which can already be difficult for older and other people to navigate, are also moving online. Patients are increasingly expected to use the GP website or email to request to see a doctor. Ordering prescriptions online is encouraged. However, not everyone can afford an internet connection or smart technology. Some regions, particularly rural ones, struggle for phone signal. The UK phone network's plans for a digital switchover by 2025, which would render traditional landlines redundant, could cut off people who rely on their landlines. One of the most common reasons for digital exclusion, however, is poverty. When the pandemic hit in March 2020, 51% of households earning between £6,000 to £10,000 had home internet access, compared with 99% of households with an income over £40,000. Limited access to tablets, smartphones and laptops can result in feelings of isolation. Many older consumers have developed strategies to manage and overcome the digital challenges presented by these devices. But those unable to engage with technology remain excluded if their family and friends don't live close by. source: *https://theconversation.com/technology-is-alienating-people-and-its-not-just-those-who-are-older-184095* In the first paragraph, the author implies that technology…. A. allows people to stay in touch with one another B. excludes certain groups of people from society C. causes older individuals to be treated unfairly D. invites those who do not want to engage E. improves access to essential products

Pembahasan	Arti soal: “Dalam paragraf pertama, penulis menyiratkan bahwa teknologi….” Untuk menjawab soal ini, kita perlu memahami paragraf 1, terutama pada bagian yang menjelaskan tentang teknologi. Berikut paragaraf 1: *“We take it for granted that technology brings people closer together and improves our access to essential products and services. If you can’t imagine life without your smartphone, it’s easy to forget that people who can’t or don’t want to engage with the latest technology are being left behind. For example, there have recently been reports that cashless payment systems for car parking in the UK are seeing older drivers unfairly hit with fines. This has led to calls for the government to intervene.”* Artinya: “Kita menerima begitu saja bahwa teknologi mendekatkan orang-orang dan meningkatkan akses terhadap produk dan layanan penting. Jika kamu tidak bisa membayangkan hidup tanpa smartphone, mudah untuk melupakan bahwa orang-orang yang tidak dapat atau tidak ingin terlibat dengan teknologi terbaru akan tertinggal. Misalnya, baru-baru ini ada laporan bahwa sistem pembayaran tanpa uang tunai untuk parkir mobil di Inggris melihat pengemudi yang lebih tua terkena denda secara tidak adil. Ini telah menyebabkan seruan bagi pemerintah untuk campur tangan.” Dari paragraf tersebut dapat disimpulkan bahwa teknologi menyebabkan beberapa orang, seperti para orang tua, merasa tertinggal. Penulis menyiratkan bahwa teknologi mengecualikan kelompok orang tertentu dari masyarakat. **Opsi A (salah)** Artinya: “memungkinkan orang untuk tetap berhubungan satu sama lain.” Opsi A salah karena bukan kesimpulan dari paragaraf 1 yang coba penulis sampaikan tentang teknologi. **Opsi B (BENAR)** Artinya: “mengecualikan kelompok orang tertentu dari masyarakat.” Opsi B benar karena merupakan kesimpulan tentang teknologi dari paragaf 1 yang sesuai denga nisi bacaan. **Opsi C (salah)** Artinya: “menyebabkan individu yang lebih tua diperlakukan tidak adil.” Opsi C salah karena bukan kesimpulan dari paragaraf 1 yang coba penulis sampaikan tentang teknologi. **Opsi D (salah)** Artinya: “mengajak mereka yang tidak ingin terlibat.” Opsi D salah karena bukan kesimpulan dari paragaraf 1 yang coba penulis sampaikan tentang teknologi. **Opsi E (salah)** Artinya: “meningkatkan akses ke produk penting.” Opsi E salah karena bukan kesimpulan dari paragaraf 1 yang coba penulis sampaikan tentang teknologi.

Soal	Did you ride your bike to school when you were kid? A generation ago most kids rode, walked or caught the bus to the school; very few of us were dropped off by our parents at the school gates. These days most of us have exprienced the daily traffic jams around schools at drop-off and pick up times, as parents drive their children to the to school gate. While there is no national data on the number of children who walk or ride to school, a recent Victorian survey found nearly half of all children are driven to school every day. Parents choose to drop their kids at school for a number of reason – mostly to do with safety and convenience. But experts say chauffeuring your kids to school every day could mean they are missing out on much-needed exercise and other life skills. Research suggests at leats a third of Australian children aged 9-16 years are not getting te amount of daily physical activity recommended in national guidelines. But this is not because children's participation in leisure on sporting activities has dropped off, says Dr. Jan Garrard. Participation in these activities has not altered much over the years, Garrard says but what has changed is the level of incident activity children do. "when you look at countries where children are just active as part of everyday life, they do not have to be sporty. All they have to do is to get around the way the community gets around by walking and cycling, and they get enough physical activity"she says. By writing the sentence "... chauffeuring your kids to school every day could mean they are missing out on much-needed exercise and other life-skills." (paragraph 2, sentence 2) the author implies that … A. kids given a lift to school likely lose vital social and physical advantages B. taking kids to school makes them deprived individuals when they grow up C. schooling means not only learning in classes but also socializing with other D. parents spoil their kids future social and physical life by giving them a lift E. when a child needs physical and social training, parents should facilities them

Pembahasan	**Jawaban: A** **Pembahasan:** Soal ini menanyakan Dengan menulis kalimat "... mengantar anak-anak Anda ke sekolah setiap hari bisa berarti mereka kehilangan latihan yang sangat dibutuhkan dan keterampilan hidup lainnya." (paragraf 2, kalimat 2) penulis menyiratkan bahwa...Dan jawaban berdasarkan teks diatas adalah penulis secara tidak langsung ingin menyimpulkan bahwa anak-anak yang sering diantar jemput kesekolah itu telah kehilangan manfaat fisik dan sosial yang penting. **Opsi A (Benar)** anak-anak yang diberi tumpangan ke sekolah kemungkinan besar kehilangan keuntungan sosial dan fisik yang vital Opsi B (Salah) membawa anak-anak ke sekolah membuat mereka menjadi individu yang kekurangan ketika mereka dewasa Opsi C (Salah) sekolah berarti tidak hanya belajar di kelas tetapi juga bersosialisasi dengan orang lain Opsi D (Salah) orang tua memanjakan anak-anak mereka di masa depan kehidupan sosial dan fisik dengan memberi mereka tumpangan Opsi E (Salah) ketika seorang anak membutuhkan pelatihan fisik dan sosial, orang tua harus memfasilitasi mereka

Soal	Passage A Thomas Jefferson could do many things. As a young man, he was a farmer and a lawyer in Virginia. He was also a scientist, an inventor, a philosopher, and an architect. He designed his own home, called Montecello. He could communicate in French, Italian, Spanish, Latin, and Greek. Many of jefferson's ideas became basic principles of the government of the United States. For example, he believed that "all men are created equal". That is we are born the same and should receive the same treatment under the law. He also said that power must come form "the consent free elections, a free press, and free speech". Thomas Jefferson held many important government jobs. He was ambassador to France, Secretary of State (under George Washington), Vice President under John Adams), and the huge Louisiana territory for the United States from France. However, he was killed on April 1865 by a well -know actor and Confederate sympathizer, john Wilkes Booth at Ford's Theater in Washington D.C. Passage B John F. Kennedy was President for only three years, from 1961 to 1963, but his personality and ideas changes America. He was both the first Roman Catholic and the youngest President in history of the country. He set clear goals for America. For example, he promised that the United States would land a man on the moon before 1970. Kennedy supported the ideas of Martin Luther King, Jr. and fought for civil rights, fair housing, and program to stop poverty. He asked Congress for more money for education and medical care for elderly people. Kennedy was against Communism. For example, when the Soviet Union put missiles in Cuba, he sent US ships to surround the island. But he believed that the best way to fight Communism was not by sending armies bt by attacking poverty and injustice. He started the Peace Corps and sent Americans to over sixty countries n Africa, Asia and South Africa. These young volunteers worked and lived with the people, built school, and taught farmers more modern methods. Kennedy was a man for the future. He worked to shop the testing of nuclear weapons. But on November 22, 1963, he was assassinated. The topic discussed in both passage is… A. great deeds done by two president of the US B. the two brilliant and charismatic US president C. the risk of getting killed for being a US president D. intentions of two men become the US president E. efforts of US president to fight againts Communism

Pembahasan	**Jawaban: B. the two brilliant and charismatic US president** **Soal :** Topik yang dibahas dalam kedua bagian tersebut adalah… **Pembahasan**: Topik wacana soal adalah ***The two brilliant and charismatic U.S presidents***. Pernyataan tersebut di pertegas pada teks A yang menggambarkan presiden Thomas Jefferson dan Teks B yang menggambarkan kepemimpinan dari John F. Kennedy. Opsi A (salah) Artinya perbuatan besar yang dilakukan oleh dua presiden AS Opsi B (benar) Artinya dua presiden AS yang brilian dan karismatik Opsi C (salah) Artinya risiko terbunuh karena menjadi presiden AS Opsi D (salah) Artinya niat dua orang menjadi presiden AS Opsi E (salah) Artinya upaya presiden AS untuk melawan komunisme

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text 6 (1) Whales are the largest animals on earth, Bigger than elephants, they may grow 95 feet long, and weigh 150 tons. A baby blue whale, just born, can be 23 feet long and weigh 3 tons. (2) Although whales live in the oceans and swims like a fish, they are not fish. They are mammals, like cows and elephants. Unlike fish they bear young alive, not as eggs. Their babies live on theirs mother's milk. They breathe through their lungs and hold their breath when they go under water. If they cannot come to the surface to breathe fresh air, they will drown. They are warm-blooded, Fish, however, lay eggs, breathe oxygen in the water, and are cold-blooded. (3) Whales live in all the oceans. In the winter, some of them go to the warm water to breed and in the summer, most of them go to the cold water to feed. There are two kinds of whales, whales with teeth (toothed whales) and whales without teeth (baleen whales). The toothed whales eat fish and squid, which they can catch with their teeth, although they swallow their foods without chewing it. The baleen whales eat plankton (small animals and plants). When they find plankton, they open their mouths and swim into the plankton. When they close their mouth they squeeze out the water and swallow the plankton. (4) Whales have few enemies. Only human beings and the killer whales that attack whales. And whales do not seem to fight among themselves. They usually live from 20-30 years. The difference between whales and fish is that whales.... A. do not have to come to the surface to get fresh air B. deliver their young like elephants do C. will die if they can not get oxygen in the water D. are mammals that are cold-blooded E. can easily breathe when they are under water

Pembahasan	**Jawaban: B. deliver their young like elephants do** **Pembahasan:** Pada paragraf kedua dalam bacaan, dikatakan bahwa paus adalah mamalia terbesar yang hidup di laut. Namun, sekalipun mereka tinggal dan hidup di air, mereka tetap membesarkan anak yang mereka lahirkan dan bukan telur karena mamalia adalah hewan yang melahirkan, seperti halnya sapi maupun gajah dalam mengasuh anak mereka.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text 4 (1) Did you ride your bike to school when you were a kid? A generation ago most kids rode, walked or caught the bus to school; very few of us were dropped by our parents at the school gate. These days most of us have experienced the daily traffic jams around schools at drop off and picked-up times, as parents drive their children to the school gate. While there is a national data on the number of children who walk or ride to school, a recent Victorian survey found nearly half of children are driven to school every day. (2) Parents choose to drop their kids at school for a number of reasons-mostly do with safely and convenience. But experts say chauffeuring your kids to school every day could mean they are missing out on much-needed exercise and other life skills. (3) Researchers suggest at least a third of Australian children aged 9-16 years are not getting the amount of daily physical activity recommended by national guidelines, But this is not because children's participation in leisure of sporting activities has dropped off, says Dr. Jan Garrad. Participation in these activities has not altered much over the years, Garrad says but what has changed is the level of incidental activity children do. "When you look at countries where children are just active as part of everyday life, they do not have to be sporty. All they have to do is to get away around the way the community gets around by walking and cycling, and they get enough physical activity," she says. Dr. Garrard statement"... where children are just active as a part of everyday life, they do not have to be sporty." (paragraph 3) may be best restated that.... A. children who are active do not automatically mean they will be good sport B. being muscular should not be the aim of children who are naturally active C. children physical fitness is not closely related with their daily activities D. activeness in children does not mean to make these children physically fit E. when naturally active, children need no more scheduled sports activities

Pembahasan	**Jawaban: E. when naturally active, children need no more scheduled sports activities** **Pembahasan:** Pada kalimat di atas, *"When you look at countries where children are just active as part of everyday life, they do not have to be sporty. All they have to do is to get away around the way the community gets around by walking and cycling, and they get enough physical activity," she says*. Dengan kata lain dapat dikatakan bahwa ketika anak-anak sudah terbiasa untuk bergerak secara aktif, maka sesungguhnya mereka tidak perlu lagi melakukan olahraga secara rutin. Karena dengan selalu bergerak setiap hari sama dengan melakukan olahraga secara rutin. Berdasarkan pilihan jawaban diatas, maka jawaban yang paling tepat untuk pertanyaan tersebut adalah pada pilihan (E)

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) The view that women are better parents than men has shown itself to be true throughout history. This is not to say that men are not of importance in child-rearing; indeed, they are most necessary if children are to appreciate fully the roles of both sexes. But women have proven themselves superior parents as a result of their conditioning, their less aggressive nature and generally better communication skills. (2) From the time they are little, females learn about nurturing. First with dolls and later perhaps with younger brothers and sisters, girls are given the role of career. Girls see their mothers in the same roles so it is natural that they identify this as female activity. Boy, in contrast, learn competitive roles far removed from what it means to nurture. While boy may dream of adventures, girls conditioning means they tend to see the future in terms of raising families. (3) Girls also appear to be less aggressive than boys. In adulthood, it is men not women, who prove to be the aggressors in crime and in war. Obviously, in raising children, a morepatient, gentle manner is preferable to a more aggressive one. Although, there certainly exist gentle men and aggressive women, by and large, female are less likely to resort to violence in attempting to solve problems. (4) Finally, women tend to be better communicator than men. This is shown in intelligence test, where females, on average, do better in verbal communication than males. Of course, communication is of utmost important in rearing children, as children tend to learn from and adopt the communication styles of their parents. (5) Thus, it is all very well to suggest a greater role for men in raising children, let us not forget that women are generally better suited to the parenting roles. Most women are good mothers because they.... A. have brothers and sisters with whom they play B. had to learn about nurturing when they were children C. have never dreams of adventure like boys D. are not to learn about competitive roles E. have known the role of career since childhood

Pembahasan	**Jawaban: E. have known the role of career since childhood** **Pembahasan:** Perhatikan paragraf ke dua pada kalimat *"females learn about nurturing. First with dolls and later perhaps with younger brothers and sisters, girls are given the role of career. Girls see their mothers in the same roles so it is natural that they identify this as female activity. Boys, in contrast, learn competitive roles far removed from what it means to nurture. While boys may dream of adventures, girls conditioning means they tend to see the future in terms of raising families"*, bahwa sejak kecil wanita telah diajarkan baik secara langsung maupun tidak langsung oleh lingkungan, terutama dari ibu mereka, mengenai apa yang harus mereka lakukan di masa depan, terutama tentang bagaimana cara merawat dan mengasuh seorang anak. Tanpa disadari, setiap wanita telah mempunyai naluri keibuan sejak mereka masih kecil, entah karena terbiasa bermain dengan saudara maupun dengan meniru perilaku ibu mereka dalam mengasuh anak, terbukti dengan lebih mampunya wanita dalam merawat anak dan keluarga dibanding pria pada umumnya.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) It is common knowledge that as women get older, pregnancy becomes a riskier enterprise. Advanced maternal age is linked to a number of developmental disorders in children, such as down's syndrome. Now, a study has confirmed that older mothers are more likely to give birth to a child with autism, too. the authors of the epidemiological study, published on February 8 in autism research, examined the parental age of more than 12.000 children with autism and nearly five million "control" children between 1990 and 1999, all living in California. the researchers found that mother over 40 had a 51 percent higher risk of having a child with autism than mother 25 to 29, and a 77 percent higher risk than mothers under 25. (2) Autism a developmental disorder characterized by impaired social interaction and communication appears to be on the rise. The U.S. Center for Disease Control and Prevention now estimates that as many as one in 110 children in the U.S. Has an autistic spectrum disorder a group of developmental disorders including autism, Asperger's syndrome and pervasive developmental disorder. The prevalence of autistic spectrum disorders in California in 2007 was 12 times that from 1987, representing in average annual growth of 13 percent, according to a report from the California Department of Developmental Services. Only a fraction of these extra cases can be explained by changes to diagnostic criteria and earlier diagnoses. (3) Maternal age is also increasing in the U.S.A. California-based study reported a three-fold increase in the number of births to woman ages 40 to 44 between 1982 and 2004. But this trend toward delayed childbearing accounted for less than 5 percent of the total increase in autism diagnose in California over the decade. According to the study a finding that surprised Janie Shelton, a doctoral student in University of California Davis's Department of Public Health Sciences and the study's lead author. "I would have expected to see more of a contribution, because age is a risk factor and woman are having kids later," she says. Earlier work had suggested that both maternal and paternal ages are independently associated with autism risk. But the current study found that paternal age is only a risk factor when the mother is under 30. Which of the following best describes the author's purposes in this study? A. To reveal that the case of autism among children is prevalent B. To analyze how delayed pregnancy brings about autism C. To make the readers aware of the consequence of delayed pregnancy D. To refute a common misconception about the cause of autism E. To demonstrate that autism is associated with delayed pregnancy

Pembahasan	Jawaban: B. To analyze how delayed pregnancy brings about autism Pembahasan: Dari kutipan pada paragraf 1 baris 3...older mothers are more likely to give birth to a child with autism, maka dapat disimpulkan bahwa beberapa gangguan mental seperti autisme bisa dicegah dengan memiliki anak pada usia lebih muda. Maka teks ini bertujuan untuk menganalisis bagaimana menunda kehamilan menyebabkan autisme. - Opsi A salah, karena pada teks tersebut penulis tidak memaparkan bahwa kasus autisme di kalangan anak-anak adalah lazim. - Opsi C salah, karena penulis tidak bertujuan untuk menyadarkan pembaca akan akibat dari menunda kehamilan melainkan penulis menganalisi bagaimana menunda kehamilan menyebabkan austisme. - Opsi D salah, karena penulis menuliskan fakta dan tidak ada isu isu yang lain yang harus disangkal oleh penulis terkait kesalah pahaman umum tentang penyebab autisme. - Opsi E salah, karena penulis menganalisis bukan menunjukan hasil bahwa autisme berhubungan dengan keterlambatan kehamilan.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text 1 (1) The impacts of electronic commerce in a developing country can be helpful rather than **detrimental**. Electronic commerce has the potential to tie developing countries into the rest of the world so they are no longer considered outsiders. For example, electronic commerce can enable more people to access products and services that once were not available. Another benefit is that electronic commerce stores are available 24 hours a day, 7 days a week. As the infrastructure for electronic commerce keeps growing, services that were not offered in the past become available. Many of these benefits have not been proven yet, but the technology is now available, and developing countries are looking forward to these benefits. The high cost technology may still be detrimental in many developing countries. However, the constant innovation of software and hardware will hopefully reduce these costs. (2) Consumers in developing countries can benefit from electronic commerce because they can buy product that could only be found in major cosmopolitan cities. Electronic commerce is closing the gap between the countries that have wide availability of products and those with limited availability. The basic purpose of electronic commerce is to provide goods and services to consumers who do not live close to physical location of the product or service and would otherwise have a hard time acquiring these products and services. (3) Society and consumers alike have only begun to enjoy the benefits of electronic commerce. Since new developments are made on a continuous basis, it will eventually affect every individual. Some of the benefits enjoyed by society and consumers, for example, are ease of transaction, comparability of products, quick delivery and the ability to make any type of transaction at any given time of day. (4) Electronic commerce facilitates delivery of public and social services, such as healthcare, education and distribution of government social services at a reduced cost, improving the quality of care and living in these communities. For example, healthcare services can reach patients in rural areas. The purpose of the text is to …. A. explain the advantages of electronic commerce B. describe innovation of electronic commerce C. provide example of the use of electronic commerce D. promote electronic commerce in developing countries E. show some developing countries applying electronic commerce

Pembahasan	**Jawaban : A. explain the advantages of electronic commerce** **Pembahasan:** Tujuan teks tersebut adalah untuk menjelaskan keuntungan e-commerce (to explain the advantages of electronic commerce). Karena penulis memaparkan berbagai manfaat dari e-commerce dalam berbagai bidang. Maka jawaban yang tepat adalah opsi A. - Opsi B salah, karena teks tersebut tidak membas inovasi e-commerce nya melainkan manfaatnya. - Opsi C salah, karena teks tersebut tidak hanya membahas contoh pengunnaan perdagangan elektronik saja. - Opsi D salah, karena penulis tidak menunjukan adanya promosi e-commerce di negara berkembang. - Opsi E salah, karena penulis tidak menyebutkan negara mana saja yang menerapkan perdagangan elektronik.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks Manic depression is another psychiatric illness that mainly affects mood. A patient suffering from this disease will alternate between periods of manic excitement and extreme depression, with or without relatively normal periods in between. The changes in mood suffered by a manic–depressive patient go far beyond the day-to-day mood changes experienced by the general population. In the period of manic excitement, the mood elevation can become so intense that it can result in extended insomnia, extreme irritability, and heightened aggressiveness. In the period of depression, which may last for several weeks or months, a patient experiences feelings of general fatigue, uselessness, and hopelessness, and in serious cases, may contemplate suicide. The topic of this passage is… A. Various psychiatric illnesses B. How depression affects the mood C. The intense period of manic excitement D. The mood changes of manic depression E. How insomnia happens

Pembahasan	**Jawaban: B. How depression affects the mood** **Pembahasan:** Topik yang tertera pada bacaan paragraf di atas adalah tentang sebuah keadaan depresi yang datang dan memengaruhi perasaan pada seseorang yang menderita.

Soal	Global warning is the most recent threat our earth has to endure. It is about a change in our earth's surface, part or whole, temperature. Temperatures today are 0.74°C higher than 150 years ago. Many scientists believe that the fundamental factor causing it is a rise in atmospheric carbon dioxide level. When people use fossil fuels like coal and oil, the release more carbon dioxide to the air. Nature has already provided us with the preventive equipment. trees, which absorbs much of the carbon dioxide. But nowadays, people cut down the earth's forest recklessly; which means less carbon dioxide is absorbed by plants. If the earth's temperature becomes hotter, the sea level will also become higher. This is partly because water expands when it gets warmer. It is also partly because warm temperatures make glaciers melt. The sea level rise may cause coastal areas to flood. It will also cause the weather patterns to change which leads to many catastrophe for mankind. What is the text describing about? A. Climate change in earth B. Different kinds of weather pattern C. How glaciers melt D. The cause and effect of global warming E. The phenomenon of global warming

Pembahasan	**Jawaban: D** **Pembahasan:** Opsi A (salah) Artinya perubahan iklim di bumi Opsi B (Salah) Artinya berbagai jenis pola cuaca Opsi C (Salah) Artinya bagaimana gletser mencair **Opsi D (Benar)** Artinya penyebab dan akibat pemanasan global Opsi E (Salah) Artinya Fenomena global warming

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Teks (1) Government should not raise fuel price to solve the problem of economic issues. People were affected severely with the high fuel price like last year. Obviously they cut their spending. As an example they had to buy lower quality of rice or palm oil. There were also fewer buyers of secondary commodities like flour, or canned meat or fish. (2) Furthermore, the condition of low income family will become even worse because their expenses will increase while their salaries will not. Many companies will have to trim the number of employers because they are incapable of managing buying or selling price, standard wages and personal affairs. (3) Finally, government should not raise fuel price to overcome economic problem but the solution should be sought by tapping into the nation's own potential and utilizing it to enhance productivity to its maximum. "Many companies will have to **trim** the number of employees" (paragraph 2) The underline word means … A. Five B. Cut C. Add D. Reduce E. Border
Pembahasan	**Jawaban : D. Reduce** **Pembahasan:** Trim memiliki makna yang sama dengan reduce, yaitu mengurangi. Dalam kalimat tersebut perusahaan akan mengurangi jumlah pegawainya.

Soal	Read the following the text, then choose the correct answer by crossing A, B, C, D OR E! Text (1) Keith recently came back from a trip to Chicago, Illinois. This midwestern metropolis is found along the shore of Lake Michigan. During his visit, Keith spent a lot of time exploring the city to visit important landmarks and monuments. (2) Keith **loves** baseball, and he made sure to take a visit to Wrigley Field. Not only did he take a tour of this spectacular stadium, but he also got to watch a Chicago Cubs game. In the stadium, Keith and the other fans cheered for the Cubs. Keith was happy that the Cubs won with a score of 5-4. (3)Chicago has many historic places to visit. Keith found the Chicago Water Tower impressive as it is one of the few remaining landmarks to have survived the Great Chicago Fire of 1871. Keith also took a walk through Jackson Park, a great outdoor space that hosted the World's Fair of 1892. The park is great for a leisurely stroll, and **it** still features some of the original architecture and replicas of monuments that were featured in the World's Fair. (4) During the last part of his visit, Keith managed to climb the stairs inside of the Willis Tower, a 110-story skyscraper. Despite the challenge of climbing the many flights of stairs, Keith felt that reaching the top was worth the effort. From the rooftop, Keith received a gorgeous view of the city's skyline with Lake Michigan in the background. The word "cheered" in paragraph two can be easily be replaced by … A. Yell B. Cuddle C. Kick D. High five E. Kick
Pembahasan	**Jawaban: A. Yell** **Pembahasan:** Kata chreed memiliki arti bersorak, sehingga opsi yang cocok untuk menggantikan kata tersebut adalah opsi A. - Yell (sorak) - Cuddle (berpelukan) - Kick (menendang) - High five (bertepuk tangan)
