Experience

Project Leader E-Market design Airlangga University (MAPA)

Jun - Jul 2022

- Situation: My team has no experience with UI/UX design in Figma, and we have a tight deadline.
- Task: Ensuring that the project is completed successfully and no one is inactive.
- Action: I divided it into 3 divisions. 1st, the User Researcher team consists of 2 people; 2nd, the application outline team consists of 4 people; and finally, I implemented the UI design and prototype in Figma by myself for the project to be completed quickly, because only I understood it.
- Result: Selected as a class representative for an offline campus expo and have the opportunity to present in front of the rector. In addition, MetroTV voted for our team.

Experience
